

INTERIM REPORT – NYKREDIT REALKREDIT GROUP

1 JANUARY – 30 JUNE 2014

Michael Rasmussen, Group Chief Executive, comments on Nykredit's interim report:

We have just reported satisfactory financial results matching our expectations. The parameters within our control are headed in the right direction relative to the course we have set: Core income from business operations has improved by 8%, and costs have declined markedly. We maintain our upward revision of the full-year results.

We are headed in the right direction, but can do even better. The core of our new strategy is improved earnings through a stronger focus on Danish homeowners and a closer business relationship with Totalcredit's partner banks. We have expanded our range of joint products to include new home finance options for our customers. Coupled with robust ratings and capitalisation, these are the most important elements in continuing our strong competitive leverage.

We were the first to introduce 2.5% loans in Denmark, and within the next month we will launch a new variable-rate loan. In addition, our customers have historically good opportunities for locking in loan rates for a short or long period.

The favourable refinancing opportunities coincide with a need for longer-dated funding requirements in line with the requirements of credit rating agencies and regulatory authorities. We will support this process, adjusting our price structure and providing attractive refinancing options. Our prices will continue to be highly competitive.

The Nykredit Realkredit Group recorded a pre-tax profit of DKK 1,719m

- The Nykredit Realkredit Group recorded a pre-tax profit of DKK 1,719m against DKK 1,309m, excluding reclassification of profit from the sale of strategic equities of DKK 697m in H1/2013
- Core income from business operations rose by 8% to DKK 5,569m relative to H1/2013
- Operating costs were down by 12% to DKK 2,542m on H1/2013
- The cost:income ratio was 45.6% compared with 55.8% in H1/2013
- Value adjustment of interest rate swaps totalled a charge of DKK 435m, of which DKK 362m was an effect of interest rate falls. Value adjustment came to a credit of DKK 50m in H1/2013
- Impairment losses on loans and advances were DKK 1,049m, or 0.08%.

H1 INTERIM REPORT 2014

NYKREDIT REALKREDIT GROUP RESULTS RELATIVE TO H1/2013

Nykredit recorded a profit before tax of DKK 1,719m against DKK 2,006m.

Nykredit's results reflect a positive development in core income from business operations of 8.0%, whereas value adjustment of interest rate swaps due to declining interest rate levels affected results adversely by DKK 362m against a credit of DKK 281m the year before.

Investment portfolio income rose from DKK 302m to DKK 602m excluding reclassification of profit from the sale of strategic equities.

Costs declined by 12%, which together with higher core income from business operations helped reduce the cost:income ratio from 55.8% to 45.6%, of which lower amortisation of rights represented a decline of 5.0 percentage points.

Loan impairment losses came to DKK 1,049m compared with DKK 929m the year before. The development reflected lower impairment losses on bank lending and higher impairment losses on mortgage lending.

Nykredit recorded a profit after tax of DKK 1,337m. Equity was DKK 60,231m after value adjustment of strategic equities at end-H1/2014.

Core earnings

Core income from business operations

Core income from business operations increased by DKK 412m to DKK 5,569m.

Core income from mortgage lending rose DKK 455m, or 13.5%, to DKK 3,820m in H1/2014. One of the factors behind the development in core income was the administration margin increases made in 2013.

Nominal mortgage lending declined by DKK 3.2bn to DKK 1,117bn compared with the beginning of the year. The decline was attributable to personal customers, which segment saw a fall of DKK 6.9bn, whereas lending to commercial customers rose by DKK 3.7bn.

Core income from banking operations dropped by DKK 36m, or 2%, to DKK 1,661m. The decline mainly resulted from lower trading activity in Nykredit Markets.

Bank lending was DKK 46.9bn, which was unchanged on the beginning of the year. Deposits fell by DKK 3.4bn to DKK 61.8bn compared with the beginning of the year. The decline was attributable to lower deposits with Nykredit Asset Management. Nykredit Bank recorded a deposit surplus of DKK 14.9bn at end-H1/2014 compared with DKK 18.2bn at the beginning of the year.

Value adjustment of derivatives

Due to falling interest rate levels, value adjustment of derivatives was a charge of DKK 362m against a credit of DKK 281m. The greater part of the value adjustment derived from interest rate swaps for which higher interest rates will result in a value adjustment credit. Accord-

ingly, a 0.1 percentage point rise in interest rate levels would cause a market value gain of around DKK 100m.

Other value adjustment of derivatives attributable to a net increase in swap transactions was a charge of DKK 73m against a charge of DKK 231m.

Junior covered bonds

Nykredit's junior covered bond issues totalled DKK 34.4bn at end-H1/2014 against DKK 44.3bn at the beginning of the year, leading to net interest expenses of DKK 212m against DKK 233m in the same period in 2013. Junior covered bonds are used to fund supplementary collateral for covered bonds (SDOs).

Core income from securities

The risk-free interest rate, which corresponds to the Danish central bank's average lending rate, fell from 0.25% to 0.20%. Consequently, core income from securities dropped to DKK 60m from DKK 63m.

