INTERIM REPORT – THE NYKREDIT REALKREDIT GROUP 1 JANUARY – 31 MARCH 2014

Michael Rasmussen, Group Chief Executive, commented:

Nykredit's business income rose by 7% in Q1/2014. Costs continued to decline, and accordingly we have reduced the cost:income ratio significantly. Profit before tax was DKK 878m. Together with value adjustment of strategic equities of DKK 157m, this totalled an upturn in performance compared with Q1/2013.

We have raised our full-year guidance by DKK 250m, in part due to the impact of our "Nykredit 2015" plan and improvement in customers' finances.

A satisfactory performance with progress in the right items, which supports the path taken with our "Nykredit 2015" plan.

The Nykredit Realkredit Group recorded a pre-tax profit of DKK 878m

- The Nykredit Realkredit Group posted a profit before tax of DKK 878m against DKK 923m in Q1/2013
- Core income from business operations rose by 7% to DKK 2,741m
- Value adjustment of interest rate swaps and credit bonds totalled a charge of DKK 228m in Q1/2014, of which DKK 181m was an
 effect of interest rate falls. Value adjustment came to a credit of DKK 15m in Q1/2013
- There was a favourable trend in impairment losses on loans and advances, which were down by DKK 172m on Q1/2013
- Operating costs were DKK 148m below the level in Q1/2013. Of this decline, DKK 128m stemmed from the absence of amortisation of fixed-term rights which were fully amortised at end-2013. The cost:income ratio was 46.4% compared with 55.4% in Q1/2013, of which lower amortisation of rights represented a decline of 5.0 percentage points.

Current issues

- As at 1 May 2014 Nykredit has set up new simplified management and organisational structures with a sharp business and customer focus
- Nykredit expects to raise Tier 2 capital in the near future
- Totalkredit offers funding of secured homeowner loans to its partner banks, which are local and regional banks in Denmark, and the partnership will continue on the same terms after Jyske Bank's exit from the partnership
- In April 2014 the Danish parliament passed new legislation under which Nykredit may issue non-voting shares.

Q1 INTERIM REPORT 2014

NYKREDIT REALKREDIT GROUP RESULTS

Nykredit recorded a profit before tax of DKK 878m against DKK 923m in Q1/2013.

Nykredit's results included 6.9% growth in core income from business operations. Costs declined by 10%, which together with higher core income from business operations contributed to reducing the cost:income ratio from 55.4% in Q1/2013 to 46.4%, of which lower amortisation of distribution rights represented a decline of 5.0 percentage points.

Impairment losses on loans and advances reduced to DKK 515m from DKK 687m in Q1/2013. The development reflected lower impairment losses on bank lending and higher impairment losses on mortgage lending to personal customers.

Nykredit recorded a profit after tax of DKK 678m. Equity was DKK 59,553m after value adjustment of strategic equities at end-Q1/2014.

Core earnings

Core income from business operations

Core income from business operations improved by DKK 176m to DKK 2,741m relative to O1/2013.

Core income from mortgage lending rose 11.9% to DKK 1,925m from DKK 1,720m in Q1/2013. One of the factors behind the development in core income was the administration margin increases made in 2013.

Gross new mortgage lending was on a level with Q1/2013 and came to DKK 29bn. Lending to commercial customers was up by DKK 5bn, whereas lending to personal customers dropped correspondingly.

Nominal mortgage lending declined by DKK 1.4bn to DKK 1,119bn compared with the beginning of the year. The decline was attributable to personal customers, whereas lending to commercial customers rose by DKK 3.3bn.

Core income from banking operations reduced by DKK 23m, or 3%, to DKK 777m relative to Q1/2013. The drop was due to lower earnings in the business area Wholesale, which mainly resulted from a lower trading level in Nykredit Markets.

Bank lending increased by DKK 1.1bn to DKK 48.1bn compared with the beginning of the year. Deposits rose by DKK 3.4bn to DKK 68.6bn compared with the beginning of the year. Nykredit Bank recorded a deposit surplus of DKK 20.5bn at end-Q1/2014 compared with DKK 18.2bn at the beginning of the year.

Value adjustment of derivatives and corporate bonds

In Q1/2014 value adjustment was a charge of DKK 228m, of which interest rate swaps represented a charge of DKK 230m.

The development in Q1/2014 mirrored a charge of DKK 49m relating to a net increase in swap transactions, while the declining interest rate level resulted in a charge of DKK 181m. The greater part of the value adjustment derived from active interest rate swaps, and higher interest rates will thus result in a considerable value adjustment credit.

The development continued to be affected by value adjustment of interest rate swaps with housing cooperatives. In Q1/2013 adjustment of interest rate swaps was a credit of DKK 14m.

Junior covered bonds

Nykredit's junior covered bond issues totalled DKK 38.9bn at end-Q1/2014 against DKK 44.3bn at the beginning of the year, leading to net interest expenses of DKK 110m against DKK 105m in the same period in 2013. Junior covered bonds are used to fund supplementary collateral for covered bonds (SDOs).

Core income from securities

The risk-free interest rate, which corresponds to the Danish central bank's average lending rate, fell from 0.27% to 0.20%. Consequently, core income from securities dropped to DKK 30m from DKK 35m in Q1/2013.

Operating costs, depreciation and amortisation, excluding special value adjustments

Nykredit's costs, excluding special value adjustments, were trimmed by 10% to DKK 1,272m compared with Q1/2013, of which DKK 128m resulted from lower amortisation because the distribution rights obtained in connection with Nykredit's acquisition of Totalkredit were fully amortised at end-2013. Costs as a percentage of core income from business operations were cut from 55.9% at end-2013 to 46.4%.

Payment to the Danish Guarantee Fund for Depositors and Investors amounted to DKK 16m compared with DKK 24m in Q1/2013. The payment consisted of ordinary contributions to the fund.

Impairment losses on loans and advances

Impairment losses on loans and advances were DKK 515m against DKK 687m in Q1/2013, equal to 0.04% of total mortgage and bank lending.

Nykredit's impairment losses on mortgage lending amounted to DKK 475m, or 0.04%, against DKK 470m in Q1/2013. Of impairment losses for the period, DKK 225m, or 0.03% of loans and advances, stemmed from personal customers against DKK 203m in Q1/2013.

