For the part of the loan portfolio funded by SDOs (Danish covered bonds) and for which LTV ratios exceed the statutory LTV limits of 80% for private residential property and 60% for holiday homes, supplementary collateral must be provided to bondholders. The supplementary collateral requirement averaged DKK 26.3bn in Q1-Q3/2014.

Totalkredit raises supplementary collateral by investing part of its own funds or borrowed funds, primarily proceeds from issued junior covered bonds, in particularly secure assets.

At end-Q3/2014, the balance sheet stood at DKK 685bn against DKK 640bn at the beginning of the year.

The Basel I transitional rules have been extended to 2015 inclusive, but are expected to be further extended to 2019, at which time the new capital requirements will be fully implemented.

Totalkredit applies Nykredit's advanced internal models (IRB) for determination of risk exposures relating to credit risk. The standardised approach is used to determine risk exposures relating to market risk, and risk exposures relating to operational risk is determined using the basic indicator approach.

The internal capital adequacy requirement (ICAAP) is calculated on the basis of the required own funds, which is the minimum capital required, in Management's judgement, to cover all significant risks. At end-Q3/2014, required own funds totalled DKK 10.0bn, equal to an internal capital adequacy requirement of 10.7%.

Credit ratings

The lending activities of Totalkredit and Nykredit Realkredit, Totalkredit's Parent Company, are jointly funded. Due to the joint funding, Totalkredit and Nykredit Realkredit use the same bond series to fund identical loans. Nykredit Realkredit issues the requisite bonds through capital centres which are rated AAA by Standard & Poor's.

The covered bonds issued by Totalkredit through Capital Centre C are also rated AAA by Standard & Poor's. The Capital Centre is not open for new lending.

Totalkredit launched a new product, and a new price structure at end-August

The Danish mortgage system is founded on investors having confidence in the system in any situation. This makes for the lowest possible loan rates for Danish homeowners in the long term. In recent years, credit rating agencies and regulators in Denmark and the EU have pointed out that the large annual bond sales should be reduced so as best to secure the sale of bonds. Remortgaging from ARMs with 1-year or 2-year interest rate reset (F1-F2 loans) to other loan types will contribute to meeting the requirements of credit rating agencies and regulators, including the coming supervisory diamond.

At the end of August, Totalkredit launched a new, variable-rate loan, "F-kort", with interest rate reset every six months. F-kort is linked to the Cita rate, but is funded by bonds with longer maturities. The new product is expected to be more attractive to our customers than the F1-F2 loans, which are also based on a short-term variable interest rate.

As at 1 January 2015, Totalkredit will introduce a new price structure, which implies higher administration margin rates on interest-only loans as well as on F1-F2 loans.

There are no changes to the administration margins on fixed-rate loans, ARMs with 3- to 10-year interest rate reset (F3-F10 loans) or capped floating-rate repayment loans (RenteMax). The administration margin on the new, variable-rate loan will be fixed in line with those of F3-F10 loans.

Furthermore, Totalkredit will increase the price spreads on F1-F2 loans to 0.30 point. The price spread on F3-F10 loans and other variable-rate loans will be raised to 0.20 point. The new price spreads will apply to loans subject to refinancing and interest rate reset as at 1 January 2015 or later.

Following these adjustments, Totalkredit will remain highly competitive in the market. Currently, Totalkredit's administration margins on new loans are the least expensive in the market where most loan types are concerned.

Totalkredit offers personal customers who are affected by these price rises a discount of up to DKK 5,000 if they want to switch loan types, thereby avoiding the price rise partially or completely. The discount is offered until 31 December 2015 inclusive.

Jyske Bank's exit from Totalkredit partnership

Jyske Bank is considered to have exited the partnership as from mid-March 2014.

In June Jyske Bank instituted arbitration proceedings to determine the final terms for its exit from the Totalkredit partnership. In March Jyske Bank had referred customers to Totalkredit corresponding to lending of DKK 82bn. As at 30 September 2014, the amount was DKK 70bn.

Customers' loans or terms and conditions will not be affected by the changed relationship. Going forward, Totalkredit will offer advisory services to these customers and handle any loan losses as well as loss risk. As from mid-March, no distribution commission has been paid to Jyske Bank in accordance with existing agreements.

Totalkredit still expects that Jyske Bank will encourage the refinancing of the majority of the loans into loans granted directly by Jyske Bank or one of the group's companies, and it is expected that about 10% of the loans will be prepaid per quarter to this end.

For the full year 2014, the net impact of revised contractual terms, including an estimated additional decline in the loan portfolio and loan prepayments, is estimated to increase the results of Totalkredit by a total of some DKK 200m, which is more than initially expected.

Nykredit Realkredit A/S designated as a systemically important financial institution

In line with expectations, the Danish Financial Supervisory Authority (FSA) designated the Parent Company, Nykredit Realkredit A/S, and consequently Totalkredit A/S, as a systemically important financial institution (SIFI) in June.

Changes to the Board of Directors

At the extraordinary general meeting held on 30 September 2014, Anders Jensen, Group Managing Director, was elected to the Board of Directors with effect from 1 October 2014.

Jette Alsig Bargholz has decided to terminate her employment with Totalkredit as at 1 November 2014 and has consequently resigned her position as staff-elected member of the Board of Directors of Total-kredit A/S. Alternate Anne Christiansen has joined the Board of Directors as new staff-elected member.

Uncertainty as to recognition and measurement

The measurement of certain assets and liabilities is based on accounting estimates made by the Company Management.

The areas in which assumptions and estimates material to the financial statements have been made comprise provisions for loan and receivable impairment as well as other provisions, cf the mention in the Annual Report 2013.

Uncertainty as to recognition and measurement is described in detail in the company's accounting policies (note 1 of the Annual Report 2013), to which reference is made.

Outlook for 2014

Core earnings after impairment losses for the full year are expected to be around DKK 1.600m-1.800m.

Final results will depend on trends in the housing and financial markets.

Other contingent liabilities As mentioned in the Management's Review, Jyske Bank has instituted arbitration proceedings against Totalkredit. The background is that Jyske Bank disagrees with Totalkredit's opinion that Jyske Bank exited the Totalkredit partnership when it purchased BRFkredit.		
At 30 September 2014, Jyske Bank had referred customers to Totalkredit corresponding to lending of DKK 70bn. In compliance with the partnership agreement, Totalkredit has paid commission to Jyske Bank and offset losses incurred on the customer portfolio on a current basis.		
As from mid-March, Totalkredit considered Jyske Bank to have exited the partnership and consequently ceased its current payments to the bank. Net payments would have come to DKK 147m if Jyske Bank had not exited the partnership.		
Totalkredit still expects that the arbitration tribunal will find in its favour.