Operating costs, depreciation and amortisation, excluding special value adjustments

Nykredit's costs, excluding special value adjustments, were trimmed by 12% to DKK 2,542m, of which DKK 258m resulted from lower amortisation because the distribution right obtained in connection with Nykredit's acquisition of Totalkredit was fully amortised at end-2013. Costs as a percentage of core income from business operations were down from 55.8% at the beginning of the year to 45.6%.

Impairment losses on loans and advances

Impairment losses on loans and advances rose by DKK 120m to DKK 1,049m, equal to 0.08% of total mortgage and bank lending.

Nykredit's impairment losses on mortgage lending increased by DKK 247m to DKK 1,010m, equal to 0.09% of lending. The increase chiefly derived from impairment provisions for housing cooperatives, notably due to a more conservative impairment estimate.

Impairment losses on mortgage lending to personal customers decreased by DKK 51m to DKK 413m, equal to 0.06% of lending.

Group impairment losses on bank lending decreased to DKK 39m, down DKK 127m. Of impairment losses for the period, DKK 150m, or 0.93% of lending, stemmed from personal customers against DKK 5m in the same period the year before.

Impairment losses on bank lending to commercial customers were a net income of DKK 111m against losses of DKK 160m in the same period the year before.

Nykredit's impairment provisions for potential losses on mortgage and bank lending totalled DKK 8,771m against DKK 8,456m at the beginning of the year. Total provisions for value adjustment of interest rate swaps amounted to DKK 2,614m against 2,229m at the beginning of year.

Losses incurred on mortgage and bank lending for the period totalled DKK 711m compared with DKK 671m in the same period the year

before. Losses incurred on interest rate swaps came to DKK 51m compared with DKK 97m in the same period the year before.

Investment portfolio income

Nykredit's investment portfolio income came to DKK 602m against DKK 302m excluding reclassification of profit from the sale of strategic equities in H1/2013.

Investment portfolio income from bonds, liquidity and interest rate instruments amounted to DKK 390m. Investment portfolio income from equities and equity instruments value adjusted through profit or loss came to DKK 212m.

Value adjustment of strategic equities against equity was a credit of DKK 173m.

Nykredit's securities portfolio mainly consists of short-term, high-rated Danish and other European covered bonds and credit bonds.

The interest rate risk associated with the bond portfolio was largely eliminated through offsetting government bond sales or the use of interest rate derivatives.

Net interest on subordinated debt

Nykredit raised subordinated debt totalling DKK 15.2bn, which was a DKK 4.3bn increase from the beginning of the year. Net interest expenses came to DKK 237m.

Tax

Tax calculated on profit for the period was DKK 381m, equal to a tax rate of 22.2%.

RESULTS FOR Q2/2014

The Group recorded a profit before tax of DKK 841m against DKK 878m in Q1/2014.

Compared with Q1/2014, results before tax were down by DKK 37m, which can be ascribed to a DKK 87m rise in core income from business operations to DKK 2,828m as well as a DKK 96m drop in investment portfolio income to DKK 253m in Q2/2014.

In all material respects, operating costs remained unchanged relative to Q1/2014 and in line with expectations. Impairment losses on loans and advances rose by DKK 19m to DKK 534m in Q2/2014. The rise resulted from increasing impairment losses on mortgage lending, whereas impairment losses on bank lending dropped by DKK 42m.

Net interest on subordinated debt increased by DKK 8m to DKK 123m in Q2/2014.

OUTLOOK FOR 2014

Core income from business operations, excluding value adjustment of interest rate swaps, grew in line with expectations.

Total core income was below the expected level, mainly due to negative value adjustments relating to interest rate swaps. But as recent years have seen considerable volatility in quarterly value adjustments, the charge for the full year is expected to remain below the 2013 level.

Costs, depreciation and amortisation were in line with expectations and loan impairment for the full year is expected to be lower than in 2013.

Overall, we still expect core earnings after impairment losses for the full year to grow by DKK 250m to DKK 2,750m-3,250m in part due to the impact of our "Nykredit 2015" plan and lower net distribution commission to Jyske Bank. Core earnings after impairment losses were DKK 487m for the full year 2013.

BUSINESS AREAS

As at 1 May 2014, Nykredit established a new management and organisational structure under which Nykredit was organised into the following two business areas with effect from end-H1/2014:

- Retail, which serves Nykredit's personal customers and SMEs. The business area includes mortgage lending to Nykredit's personal customers arranged via Totalkredit.
- Wholesale, which comprises Totalkredit Partners and Wholesale Clients. Totalkredit Partners arranges the Group's mortgage loans to personal customers via local and regional banks. Wholesale Clients comprises Corporate & Institutional Banking and the business units Nykredit Markets and Nykredit Asset Management.

Further, Group Items comprises income and costs not allocated to the business areas, including core income from securities and investment portfolio income.

Gross income from customer business is allocated to the business areas which have supplied the underlying products (Nykredit Markets and Nykredit Asset Management). Gross income attributable to the sales activities of Retail and Corporate & Institutional Banking is subsequently reallocated in full. Correspondingly, Retail and Corporate & Institutional Banking pay a proportion of the operating costs of Nykredit Markets and Nykredit Asset Management that may be attributed to the sales activities.