Impairment losses on mortgage lending to commercial customers came to DKK 249m, of which the proportion relating to SMEs remained relatively high at DKK 214m. Total impairment losses on commercial lending corresponded to 0.06%.

Group impairment losses on bank lending decreased to DKK 40m, down DKK 177m year-on-year. Of impairment losses for the period, DKK 77m, or 0.49% of loans and advances, related to personal customers, compared with a DKK 6m net reversal of impairment losses in Q1/2013.

Impairment losses on bank lending to commercial customers were a reversal of DKK 37m against losses of DKK 223m in Q1/2013.

Nykredit's impairment provisions for potential losses on mortgage and bank lending in future totalled DKK 8,534m at end-Q1/2014 against DKK 8,456m at the beginning of the year. Total provisions for value

adjustment of interest rate swaps amounted to DKK 2,432m against 2,229m at the beginning of year.

Losses incurred on mortgage and bank lending for the period totalled DKK 426m compared with DKK 369m in Q1/2013. Losses incurred included both losses for the period of DKK 37m and impairment provisions of DKK 389m written off in Q1/2014. Losses incurred on interest rate swaps came to DKK 27m against DKK 13m in Q1/2013.

Investment portfolio income

Nykredit posted investment portfolio income of DKK 349m compared with DKK 668m in Q1/2013.

Investment portfolio income from bonds, liquidity and interest rate instruments amounted to DKK 220m. Investment portfolio income from equities and equity instruments value adjusted through profit or loss came to DKK 129m.

Value adjustment of strategic equities against equity was a credit of DKK 155m.

Nykredit's securities portfolio mainly consists of short-term, highrated Danish and other European covered bonds and credit bonds.

The interest rate risk associated with the bond portfolio was largely eliminated through offsetting government bond sales or the use of interest rate derivatives.

Net interest on Additional Tier 1 capital

Nykredit's Additional Tier 1 capital totalled DKK 11.0bn, which was unchanged from the beginning of 2014. Net interest expenses for Q1/2014 were DKK 114m.

Tax

Tax calculated on profit for the year was DKK 200m, equal to a tax rate of 22.8%.

OUTLOOK FOR 2014

Core income from business operations, excluding value adjustment of interest rate swaps, grew in line with expectations.

However, total core income was below the expected level, mainly due to a charge from value adjustment of interest rate swaps. But as recent years have seen considerable volatility in quarterly value adjustments, the charge for the full year is expected to remain below the 2013 level.

Impairment losses on loans and advances trended lower compared with expectations and impairment losses incurred for Q1/2013, whereas operating costs were in line with expectations.

Overall, Nykredit expects core earnings after impairment losses for the full year to grow by DKK 250m to DKK 2,750m-DKK 3,250m in part due to the impact of our "Nykredit 2015" plan and lower arrears levels

BUSINESS AREAS

Nykredit is organised into the following business areas:

- Retail, which comprises Nykredit's personal customers and small and medium-sized enterprises (SMEs). The business area includes mortgage lending to Nykredit's personal customers arranged via Totalkredit
- Totalkredit Partners, which arranges the Group's mortgage loans to personal customers via local and regional banks
- Wholesale, which comprises Corporate & Institutional Banking and the business units Nykredit Markets and Nykredit Asset Management.

Further, Group Items comprises income and costs not allocated to the business areas, including core income from securities and investment portfolio income.

Gross income from customer business is allocated to the business areas which have supplied the underlying products (Nykredit Markets and Nykredit Asset Management). Gross income attributable to the sales activities of Retail and Corporate & Institutional Banking is subsequently reallocated in full. Correspondingly, Retail and Corporate & Institutional Banking pay a proportion of the operating costs of

Nykredit Markets and Nykredit Asset Management that may be attributed to the sales activities.

Nykredit's core earnings after impairment losses totalled DKK 643m against DKK 370m in Q1/2013. The development reflected growth in core earnings from Totalkredit Partners on the back of growth in business operations and a marked reduction in impairment losses on loans and advances. Core earnings from Wholesale rose following positive value adjustment of interest rate swaps and a net reversal of impairment losses on loans and advances. A higher value adjustment charge on interest rate swaps and higher impairment losses on loans and advances resulted in a downturn in Retail.

Profit before tax in Group Items declined as a result of lower investment portfolio income.

Nykredit's share of total Danish mortgage lending was 42.8% against 43.0% at the beginning of the year. Nykredit's market share in the private residential segment was 47.0% and in the commercial segment 37.1% compared with 47.2% and 37.2%, respectively, at the beginning of the year.

Core income from business operations

RETAIL

The business area Retail comprises personal customers and SMEs, including agricultural customers and private residential rental customers. Retail also includes mortgage lending to Nykredit's personal customers arranged via Totalkredit as well as the activities of Nykredit Mægler A/S and Nykredit Leasing A/S.

Nykredit serves its customers through 55 local customer centres and the sales and advisory centre Nykredit Direkte®. The estate agencies of the Nybolig and Estate chains constitute other distribution channels. Nykredit offers insurance in partnership with Gjensidige Forsikring.

The customers of Retail are offered products within banking, mortgage lending, insurance, pension, investment and debt management.

Activities

In nominal terms, total mortgage lending went down by DKK 1.4bn to DKK 446bn at end-Q1/2014. The decline stemmed from personal customers. Lending to personal customers and commercial customers was DKK 202bn and DKK 244bn, respectively.

Gross new mortgage lending fell by DKK 1.7bn to DKK 8.7bn compared with Q1/2013, of which DKK 3.8bn to personal customers and DKK 4.9bn to commercial customers.

Bank lending reduced from DKK 28.3bn at the beginning of the year to DKK 27.8bn. The decline chiefly stemmed from reduced lending to personal customers. By contrast, deposits increased from DKK 39.5bn at the beginning of the year to DKK 40.8bn, which was attributable to commercial customers.

Results

Core earnings after impairment losses were a loss of DKK 24m against a profit of DKK 341m in Q1/2013.

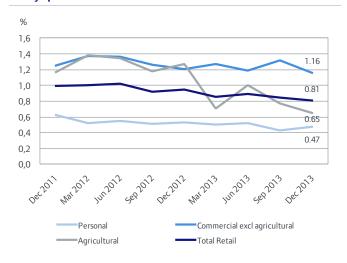

The most important factor underlying the adverse development was a larger charge from the value adjustment of interest rate swaps and higher impairment losses on mortgage lending to personal customers, whereas impairment losses on bank lending declined.

