Terms for Capital Centre G of Nykredit Realkredit A/S

The funds of the series reserve fund in the form of securities and bank deposits are placed in separate accounts belonging to the Capital Centre.

The covered bonds issued out of Capital Centre G are ROs (Realkreditobligationer).

Separate terms for bond issuance in the individual series or groups of series will be laid down.

Bond issuance in the series of the Capital Centre may be used for funding lending secured by the types of assets eligible as security for issuance of ROs pursuant to the Danish Mortgage-Credit Loans and Mortgage-Credit Bonds etc. Act.

Bond issuance in the Capital Centre may be used for funding mortgage lending by Totalkredit, which is a subsidiary of Nykredit Realkredit.

The series reserve fund shall at all times fulfil the capital base requirement laid down in the Act, which was 8% of the risk-weighted assets of the Capital Centre at the time of its opening. The capital so transferred will subsequently constitute part of the reserve fund. Nykredit Realkredit may furthermore adopt other placement rules and requirements for the composition and allocation of the portfolio of securities (including limits to large exposures and maximum credit limits for certain sectors and debtors) in addition to the requirements laid down in the Act. Any such decision or adoption will not affect the legal relationship

between the bondholders, the borrowers and Nykredit Realkredit, and Nykredit Realkredit is not liable for the decision/adoption, lapse or amendment of any such requirements, rules or limits, including changes to the rating of the bonds.

The series of Capital Centre G will be open for bond issuance at the earliest with a view to funding mortgage loans disbursed from and including 15 January 2009.

Nykredit Realkredit will decide when to close the Capital Centre for further lending and bond issuance.