Nykredit's core earnings after impairment losses totalled DKK 1,354m against DKK 1,233m in H1/2013. The development reflected growth in core earnings from Totalkredit Partners on the back of higher income from business operations and lower impairment losses, whereas core earnings from Wholesale Clients rose due to positive value adjustment of interest rate swaps and a net reversal of impairment losses on loans and advances. Higher negative value adjustment of interest rate swaps and higher impairment losses on loans and advances resulted in a downturn in Retail.

Results before tax in Group Items were reduced by declining investment portfolio income.

Nykredit's share of total Danish mortgage lending was 42.7% against 43.0% at the beginning of the year. Nykredit's market share in the private residential segment was 46.9% and in the commercial segment 37.1% against 47.2% and 37.2%, respectively, at the beginning of the year. Totalkredit's market share of private residential lending, exclusive of lending by Jyske Bank, was up from 41.2% at the beginning of the year to 41.3%.

RETAIL

The business area Retail serves personal customers and SMEs, including agricultural customers, small housing cooperatives and private residential rental customers. Retail also includes mortgage lending to Nykredit's personal customers arranged via Totalkredit as well as the activities of Nykredit Mægler A/S.

Nykredit serves its customers through 55 local customer centres and the sales and advisory centre Nykredit Direkte. The estate agencies of the Nybolig and Estate chains constitute other distribution channels. Nykredit offers insurance in partnership with Gjensidige Forsikring.

The customers of Retail are offered products within banking, mortgage lending, insurance, pension, investment and debt management.

Activities

In nominal terms, total mortgage lending went down by DKK 3.1bn to DKK 442bn at end-H1/2014, of which decline DKK 2.5bn stemmed from personal customers. Lending to personal customers and commercial customers was DKK 198bn and DKK 244bn, respectively.

Gross new mortgage lending fell by DKK 2.7bn to DKK 17.8bn compared with the same period last year, of which DKK 7.6bn to personal customers and DKK 10.2bn to commercial customers.

Bank lending was DKK 23.6bn, which was unchanged on the beginning of the year. Deposits increased by DKK 2.4bn to DKK 39.2bn in H1/2014 due to higher deposits from personal and commercial customers.

Results

Core earnings after impairment losses came to DKK 29m against DKK 873m in H1/2013.

The most important factor underlying the adverse development was a larger charge from the value adjustment of interest rate swaps and higher impairment losses on mortgage lending to commercial customers as well as on bank lending to personal customers.

Core income from business operations rose 1.7% on the same period last year to DKK 3,038m in H1/2014. Core income from mortgage business improved by DKK 66m due to increased administration margin income, whereas banking activities remained unchanged and other activities saw a downturn.

Value adjustment of interest rate swaps was a charge of DKK 538m against a credit of DKK 85m in H1/2013. The negative value adjustment was primarily attributable to declining interest rate levels.

Operating costs declined by DKK 53m, or 3.5%, to DKK 1,466m in H1/2014.

Core income from business operations

Arrears ratio, mortgage lending 75 days past due

Mortgage impairment losses rose by DKK 289m to DKK 795m, whereas impairment losses on bank lending only saw a slight increase of DKK 27m. Impairment losses totalled 0.18% of mortgage lending and 0.52% of bank lending.

Impairment losses on mortgage lending to commercial customers increased by a total of DKK 230m relative to the same period last year, whereas impairment losses on bank lending to commercial customers reduced by DKK 119m. In Q2/2014 Nykredit revised its estimate of impairment provisioning for mortgage lending to housing cooperatives. The more conservative method resulted in an increase in impairment provisions of just over DKK 280m.

Total impairment losses on lending to personal customers were up DKK 203m, primarily as a result of higher impairment losses on bank lending.

At end-H1/2014, impairment provisions totalled DKK 5,593m against DKK 5,110m at the beginning of the year. The upturn was prompted by a rise in individual impairment provisions for mortgage lending to commercial customers.

At the March due date, 75-day mortgage loan arrears as a percentage of total mortgage payments due came to 0.84% for Retail against 0.86% at the same time in 2013.

Core income from business operations – Totalkredit Partners**WHOLESALE**

Wholesale comprises the business units Totalkredit Partners and Wholesale Clients. The latter consists of Corporate and Institutional Banking, Nykredit Markets and Nykredit Asset Management.

Totalkredit Partners

Totalkredit Partners provides mortgage loans under the Totalkredit brand to personal customers distributed through 65 Danish local and regional banks.

Totalkredit continuously develops its product range in association with the local and regional partner banks. In Q2/2014 a new secured homeowner loan was introduced. The loan allows partner banks to transfer bank loans secured on real estate to Totalkredit, thus funding these loans.

Under the partnership, the local and regional banks receive part of the administration margin income relating to the loans in question as payment for loan distribution. In return, Totalkredit may offset part of the loss incurred on a loan against the distribution commission payable to the partner banks.

Losses incurred corresponding to the cash part of a loan exceeding 60% of the mortgageable value of the property at the time of granting are offset against future commission payments from Totalkredit to its partner banks.

Activities

Nominal mortgage lending went down by DKK 4.5bn to DKK 490bn compared with the beginning of the year. Loans offered through Jyske Bank were DKK 79bn at the end of H1/2014.

Results

Core earnings after impairment losses came to DKK 795m against a loss of DKK 19m in H1/2013.