Core income from business operations rose by DKK 22m, or 1.5%, to DKK 1,583m in Q1/2014. Core income from mortgage business improved by DKK 37m, whereas banking and other activities saw a downturn.

Value adjustment of interest rate swaps was a charge of DKK 307m against a credit of DKK 14m in Q1/2013.

Operating costs of DKK 764m in Q1/2014 were in line with the same period the year before.

Arrears ratio, mortgage lending 75 days past due

Mortgage impairment losses rose by DKK 82m to DKK 424m, whereas impairment losses on bank lending dropped by DKK 28m to DKK 74m. Impairment losses totalled 0.09% of mortgage lending and 0.22% of bank lending.

Impairment losses on mortgage and bank lending to personal customers rose by DKK 212m, whereas impairment losses on lending to commercial customers dropped by DKK 158m.

Total impairment provisions amounted to DKK 5,421m at end-Q1/2014 against DKK 5,158m at the beginning of the year. The upturn was prompted by a rise in individual impairment provisions for lending to personal customers.

At the December due date, 75-day mortgage loan arrears as a percentage of total mortgage payments due came to 0.81% for Retail against 0.95% at the same time in 2013.

Core income from business operations

TOTALKREDIT PARTNERS

The business area Totalkredit Partners comprises mortgage loans distributed to personal customers under the Totalkredit brand through nearly 70 Danish local and regional banks.

Totalkredit develops its product range on a current basis together with the local and regional banks of the Totalkredit partnership. In mid-2014 a new secured homeowner loan funded by covered bonds (SDOs) will be introduced.

Under the partnership, the local and regional banks receive part of the administration margin income relating to the loans in question as payment for loan distribution. In return, Totalkredit may offset part of any loss incurred on a loan against the commission payable to the partner banks.

Write-offs corresponding to the cash proportion of a loan exceeding 60% of the mortgageable value at the time of granting are offset against future commission payments from Totalkredit to its partner banks.

Activities

Nominal mortgage lending went down by DKK 3.5bn to DKK 491.2bn compared with the beginning of the year. Gross new lending decreased by DKK 4.1bn to DKK 9.9bn compared with Q1/2013.

Results

Core earnings after impairment losses were DKK 437m against DKK 34m in Q1/2013.

Results mirrored growth in core income from business operations coupled with a decline in impairment losses on loans and advances as well as in depreciation of property, plant and equipment and amortisation of intangible assets.

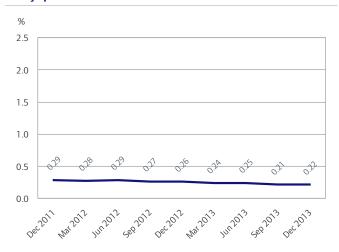

Core income from business operations rose by 34% to DKK 606m in Q1/2014. This was spurred by higher administration margin income, but also lower activity-specific income due to a downturn in lending activity.

Net expenses for junior covered bonds came to DKK 58m against DKK 68m in Q1/2013.

Operating costs decreased to DKK 95m, down DKK 6m compared with Q1/2013.

As the distribution rights were fully amortised at the beginning of the year, nothing has been recorded under depreciation of property, plant and equipment and amortisation of intangible assets.

Arrears ratio, mortgage lending 75 days past due

Loan impairment losses reduced by DKK 107m to DKK 15m compared with the same period in 2013, after set-off against commission payable to partner banks. Loan impairment losses in the period under review were affected by a reversal of collective impairment provisions and a higher set-off against commission payable to partner banks, which amounted to DKK 75m against DKK 66m in Q1/2013.

At end-Q1/2014, impairment provisions totalled DKK 1,051m against DKK 1,139m at the beginning of the year. The change in total impairment provisions stemmed from a decline in both collective and individual impairment provisions relative to the beginning of the year.

At the December due date, 75-day mortgage loan arrears as a percentage of total mortgage payments due were 0.22% against 0.26% at the same time in 2013.

Core income from business operations

WHOLESALE

The business area Wholesale comprises activities with Nykredit's corporate and institutional clients, the non-profit housing segment, cooperative housing and mortgage lending to commercial customers for properties abroad. Wholesale also handles Nykredit's activities within securities and financial derivatives trading, and wealth and asset management. Wholesale consists of Corporate & Institutional Banking, Nykredit Markets and Nykredit Asset Management.

Results

Core earnings after impairment losses came to DKK 457m against DKK 322m in Q1/2013.

The development mirrored growth in business operations in Corporate & Institutional Banking, lower activity in Nykredit Markets, a larger credit relating to value adjustment of derivatives (interest rate swaps) and a reversal of impairment provisions for loans and advances.

Gross income from customer activities was DKK 740m compared with DKK 761m in Q1/2013.

Nykredit Markets posted gross income of DKK 136m, a DKK 50m decrease on Q1/2013. Earnings reflected a low activity level in the fixed income market in particular. Nykredit Asset Management's gross income remained unchanged at DKK 194m. Corporate & Institutional Banking recorded a DKK 34m increase to DKK 410m.

Nykredit Markets's income after payment to Retail dropped by DKK 46m to DKK 70m in Q1/2014, whereas Nykredit Asset Management's income after payment to Retail remained unchanged at DKK 74m relative to the same period the year before. Corporate & Institutional Banking recorded a DKK 35m rise in core income, which totalled DKK 423m.

Value adjustment of derivatives, mainly interest rate swaps, was a credit of DKK 79m against DKK 1m in Q1/2013. The income notably derived from a reversal of value adjustments made in 2013.

Operating costs remained unchanged at DKK 197m on Q1/2013.

Impairment losses on mortgage loans rose by DKK 28m to DKK 24m relative to Q1/2013. The rise resulted from higher collective impairment provisions.

An income of DKK 37m was recorded under impairment losses on bank lending in Q1/2014 against losses of DKK 64m in Q1/2013. Impairment losses include provisions for guarantees amounting to DKK 2m against DKK 56m in Q1/2013.

Impairment losses represented 0.01% of mortgage lending and an income of 0.18% of bank lending.

Other data from end-Q1/2014 and end-2013.