Results mirrored growth in core income from business operations coupled with a decline in impairment losses on loans and advances as well as in depreciation of property, plant and equipment and amortisation of intangible assets.

Core income from business operations rose by 48% to DKK 1,233m in H1/2014. This was spurred by higher administration margin income as well as a reduction in distribution commission as a result of Jyske Bank's exit from the Totalkredit partnership. Activity-specific income declined due to lower lending activity.

Net expenses relating to junior covered bonds came to DKK 111m against DKK 147m in H1/2013. The reduction was attributable to a decrease in the loan portfolio of junior covered bonds as well as slightly declining net interest.

Operating costs declined by DKK 10m, or 4.8%, to DKK 199m in H1/2014.

Arrears ratio, mortgage lending – Totalkredit Partners 75 days past due

As the distribution right was fully amortised at the beginning of the year, nothing has been recorded under depreciation of property, plant and equipment and amortisation of intangible assets.

Loan impairment losses reduced by DKK 110m to DKK 129m compared with the same period in 2013, after set-off against commission payable to partner banks. Loan impairment losses in the period under review were affected by a reversal of collective impairment provisions, whereas the amount offset against commission payable to partner banks was reduced from DKK 136m in H1/2013 to DKK 123m.

At end-H1/2014, impairment provisions totalled DKK 1,095m against DKK 1,139m at the beginning of the year. The change in total impairment provisions stemmed from a decline in collective impairment provisions.

At the March due date, 75-day mortgage loan arrears as a percentage of total mortgage payments due were unchanged at 0.24% relative to the same time in 2013.

Core income from business operations**Wholesale Clients**

The business area Wholesale Clients comprises activities with Nykredit's corporate and institutional clients, the non-profit housing segment, large housing cooperatives and mortgage lending to commercial customers for properties abroad. Wholesale Clients also handles Nykredit's activities within securities and financial derivatives trading, and asset and wealth management. Wholesale Clients consists of Corporate & Institutional Banking, Nykredit Markets and Nykredit Asset Management as well as the activities of Nykredit Leasing A/S.

Results

Core earnings after impairment losses came to DKK 948m against DKK 758m in H1/2013.

The development mirrored growth in business operations in Corporate & Institutional Banking, lower activity in Nykredit Markets, higher positive value adjustment of derivatives (interest rate swaps) and a net income from impairment of loans and advances.

Gross income from customer activities was DKK 1,561m compared with DKK 1,631m in H1/2013.

Nykredit Markets posted gross income of DKK 310m, a DKK 102m decrease on H1/2013. In H1/2014 earnings reflected a low activity level in the fixed income market in particular. Low interest rates have reduced bond trading. Nykredit Asset Management's gross income remained unchanged at DKK 392m. Corporate & Institutional Banking recorded a DKK 34m increase to DKK 859m.

Nykredit Markets's income after payment for distribution to Retail dropped by DKK 94m to DKK 178m in H1/2014, whereas Nykredit Asset Management's income after payment for distribution to Retail declined slightly to DKK 157m. Corporate & Institutional Banking recorded a DKK 37m rise to DKK 941m.

Value adjustment of derivatives, mainly interest rate swaps, was a net credit of DKK 103m against a net charge of DKK 35m in H1/2013.

Operating costs declined by DKK 12m, or 2.7%, to DKK 448m in H1/2014.

Impairment losses on mortgage loans rose by DKK 67m to DKK 75m relative to H1/2013.

A reversal of DKK 103m was recorded under impairment losses on bank lending in H1/2014 against impairment losses of DKK 64m in H1/2013. Impairment losses include provisions for guarantees amounting to DKK 3m against DKK 54m in H1/2013.

Impairment losses represented 0.04% of mortgage lending and an income of 0.43% of bank lending.

At end-H1/2014, impairment provisions totalled DKK 1,913m against DKK 2,044m at the beginning of the year. The DKK 131m decline in total impairment provisions stemmed from a drop in individual as well as collective impairment provisions.

Activities

Total nominal mortgage lending went up by DKK 4.4bn to DKK 184bn at end-H1/2014. Gross new mortgage lending rose by DKK 3.4bn to DKK 16bn compared with the same period the year before.

At end-H1/2014, bank lending of DKK 23.2bn was unchanged on the beginning of the year.

Bank deposits dropped by DKK 5.1bn to DKK 22.1bn at end-H1/2014.

At end-H1/2014, Nykredit Asset Management had assets under management totalling DKK 119bn, up DKK 2.8bn on the beginning of the year. Total assets under administration went up by DKK 21.3bn to DKK 620bn at end-H1/2014.

Arrears

At the March due date, 75-day mortgage loan arrears as a percentage of total mortgage payments due were 0.12% against 0.06% at the same time in 2013.

GROUP ITEMS

A number of income statement and balance sheet items are not allocated to the business areas. Such items are carried under Group Items and include costs of some staff functions and IT development costs. Group Items also includes Nykredit's total return on the securities portfolio, which is the sum of "Core income from securities" and "Investment portfolio income". The activities of the companies Nykredit Ejendomme A/S and Ejendomsselskabet Kalvebod A/S are also part of Group Items.

Results

A loss before tax of DKK 53m was recorded against a profit of DKK 394m in the same period the year before. This development was prompted by profit from the sale of strategic equities of DKK 697m recognised as income in H1/2013 relative to acquisition cost.

Core income from securities

Nykredit's core income from securities was DKK 60m against DKK 63m in H1/2013. The downturn resulted from a decrease in the Danish central bank's average lending rate to 0.20% at end-H1/2014.

Core income from securities equals the return the Group could have obtained by placing its investment portfolios at risk-free interest rates. Core income from securities also includes net interest expenses relating to Tier 2 capital and the acquisition of Totalkredit.

Operating costs

Unallocated costs were DKK 325m against DKK 304m in H1/2013. By far the largest cost component was IT development costs.

Special value adjustments came to a net charge of DKK 36m, principally due to adjustment of the provisions for restructuring costs as a result of "Nykredit 2015".

Loan impairment

Impairment losses on loans and advances amounted to DKK 15m.

Investment portfolio income

Investment portfolio income came to DKK 602m against DKK 302m excluding reclassification of value adjustments following the sale of strategic equities in H1/2013.

Investment portfolio income from bonds, liquidity and interest rate instruments came to DKK 390m. Investment portfolio income from equities and equity instruments value adjusted through profit or loss was DKK 212m.

Investment portfolio income is the income exceeding risk-free interest obtained from investing in equities, bonds and derivative financial instruments. To this should be added the realisation of equities classified as available for sale and value adjustment of Kalvebod issues. Price spreads and interest margins relating to the mortgage lending of Nykredit Realkredit and Totalkredit and the trading activities of Nykredit Markets are included not as investment portfolio income, but as core income from business operations.

OWN FUNDS, LIQUIDITY AND FUNDING

EQUITY AND OWN FUNDS OF NYKREDIT REALKREDIT GROUP

Equity

Nykredit's equity went up by DKK 1.5bn to DKK 60.2bn at end-H1/2014. The rise consisted of profit for the period of DKK 1.3bn and a credit from the value adjustment of strategic equities of DKK 0.2bn.

In accordance with IAS 39, Nykredit has classified the Group's strategic equity investments as "available for sale" in its Consolidated Financial Statements. Current value adjustment of these equities is recognised in equity, whereas value adjustments following a sale will be reclassified from equity to the income statement. The value of equities classified as available for sale totalled DKK 1,918m at end-H1/2014.

| Internal capital adequacy requirement (Pillar I and Pillar II), % | 10.7 | 10.4 | - |

Own funds and capital adequacy are specified further in note 2.

Capital adequacy is determined subject to a transitional rule in accordance with the transitional provisions of the CRR. REA must constitute at least 80% of the capital requirement determined under Basel I. At end-Q2/2014, REA subject to the transitional rule amounted to DKK 628bn, equal to a total capital ratio of 14.1%.

Note: "01.01.2014" shows pro forma figures taking into account the new capital adequacy rules effective from 1 January 2014.

Capital and capital adequacy

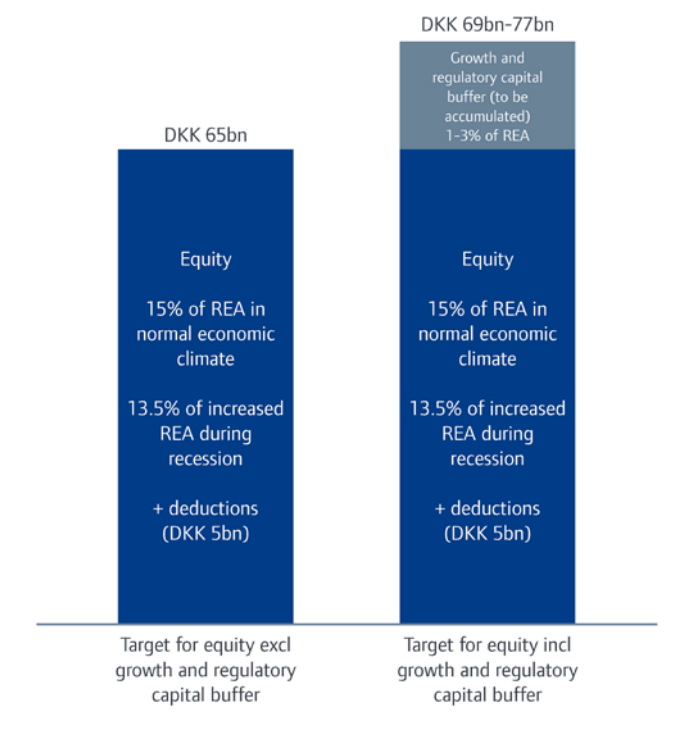

Nykredit's own funds include Common Equity Tier 1 (CET1) capital, Additional Tier 1 capital and Tier 2 capital after deductions. In Q2/2014, Nykredit raised Tier 2 capital totalling EUR 600m to comfortably meet the new capital requirements.