Arrears ratio, mortgage lending 75 days past due

At end-Q1/2014, total impairment provisions were DKK 1,891m against DKK 1,996m at the beginning of the year. The DKK 105m decline in total impairment provisions stemmed from a drop in individual impairment provisions.

Activities

Total nominal mortgage lending went up by DKK 3.5bn to DKK 181bn at end-Q1/2014. Gross new mortgage lending rose by DKK 5.0bn to DKK 10bn compared with the same period the year before.

At end-Q1/2014, bank lending amounted to DKK 20.2bn, up DKK 1.7bn on the beginning of the year. The improvement stemmed from higher lending volumes in all business units.

Bank deposits increased by DKK 2.1bn to DKK 26.7bn at end-Q1/2014. The increase resulted from higher deposits with Corporate & Institutional Banking.

At end-Q1/2014, Nykredit Asset Management had assets under management totalling DKK 115bn, down DKK 1.5bn on the beginning of the year. Total assets under administration went up by DKK 14.1bn to DKK 613bn at end-Q1/2014.

Arrears

At the December due date, 75-day mortgage loan arrears as a percentage of total mortgage payments due were 0.11% against 0.08% at the same time in 2013.

GROUP ITEMS

A number of income statement and balance sheet items are not allocated to the business areas. Such items are carried under Group Items and include costs of some staff functions and IT development costs. Group Items also includes Nykredit's total return on the securities portfolio, which is the sum of "Core income from securities" and "Investment portfolio income". The activities of the companies Nykredit Ejendomme A/S and Ejendomsselskabet Kalvebod A/S are also part of Group Items.

Results

Profit before tax was DKK 8m against DKK 227m in the same period the year before.

Core income from securities

Nykredit's core income from securities was DKK 30m against DKK 35m in Q1/2013. The downturn resulted from a decrease in the Danish central bank's average lending rate from 0.27% in Q1/2013 to 0.20%.

Core income from securities equals the return the Group could have obtained by placing its investment portfolios at risk-free interest rates. Core income from securities also includes net interest expenses relating to Tier 2 capital and the acquisition of Totalkredit.

of loans and advances	44.44	25.43
Guarantees, end of period	1,261	1,260

Operating costs

Unallocated costs remained unchanged at DKK 163m on Q1/2013. By far the largest cost component was IT development costs.

Special value adjustments were a net charge of DKK 3m against a charge of DKK 33m in Q1/2013. The net charge in Q1/2013 chiefly resulted from a revised estimate underlying the calculation of the Group's payroll tax.

Loan impairment

Impairment losses on loans and advances amounted to DKK 15m, which stemmed from an exposure to a single bank.

Investment portfolio income

Investment portfolio income was DKK 349m against DKK 668m in the same period of 2013.

Investment portfolio income from bonds, liquidity and interest rate instruments came to DKK 220m. Investment portfolio income from equities and equity instruments value adjusted through profit or loss was DKK 129m.

Investment portfolio income is the income exceeding risk-free interest obtained from investing in equities, bonds and derivative financial instruments. To this should be added the realisation of equities classified as available for sale and value adjustment of Kalvebod issues. Price spreads and interest margins relating to the mortgage lending of Nykredit Realkredit and Totalkredit and the trading activities of Nykredit Markets are included not as investment portfolio income, but as core income from business operations.

OWN FUNDS, LIQUIDITY AND FUNDING

EQUITY AND OWN FUNDS OF THE NYKREDIT REALKREDIT GROUP

Equity

Nykredit's equity went up by DKK 0.8bn to DKK 59.6bn at end-Q1/2014. The rise consisted of profit for the period of DKK 0.7bn and a credit from the value adjustment of strategic equities of DKK 0.1bn.

In accordance with IAS 39, Nykredit has classified the Group's strategic equity investments as "available for sale" in its Consolidated Financial Statements. Current value adjustment of these equities is recognised in equity, whereas value adjustments following a sale will be reclassified from equity to the income statement. The value of equities classified as available for sale totalled DKK 1,886m at end-Q1/2014.

Internal capital adequacy requirement			
(Pillar I and Pillar II),%	10.3	-	10.4
Own funds and capital adequacy are specified fu	urther in note 2.		

¹ Capital adequacy is determined subject to a transitional rule in accordance with the transitional provisions of the CRR. REA must constitute at least 80% of the capital requirement determined under Basel I. At end-2013, REA subject to the transitional rule amounted to DKK 618bn.

Note: "01.01.2014" shows pro forma figures taking into account the new capital adequacy rules effective from 1 January 2014.

Capital and capital adequacy

Nykredit's own funds came to DKK 64.1bn and the risk exposure amount (REA) (previously risk-weighted assets (RWA)) totalled DKK 349.7bn, corresponding to a total capital ratio of 18.3%. Nykredit's internal capital adequacy requirement (ICAAP) was determined at 10.3%. The determination takes into account approximately DKK 25bn resulting from the changed calculation method for REA following the statutory implementation of advanced IRB models for the lending of Nykredit Bank. The Common Equity Tier 1 (CET1) capital ratio (previously core Tier 1 capital ratio) was 16.0% at end-Q1/2014.

Under the Basel I transitional rules, REA came to DKK 617.7bn, equal to a total capital ratio of at least 14.1%. The Basel I transitional rules have been extended to 2015 inclusive. They are expected to be extended to 2019, at which time the new capital requirements will be fully implemented.

The table includes a column with the heading "01.01.2014", which shows capital and capital adequacy for end-2013 in accordance with the new capital adequacy rules (the Capital Requirements Regulation (CRR)) applicable from 1 January 2014, including the phase-in rules applicable for 2014. The main change relative to the previous rules is that all deductions from Tier 2 capital must be deducted from CET1 capital in future. As Nykredit has not issued a significant amount of Tier 2 capital, largely all deductions are already made from CET1 capital. Accordingly, the change is only of modest importance in practice. To this should be added that only 80% of the value of the issued Additional Tier 1 capital can be included.

The Nykredit Realkredit Group Capital targets towards 2019

NYKREDIT'S CAPITAL TARGETS TOWARDS 2019

Nykredit's capital targets towards 2019, at the current business volumes, are an equity level of DKK 68bn and, in the longer term, a growth and regulatory capital buffer of DKK 5-10bn. In addition, Nykredit has a total capital ratio target of up to 20% of REA in a normal economic climate. This corresponds to total own funds of about DKK 79bn including subordinated capital.