Own funds came to DKK 69.0bn, and the risk exposure amount (REA) (previously risk-weighted assets (RWA)) was up DKK 10.4bn to DKK 356.4bn at end-H1/2014, corresponding to a total capital ratio of 19.3%. Additional Tier 1 capital included dropped by DKK 2.1bn to DKK 8.6bn at end-H1/2014. This development was mainly a result of the implementation of new capital requirement rules as at 1 January 2014. As part of the rules, only 80% of the value of the issued Additional Tier 1 capital may be included. The Tier 1 capital ratio was 18.1% and the CET1 capital ratio (previously core Tier 1 capital ratio) came to 15.7% at end-H1/2014.

Nykredit's internal capital adequacy requirement was determined at 10.7%. The determination takes into account approximately DKK 25bn resulting from the changed calculation method for REA following the statutory implementation of advanced IRB models for the lending of Nykredit Bank.

In June 2014 Nykredit was designated as a systemically important financial institution (SIFI) by the Danish FSA. As a result, Nykredit will have to meet a specific SIFI buffer requirement for CET1 capital. The requirement will be gradually implemented in 2015-2019. A 2% requirement is expected to be announced in autumn 2014.

Nykredit Realkredit Group Capital targets for 2019

NYKREDIT'S CAPITAL TARGETS FOR 2019

Nykredit's capital targets for 2019 are an equity level of DKK 65bn at the current business volumes and, in the longer term, a growth and regulatory capital buffer of 1-3% of the risk exposure amount (REA). In addition, Nykredit has a total capital ratio target of up to 20% of REA in a normal economic climate.

FUNDING AND LIQUIDITY

Nykredit's mortgage lending is funded through the issuance of covered bonds (SDOs and ROs). In addition, the Group may provide statutory supplementary collateral by issuing junior covered bonds.

Bank lending is chiefly funded by deposits. As at 30 June 2014, Nykredit Bank had a deposit surplus of DKK 14.9bn measured as the difference between deposits and lending at amortised cost. At end-2013, the deposit surplus came to DKK 18.2bn.

Nykredit's liquidity is determined as the portfolios of highly liquid bonds and cash and is funded by deposits, junior covered bonds, senior debt (EMTNs and ECP), subordinated debt and equity.

Liquidity

The balance sheet structure of the mortgage banks ensures a high level of liquidity as mortgage borrowers make their payments on or before the date on which Nykredit pays bondholders.

The liquidity position is to ensure that Nykredit has a sizeable buffer for cash flows driven by customer flows, loan arrears, current costs and maturing capital market funding. In addition, the liquidity position ensures the Group's compliance with regulatory liquidity requirements.

Nykredit's liquid assets are mainly liquid Danish and other European government and covered bonds. In a liquid repo market, these securities are eligible as collateral with other banks and with the Danish or other European central banks and are directly exchangeable into liquidity. To this should be added a small portfolio of money market deposits, equities, credit bonds and similar assets.

The unencumbered proportion of the liquid assets of the Group's mortgage banks, including proceeds from issued junior covered bonds, totalled DKK 94.6bn at end-H1/2014 against DKK 98bn at the beginning of the year.

At end-H1/2014, Nykredit Bank's liquid assets totalled DKK 76.8bn against DKK 85.3bn at end-2013, determined in accordance with section 152 of the Danish Financial Business Act.

Liquidity Coverage Ratio (LCR)

As of 2015 Nykredit will be subject to the new international regulatory framework regarding the Liquidity Coverage Ratio (LCR). The LCR requirement is to ensure that the stock of liquid assets is sufficient for meeting all payment obligations 30 days ahead without access to market funding.

It is Nykredit's expectation that covered bonds, except for self-issued bonds, will be eligible for inclusion in the stock of liquid assets. Nykredit also expects that some payment obligations relating to match-funded mortgage lending will be exempted from the LCR rules.

The LCRs of the Group's companies (excluding self-issued bonds held as liquid assets) were as follows at end-H1/2014:

| | |
|---------------------------|--------|
| Nykredit Realkredit Group | 240% |
| Nykredit's mortgage banks | 1,903% |
| Nykredit Bank A/S | 128% |

The Group and the individual group companies all comply with the requirement of an LCR above 100%.

Issuance in 2014

The Nykredit Realkredit Group has not made any changes to its schedule for issuance of SDOs, ROs and junior covered bonds or Nykredit Bank's EMTN and ECP programmes for 2014 compared with the information provided in the Annual Report 2013.

In Q2/2014, Nykredit raised subordinate loan capital of EUR 600m (DKK 4.5bn) in the form of Tier 2 capital.

CREDIT RATINGS

Nykredit's ratings have not changed since the 2013 Annual Report.

Nykredit Realkredit A/S and Nykredit Bank A/S each have a long-term unsecured rating of A+ and a short-term unsecured rating of A-1 with Standard & Poor's. The rating outlooks are negative. In rated capital centres, SDOs and ROs are all rated AAA by S&P. The rating outlooks are stable. All issued junior covered bonds are rated A+.

Nykredit Realkredit A/S and Nykredit Bank A/S each have a long-term unsecured rating of A and a short-term unsecured rating of F1 with Fitch Ratings. The rating outlooks are stable.

Moody's is still publishing a number of ratings of companies of the Nykredit Group on an unsolicited basis.

OTHER

Nykredit Realkredit A/S designated a systemically important financial institution

In line with expectations, the Danish FSA designated Nykredit Realkredit as a systemically important financial institution (SIFI) in June.

As a SIFI, Nykredit will be more closely monitored by the Danish FSA and the capital requirement (SIFI buffer) will be increased to an expected 2%. The SIFI buffer requirement will be announced by the Danish Ministry of Business and Growth during autumn 2014.

Nykredit accepts Danish Supreme Court decision

The Danish Supreme Court made a decision in the case about Nykredit's administration margins in June. In its decision, the Court established that Nykredit Realkredit A/S must remain subject to the administration margin undertaking imposed by the Danish competition authorities on Nykredit Realkredit A/S in connection with Nykredit's acquisition of Totalkredit in 2003. As a result, Nykredit Realkredit A/S may only raise its administration margins for personal customers to market level subject to prior approval by the Danish competition authorities. The administration margins of mortgage loans raised with Nykredit Realkredit A/S before 1 April 2012 therefore remain unchanged.

Since 1 April 2012, all new lending to personal customers with the Nykredit Group has been granted via Totalkredit. This practice will continue unchanged.

Corporate loan portfolio from FIH Erhvervsbank A/S strengthens Nykredit Bank's position

Nykredit Bank and FIH Erhvervsbank agreed in June that Nykredit Bank will take over 24 corporate accounts with credit exposures totaling approx DKK 4bn, comprising lending of around DKK 1.9bn, guarantees and credit commitments of around DKK 1.6bn and financial instruments of DKK 0.5bn.

The agreement adds a number of large corporate customers to Nykredit Bank's customer base and underpins Nykredit's strategy to strengthen its position as a corporate bank.

Jyske Bank's exit from Totalkredit partnership

Jyske Bank is considered to have exited the partnership as from mid-March 2014.

In June Jyske Bank instituted arbitration proceedings to determine the final terms for its exit from the Totalkredit partnership.

In March Jyske Bank had referred customers to Totalkredit corresponding to lending of some DKK 82bn. At 30 June 2014, the amount was DKK 79bn.

Customers' loans or terms and conditions will not be affected by the changed relationship. Going forward, Totalkredit will offer advisory services to these customers and handle any loan losses as well as loss risk. As from mid-March, no distribution commission will be paid to Jyske Bank in accordance with existing agreements.

Nykredit still expects that Jyske Bank will encourage the refinancing of the majority of the loans into loans granted directly by Jyske Bank or one of the group's companies.

For the full year 2014, the net impact of revised contractual terms, including an estimated additional decline in the lending portfolio and loan refinancing volumes, is estimated to increase the results of Totalkredit and Nykredit by a total of some DKK 150m.

Stronger customer focus after Nykredit reorganisation

As a part of the "Nykredit 2015" plan, we changed our management and organisational structure in the spring to sharpen our business strategic focus and raise profitability through a strong customer focus with new customer concepts, increased income, efficiencies and a less complex organisation. Another important focus area is to strengthen and reinvigorate the business relationship with the 65 Danish local and regional banks of the Totalkredit partnership.

Income is to grow by DKK 1bn and costs to be reduced by DKK 0.5bn with full effect from 2016. As part of the cost reductions and to raise the efficiency of decision-making processes, it was necessary to reduce the number of management and staff positions by up to 300, mainly in non-customer facing functions. The new organisation was implemented on 1 May 2014.

Changes to the Group Executive Board

As at 1 October 2014, Anders Jensen has been appointed Group Managing Director with responsibility for Retail. Anders Jensen was formerly the CEO of Nordea Bank Danmark.

Nykredit's Group Executive Board will subsequently consist of Michael Rasmussen, Group Chief Executive, Kim Duus, Group Managing Director (Wholesale), Søren Holm, Group Managing Director (CFO/CRO), Anders Jensen, Group Managing Director (Retail), and Bente Overgaard, Group Managing Director (COO).

Karsten Knudsen, Group Managing Director, and Per Ladegaard, Group Managing Director, who both turned 60 last year, have retired from the Group Executive Board and will retire from Nykredit at end-August.

New legislation on non-voting shares

The Danish parliament passed new legislation in April 2014 under which Nykredit may issue non-voting shares. Nykredit has no current plans to exercise this option.

Sale of shares in Nets A/S

Like other banks, Nykredit divested its shares in Nets in H1/2014. The profit affected group results by DKK 9m.

UNCERTAINTY AS TO RECOGNITION AND MEASUREMENT

The measurement of certain assets and liabilities is based on accounting estimates made by Group Management.

The areas in which assumptions and estimates significant to the financial statements have been made include provisions for loan and receivable impairment, unlisted financial instruments and other provisions, see the Annual Report 2013.

Uncertainty as to recognition and measurement is described in detail in the Group's accounting policies (note 1 of the Annual Report 2013), to which reference is made.

EVENTS OCCURRED AFTER THE END OF THE FINANCIAL PERIOD

No significant events have occurred in the period up to the presentation of the H1 Interim Report 2014 which affect the financial position of the Nykredit Group.

LENDING

MORTGAGE LENDING

Credit exposures in terms of nominal mortgage lending amounted to DKK 1,117bn at end-H1/2014 against DKK 1,120bn at the beginning of the year.

The security behind the mortgage loan portfolio is robust. Also, mortgage loans granted via Totalkredit are covered by set-off agreements, which means that Totalkredit may offset part of the losses incurred on mortgage loans against future commission payments to the partner banks.