The capital targets are unchanged relative to the Annual Report 2013. The equity target of at least DKK 68bn is expected to be reached on the basis of the current DKK 60bn of equity plus expected future earnings.

FUNDING AND LIQUIDITY

Nykredit's mortgage lending is funded through the issuance of mortgage covered bonds (SDOs and ROs). In addition, the Group may provide statutory supplementary collateral by issuing junior covered bonds (JCBs).

Bank lending is chiefly funded by deposits. As at 31 March 2014, Nykredit Bank had a deposit surplus of DKK 20.5bn measured as the balance between deposits and lending at amortised cost. At end-2013, the deposit surplus came to DKK 18.2bn.

Nykredit's liquidity is determined as the portfolios of highly liquid bonds and cash and is funded by deposits, JCBs, senior debt (EMTN and ECP), subordinated debt and equity.

Liquidity

The balance sheet structure of the mortgage banks ensures a high level of liquidity as mortgage borrowers make their payments on or before the date on which Nykredit pays bondholders.

The liquidity position is to ensure that Nykredit has a sizeable buffer for cash flows driven by customer flows, loan arrears, current costs and maturing capital market funding. In addition, the liquidity position ensures the Group's compliance with regulatory liquidity requirements.

Nykredit's liquid assets are mainly liquid Danish and other European government and covered bonds. In a liquid repo market, these securities are eligible as collateral with other banks and with the Danish or other European central banks and are directly exchangeable into liquidity. To this should be added a small portfolio of money market deposits, equities, credit bonds and similar assets.

The unencumbered proportion of the liquid assets of the Group's mortgage banks, including proceeds from issued JCBs, totalled DKK 89.5bn at end-Q1/2014 against DKK 98bn at the beginning of the year.

At end-Q1/2014, Nykredit Bank's liquid assets totalled DKK 86.2bn against DKK 85.3bn at end-2013, determined in accordance with section 152 of the Danish Financial Business Act.

Liquidity Coverage Ratio (LCR)

As of 2015 Nykredit will be subject to the new international regulatory framework regarding the Liquidity Coverage Ratio (LCR). The LCR requirement is to ensure that the stock of liquid assets is sufficient for meeting all payment obligations 30 days ahead without access to market funding.

It is Nykredit's expectation that covered bonds, except for self-issued bonds, will be eligible for inclusion in the stock of liquid assets. Ny-kredit also expects that some payment obligations relating to matchfunded mortgage lending will be exempted from the LCR rules.

Under the expected rules, the LCRs of the Group's companies (excluding self-issued bonds held as liquid assets) were as follows at end-01/2014:

The Nykredit Realkredit Group	164%
Nykredit's mortgage banks	195%
Nykredit Bank A/S	133%

The Group and the individual group companies all comply with the requirement of an LCR above 100%.

Supplementary collateral – junior covered bonds

Nykredit Realkredit A/S and Totalkredit A/S may provide supplementary collateral by issuing junior covered bonds and placing the proceeds in liquid assets in SDO Capital Centres E and H. In addition, the companies may apply their other liquid assets to fulfil the supplementary collateral requirement.

At end-Q1/2014, the supplementary collateral requirement was DKK 47.0bn. If property prices were to decline by an additional 5%, the requirement would rise to a total of DKK 61.5bn.

The need for supplementary collateral should be seen in the context of the stocks of liquid assets of the Group's mortgage banks, as these are applied to fulfil the requirement. The stock of liquid assets stood at DKK 93.4bn at end-Q1/2014.

Nykredit Realkredit A/S did not issue JCBs in Q1/2014.

Nykredit Bank senior debt

As part of its liquidity management, Nykredit Bank regularly issues senior debt under its EMTN and ECP programmes.

The Bank had issued DKK 16.9bn of medium-term bonds under the EMTN programme and DKK 9.4bn of short-term ECP issues as at 31 March 2014.

The aggregate bond amount issued under the ECP and EMTN programmes was DKK 26.3bn at 31 March 2014 against DKK 29.3bn at end-2013.

Issuance in 2014

The Nykredit Realkredit Group has not made any changes to its schedule for issuance of SDOs, ROs and JCBs or Nykredit Bank's EMTN and ECP programmes for 2014 compared with the information provided in the Annual Report 2013.

CREDIT RATINGS

Nykredit's ratings have not changed since the 2013 Annual Report.

Nykredit Realkredit A/S and Nykredit Bank A/S each have a long-term unsecured rating of A+ and a short-term unsecured rating of A-1 with Standard & Poor's. The rating outlooks are negative. In rated capital centres, SDOs and ROs are all rated AAA by S&P, which is the highest possible rating. The rating outlooks are stable. All issued junior covered bonds are rated A+.

Nykredit Realkredit A/S and Nykredit Bank A/S each have a long-term unsecured rating of A and a short-term unsecured rating of F1 with Fitch Ratings. The rating outlooks are stable.

Moody's is still publishing a number of ratings of companies of the Nykredit Group on an unsolicited basis.

OTHER

Jyske Bank's exit from Totalkredit partnership

Jyske Bank is considered to have exited the partnership as from mid-March 2014.

Customers of Jyske Bank may still raise Totalkredit loans – either through Jyske Bank or directly from Totalkredit.

Jyske Bank has currently referred customers to Totalkredit corresponding to lending of some DKK 82bn. Customers' loans or terms and conditions will not be affected by the changed relationship. Going forward, Totalkredit will offer relevant customers advisory services from Totalkredit, and Totalkredit will handle any loan losses as well as the loss risk. As from mid-March, no distribution commission will be paid to Jyske Bank in accordance with existing agreements.

Totalkredit expects that Jyske Bank will encourage the refinancing of the majority of the loans into loans granted directly by Jyske Bank or one of the group's companies. For the full year 2014, the net impact of the changed contractual terms as well as the refinancing of loans is estimated to be a DKK 100m rise in Totalkredit's results.

Until a new decision has been made, Jyske Bank has full access to the advisory functionalities of Totalkredit's mortgage lending system, the Xportal, irrespective of whether these loans are offered by Totalkredit or other providers.

Stronger customer focus after Nykredit reorganisation

As part of its 2015 plan, the Nykredit Group changed its management and organisational structure in the spring, the purpose being to strengthen its business strategic focus and raise profitability.

This is to be achieved through a strong customer focus with new customer concepts, increased earnings, efficiencies and a less complex organisation, which will bring us closer to our customers and strengthen our dialogue with them. Another important focus area is to strengthen and reinvigorate the business relationship with the some 70 Danish local and regional banks of the Totalkredit partnership.

Nykredit announced new financial targets already in December last year, implying that income must increase by DKK 1bn and costs must reduce by DKK 0.5bn with full effect from 2016. As part of the cost reductions and to raise the efficiency of decision-making processes, it was necessary to reduce the number of management and staff positions by up to 300, mainly in non-customer facing functions. Therefore, Nykredit had to reduce its number of managers and staff members by 220 in March and April, and 80 vacancies were not refilled. The new organisation was implemented on 1 May 2014.

Management change

As a consequence of the new organisational structure, the Group Executive Board was changed and reduced from six to five members. As at 1 March the composition of the Group Executive Board was as follows:

Michael Rasmussen, Group Chief Executive (CEO), Kim Duus, Group Managing Director (Wholesale), NN, Group Managing Director (Retail), Bente Overgaard, Group Managing Director (COO) and Søren Holm, Group Managing Director (CFO/CRO).

Until the appointment of a Group Managing Director for Retail, Michael Rasmussen will be in charge of the business area.

Karsten Knudsen, Group Managing Director, and Per Ladegaard, Group Managing Director, who both turned 60 last year, will retire from the Group Executive Board, but will still be charged with specific assignments for Nykredit until end-August, when they retire.

New legislation on non-voting shares

The Danish parliament passed new legislation in April 2014 under which Nykredit may issue non-voting shares. Nykredit has no current plans to exercise this option.

UNCERTAINTY AS TO RECOGNITION AND MEASUREMENT

The measurement of certain assets and liabilities is based on accounting estimates made by Group Management.

The areas in which assumptions and estimates significant to the financial statements have been made include provisions for loan and receivable impairment, unlisted financial instruments and other provisions, see the Annual Report 2013.

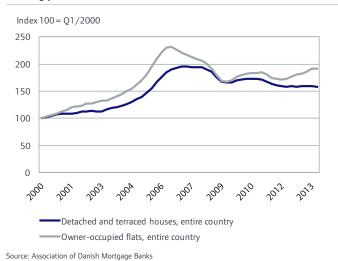

Uncertainty as to recognition and measurement is described in detail in the Group's accounting policies (note 1 of the Annual Report 2013), to which reference is made.

EVENTS OCCURRED AFTER THE END OF THE FINANCIAL PERIOD

No significant events have occurred in the period up to the presentation of the Q1 Interim Report 2014 which affect the financial position of the Nykredit Group.

LENDING

The Nykredit Realkredit Group Housing prices in Denmark

Nykredit's total mortgage and bank lending, excluding reverse lending, was unchanged at DKK 1,167bn compared with the beginning of the year.

Mortgage lending at fair value was DKK 1,142bn against DKK 1,137bn at the beginning of the year. Nominal mortgage lending amounted to DKK 1,119bn.

Bank lending totalled DKK 48.1bn against DKK 47.0bn at the beginning of the year, while reverse lending amounted to DKK 40.6bn against DKK 56.8bn at the beginning of the year.

Impairment provisions for mortgage and bank lending totalled DKK 8.4bn, which was unchanged from the beginning of 2014. At end-Q1/2014, Nykredit had made impairment provisions for receivables from credit institutions of DKK 44m.

At end-Q1/2014, guarantees came to DKK 7.4bn against DKK 6.3bn at the beginning of the year.

Losses incurred totalled DKK 426m in Q1/2014, with DKK 236m on mortgage lending and DKK 190m on bank lending.

¹ Loan impairment excluding receivables from credit institutions, reverse transactions and guarantees. Note: Nominal mortgage lending. Adjusted for intercompany lending and intercompany set-off.

MORTGAGE LENDING

Credit exposures in terms of nominal mortgage lending amounted to DKK 1,119bn at end-Q1/2014 against DKK 1,120bn at the beginning of the year.

The security behind the mortgage loan portfolio is robust. Also, mortgage loans granted via Totalkredit are covered by set-off agreements, which means that Totalkredit may offset part of the losses incurred on mortgage loans against future commission payments to the partner banks.

The LTV ratios of the mortgage loan portfolio are shown in the table below with individual loans relative to the estimated values of the individual properties at end-Q1/2014.

Total provisions for mortgage loan impairment

Total impairment provisions for mortgage lending rose by DKK 225m from the beginning of the year to DKK 4,603m at end-Q1/2014. Of this increase, DKK 72m was related to private residential property and DKK 92m to private residential rental property.

Private residential property accounted for DKK 2,238m and commercial property DKK 2,365m of impairment provisions at end-Q1/2014.

Total impairment provisions amounted to 0.41% of total mortgage lending against 0.39% at the beginning of the year.

Earnings impact

Impairment losses on mortgage lending were DKK 464m against DKK 460m in Q1/2013. Of total impairment losses on loans and advances for the period, DKK 210m, or 45%, was attributable to private residential property.

To this should be added impairment losses on credit institutions total-ling DKK 11m in Q1/2014 compared with DKK 10m in Q1/2013.

Total	4,603	464	4,378	2,404
¹ The breakdown by property type is not directly comparable with the Group's business areas.				

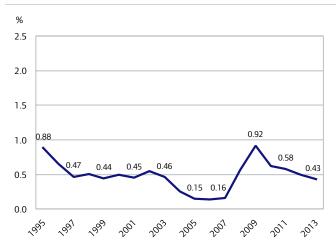

Note: The figures are actual LTV ratios including any financed costs. Public authority guarantees reduce the credit risk relating to subsidised housing that forms part of lending to the non-profit housing segment. For this reason, LTVs of non-profit housing offer no relevant risk data.

In the table, debt outstanding is distributed continuously by LTV category. Loans with security covering for example between 0% and 60% of the mortgageable value are distributed with two thirds of the debt outstanding in the LTV category 0-40% and one third in the LTV category 40-60%.

2012			
- December	0.49	0.53	5.9
- September	0.52	0.51	5.6

The Nykredit Realkredit Group Arrears ratio, mortgage lending – 75 days past the December due date

Arrears

At the December due date, mortgage loan arrears as a percentage of total mortgage payments due were 0.43% against 0.49% at the same time in 2013.

Likewise, bond debt outstanding affected by arrears as a percentage of the total bond debt outstanding declined from 0.53% to 0.50% compared with the same time the year before.

Mortgage loan impairment rose despite decreasing arrears ratios. This was in particular the result of low marketability and declining prices of some property types.

Repossessed properties

In Q1/2014 Nykredit acquired 94 properties and sold 125. At end-Q1/2014, the property portfolio stood at 291 compared with 322 at the beginning of the year, of which 183 were private residential properties.

BANK LENDING

Loans, advances and guarantees were DKK 96.1bn against 110.1bn at the beginning of the year, down DKK 14bn. The decline chiefly stemmed from reverse lending, which fell back by DKK 16.2bn to DKK 40.6bn.

Bank lending amounted to DKK 48.1bn against DKK 47.0bn at the beginning of the year. Bank lending before provisions for loan impairment was DKK 51.9bn against DKK 50.9bn at the beginning of the year.

Nykredit Bank recorded lending growth of 2.2%, excluding reverse lending, determined pursuant to the rules of the Danish FSA, including rules relating to the FSA Supervisory Diamond model. The Danish FSA's lending limit value indicates that growth of 20% or more may imply increased risk-taking.

Including reverse lending, Nykredit Bank's lending decreased by 19.5% relative to end-2013.

Total provisions for bank loan impairment

Provisions for bank loan impairment totalled DKK 3,819m against DKK 3,974m at the beginning of the year.

Impairment provisions for receivables from credit institutions came to DKK 23m at end-Q1/2014 compared with DKK 19m at end-Q1/2013.

Guarantees

The Bank issues guarantees on a current basis. Guarantees issued were DKK 7.4bn against DKK 6.3bn at the beginning of the year.

At end-Q1/2014, provisions for guarantees amounted to DKK 113m against DKK 103m at the beginning of the year.

Earnings impact

For the period under review, loan impairment losses came to DKK 27m, and provisions for guarantees amounted to DKK 9m – a total charge of DKK 36m. By comparison, loan impairment losses and provisions for guarantees were DKK 198m in Q1/2013.

To this should be added impairment losses on credit institutions totalling DKK 4m in Q1/2014 compared with DKK 19m in Q1/2013.

MANAGEMENT STATEMENT

STATEMENT BY THE BOARD OF DIRECTORS AND THE EXECUTIVE BOARD ON THE INTERIM REPORT

The Board of Directors and the Executive Board have today reviewed and approved the Interim Report for the period 1 January – 31 March 2014 of Nykredit Realkredit A/S and the Nykredit Realkredit Group.

The Consolidated Financial Statements have been presented in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU. The Interim Financial Statements of the Parent Company have been presented in accordance with the Danish Financial Business Act and the Danish Executive Order on Finan-

cial Reports for Credit Institutions and Investment Firms, etc.

Further, the Interim Report has been prepared in accordance with additional Danish disclosure requirements for interim reports of issuers of listed bonds.

We are of the opinion that the Interim Financial Statements give a fair presentation of the Group's and the Parent Company's assets, liabilities, equity and financial position at 31 March 2014 and of the results of the Group's and the Parent Company's operations as well as the Group's cash flows for the financial period 1 January – 31 March 2014.

We are furthermore of the opinion that the Management's Review gives a fair review of the development in the operations and financial circumstances of the Group and the Parent Company as well as a description of the material risk and uncertainty factors which may affect the Group and the Parent Company.

The Interim Report has not been audited or reviewed.

Notes

1. ACCOUNTING POLICIES

GENERAL

The Consolidated Financial Statements for Q1/2014 are prepared in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU and further Danish financial reporting and disclosure requirements for interim reports. Compliance with IAS 34 implies observance of the principles of recognition and measurement of the IFRS but also a less detailed presentation relative to the annual report.

The Interim Financial Statements for Q1/2014 of the Parent Company are prepared in accordance with the Executive Order on Financial Reports for Credit Institutions and Investment Firms, etc. issued by the Danish Financial Supervisory Authority.

New and amended standards and interpretations

Reporting standards and interpretations in force as at 1 January 2014 have been implemented with no effect on results for the period, comprehensive income, balance sheet or equity.

Compared with the information disclosed in the accounting policies of the Annual Report 2013 (note 1), no new reporting standards or interpretations have been issued or approved which influence the Q1 Interim Report 2014 of Nykredit Realkredit A/S and the Nykredit Realkredit Group.

The IASB is still working on a project which, in time, will replace the IAS 39 rules. The revised standard – IFRS 9 – is divided into three main phases comprising classification and measurement of financial assets and liabilities, impairments and hedge accounting. The impact of the implementation of IFRS 9 on the Consolidated Financial Statements has not yet been analysed, as the standard is not currently available in a form that allows for an overall assessment of the effect.

The accounting policies are otherwise unchanged compared with the Annual Report 2013. For a full description of the Group's and the Parent Company's accounting policies, please refer to note 1 of the Annual Report 2013, which is available at nykredit.com.

All figures in the Interim Report are rounded to the nearest million kroner (DKK). The totals stated are calculated on the basis of actual figures. Due to the rounding-off, the sum of individual figures and the stated totals may differ slightly.

		Capital and capital adequacy have been determined in accordance with Capital Requirements		
		Regulation (EU) No 575/2013 of 26 June 2013 of the European Parliament and the Council as well as the Danish transitional rules laid down by the Danish FSA.		
		The European Banking Authority (EBA) publishes technical standards for the determination of		
		capital and the risk exposure amount. However, several technical standards have not been		
		finally adopted. The final standards may contain provisions that will result in changes to the statements.		
		sutcherts.		
		The statements as at 31 December 2013 were based on the then applicable rules of the		
		Danish Financial Business Act. The layout has been adjusted to reflect the new presentation		
		format.

1,354		Other liabilities	1,455	1,544
1,356		Total	7,847	8,073
		"Other liabilities" under "Other commitments" comprises obligations to and charges in favour of securities depositories, investment commitments to private equity funds and non-callable lease payments. Other contingent liabilities Owing to the size and business scope of the Nykredit Realkredit Group, the Group is continuously involved in legal proceedings and litigation. The cases are subject to ongoing review, and necessary provisions are made based on an assessment of the risk of loss. Pending cases are not expected to have a significant effect on the Nykredit Realkredit Group's financial position. Nykredit Bank A/S participates in the mandatory Danish deposit guarantee scheme, the Danish Guarantee Fund for Depositors and Investors. Participating banks must pay a fixed annual amount of 2.5% of the covered net deposits. Payment to the Fund's bank department is mandatory until the assets of the scheme exceed 1% of the covered net deposits of the sector. The bank department bears any direct losses from the		
		winding-up of Danish banks, cf Bank Rescue Packages III and IV, to the extent the loss is attributable to the covered net deposits. Any losses arising from the final winding-up are covered by the Guarantee Fund for Depositors and Investors through its winding-up and restructuring department. Nykredit Bank's share of the expense will amount to about 3%. Nykredit Realkredit A/S has issued a letter of comfort stating that Nykredit Realkredit A/S will contribute capital to Nykredit Bank A/S to ensure that Nykredit Bank A/S's Tier 1 capital calculated according to the Capital Requirements Regulation of the European Parliament and the Council as well as the Danish transitional rules laid down by the Danish FSA does not fall below 13%. However, Nykredit Realkredit A/S will no contribute capital to Nykredit Bank A/S if that will bring Nykredit Realkredit A/S's total capital ratio below the statutory capital requirement plus 0.5% or the internal capital adequacy requirement (ICAAP) plus 0.5% The Company is jointly taxed in Denmark with Foreningen Nykredit as the administration company. Pursuant to the Danish Corporation Tax Act, the Company is liable for income taxes etc payable by the jointly taxed companies as of the financial year 2013 and for any obligations to withhold tax at source on interest, royalties and dividends of these companies as of 1 July 2012.	t	
		Nykredit Realkredit A/S is liable for the obligations of the pension fund in run-off Nykredits Afviklingspensionskasse (CVR no 24256219).		

Notes

26. RELATED PARTY TRANSACTIONS AND BALANCES

Foreningen Nykredit, the Parent Company Nykredit Holding A/S, group enterprises and associates of Nykredit Realkredit A/S as stated in Group structure as well as Nykredit Realkredit A/S's Board of Directors, Executive Board and related parties thereof are regarded as related parties.

No unusual related party transactions occurred in Q1/2014.

The companies have entered into various agreements as a natural part of the Group's day-to-day operations. The agreements typically involve finance, guarantees, referral commission, tasks relating to IT support and IT development projects, payroll and staff administration as well as other administrative tasks. Intercompany trading in goods and services took place on an arm's length or cost reimbursement basis.

Significant related party transactions prevailing/entered into in Q1/2014 include:

Agreements between Nykredit Realkredit A/S and Totalkredit A/S

Nykredit Realkredit A/S has granted a loan to Totalkredit A/S serving as collateral in Totalkredit's capital centres. At 31 March 2014, the loan amounted to DKK 27.3bn.

An agreement has been made to hedge market risk relating to collateral, including investments, in Totalkredit's capital centres.

Agreement on the distribution of mortgage loans to personal customers via Totalkredit A/S (this agreement was concluded on the same terms as apply to other partners, including commission payments).

Transfers from Observable inputs to Unobservable inputs consist of interest rate swaps adjusted for increased credit risk based on a credit value adjustment (CVA) model (DKK 1,823m) and of four untraded bonds (DKK 183m) for which measurement is subject to significant elements of unobservable inputs.

Notes

The Nykredit Realkredit Group

27. FAIR VALUE HIERARCHY FOR FINANCIAL INSTRUMENTS (continued)

Listed prices

The Group's assets and liabilities at fair value are to the widest extent possible recognised at listed prices or prices quoted in an active market or authorised market place.

Observable inputs

When an instrument is not traded in an active market, measurement is based on observable inputs and the use of generally accepted calculation methods as well as valuation and estimation techniques such as discounted cash flows and option models.

Observable inputs are typically yield curves, volatilities and market prices of similar instruments which are usually obtained through ordinary providers such as Reuters, Bloomberg and market makers. If the fair value is based on transactions in similar instruments, measurement is exclusively based on transactions at arm's length. Reverse lending and repo transactions as well as unlisted derivatives generally belong in this category.

Measurement techniques are generally applied to measure derivatives and unlisted assets and liabilities.

In some cases, the markets, eg the bond market, have become inactive and illiquid. When assessing market transactions, it may therefore be difficult to conclude whether the transactions were executed at arm's length or were forced sales. If measurement is based on recent transactions, the transaction price is compared with a price based on relevant yield curves and discounting techniques.

Unobservable inputs

When it is not possible to measure financial instruments at fair value through active market prices or observable inputs, measurement is made on the basis of internal assumptions and extrapolation. Where possible and appropriate, measurement is based on actual transactions adjusted for differences in eg the liquidity, credit spreads and maturities of the instruments. The Group's unlisted equities are generally classified under this heading although measurement is based on the IPEV Valuation Guidelines.

Positive market values of a number of interest rate swaps with customers in Nykredit Bank's lowest rating categories have been adjusted for increased credit risk based on a CVA model. The model uses the statistical data applied by Nykredit Bank to calculate collective impairment provisions for loans and advances at amortised cost.

Measurement, notably of instruments classified as unobservable inputs, is subject to some uncertainty. Of total assets and liabilities, DKK 3,649m and DKK 273m, respectively, can be ascribed to this category. Assuming that actual transaction prices will deviate by +/- 10% from the calculated fair value, the earnings impact will be approximately DKK 392m.

		Capital and capital adequacy have been determined in accordance with Capital Requirements Regulation (EU) No 575/2013 of 26 June 2013 of the European Parliament and the Council as well as the Danish transitional rules laid down by the Danish FSA.		
		The European Banking Authority (EBA) publishes technical standards for the determination of capital and the risk exposure amount. However, several technical standards have not been finally adopted. The final standards may contain provisions that will result in changes to the statements.		
		The statements as at 31 December 2013 were based on the then applicable rules of the Danish Financial Business Act. The layout has been adjusted to reflect the new presentation format.