The LTV ratios of the mortgage loan portfolio are shown in the table below with individual loans relative to the estimated values of the individual properties at end-H1/2014.

Total provisions for mortgage loan impairment

Total impairment provisions for mortgage lending rose by DKK 540m from the beginning of the year to DKK 4,918m at end-H1/2014. Of this increase, DKK 127m was related to private residential property and DKK 387m to private residential rental property (including housing cooperatives).

Private residential property accounted for DKK 2,293m and commercial property DKK 2,625m of impairment provisions at end-H1/2014.

Total impairment provisions amounted to 0.44% of total mortgage lending against 0.39% at the beginning of the year.

Earnings impact

Impairment losses on mortgage lending were DKK 999m against DKK 753m in H1/2013. Of total impairment losses on loans and advances for the period, DKK 421m, or 42%, was attributable to the private residential rental segment (including housing cooperatives) and DKK 398m, or 40%, to the private residential segment.

To this should be added impairment losses on credit institutions totaling DKK 11m in H1/2014 compared with DKK 10m in H1/2013.

¹ Determined as the top part of the debt outstanding relative to estimated property values.

Note: The figures are actual LTV ratios including any financed costs. Public authority guarantees reduce the credit risk relating to subsidised housing that forms part of lending to the non-profit housing segment. For this reason, LTVs of non-profit housing offer no relevant risk data.

In the table, debt outstanding is distributed continuously by LTV category. Loans with security covering for example between 0% and 60% of the mortgageable value are distributed with two thirds of the debt outstanding in the LTV category 0-40% and one third in the LTV category 40-60%.

1. ACCOUNTING POLICIES

GENERAL

The Consolidated Financial Statements for H1/2014 are prepared in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU and further Danish financial reporting and disclosure requirements for interim reports. Compliance with IAS 34 implies observance of the principles of recognition and measurement of the IFRS but also a less detailed presentation relative to the annual report.

The Interim Financial Statements for H1/2014 of the Parent Company are prepared in accordance with the Executive Order on Financial Reports for Credit Institutions and Investment Firms, etc. (the Danish Executive Order on the Presentation of Financial Statements) issued by the Danish Financial Supervisory Authority (FSA).

New and amended standards, interpretations and reporting provisions

Reporting standards and interpretations in force as at 1 January 2014 have been implemented with no effect on results, comprehensive income, balance sheet or equity for the period.

Compared with the information disclosed in the accounting policies of the Annual Report 2013 (note 1), no new reporting standards or interpretations have been issued or approved which influence the H1 Interim Report 2014 of Nykredit Realkredit A/S and the Nykredit Realkredit Group.

The IASB is still working on a project which, in time, will replace the IAS 39 rules. The revised standard – IFRS 9 – is divided into three main phases comprising classification and measurement of financial assets and liabilities, impairments and hedge accounting. The impact of the implementation of IFRS 9 on the Consolidated Financial Statements has not yet been analysed.

Due to the new provisions of the Danish Executive Order on Presentation of Financial Statements, the Interim Report includes information about the revenue and staff numbers of Nykredit Realkredit's branches and subsidiaries abroad.

Change in the presentation of business areas

The presentation of the Group's business areas has been adjusted to reflect the organisational changes implemented in H1/2014.

The primary change was the transfer of Nykredit Leasing A/S and the business unit Private Banking from Retail to Wholesale. Also, business activities with partner banks carried out by the business unit Bank Distribution have been transferred from Group Items, Treasury, to Wholesale.

Income and costs relating to Nykredit Leasing A/S that can be attributed to Retail activities are allocated to Retail.

In H1/2014 the most significant effect of the organisational changes was the allocation of profit before tax of around DKK 46m from Retail to Wholesale.

The changes do not affect Nykredit Realkredit's or the Nykredit Realkredit Group's results, comprehensive income, balance sheet or equity.

Comparative figures have been restated. Please refer to note 4 of this report.

The accounting policies are otherwise unchanged compared with the Annual Report 2013. For a full description of the Group's and the Parent Company's accounting policies, please refer to note 1 of the Annual Report 2013, which is available at nykredit.com/reports.

All figures in the Interim Report are rounded to the nearest million kroner (DKK). The totals stated are calculated on the basis of actual figures. Due to the rounding-off, the sum of individual figures and the stated totals may differ slightly.

As a result of the reorganisation, comparative figures have been restated, thus reducing Retail profit by DKK 28m and increasing Wholesale Clients and Group Items profit/loss by DKK 18m and DKK 10m, respectively. Core income was particularly affected by a transfer of about DKK 82m from Retail to Wholesale Clients. Operating costs were down DKK 50m in Retail and by DKK 10m in Group Items, whereas Wholesale Clients recorded an increase of DKK 60m. Impairment losses in Retail dropped DKK 4m, which was allocated to Wholesale Clients.

¹ Investment portfolio income includes a profit from investments in associates of DKK 4m against DKK 27m in H1/2013.

Other contingent liabilities

Owing to its size and business scope, the Nykredit Realkredit Group is continuously involved in legal proceedings and litigation. The cases are reviewed regularly, and necessary provisions are made based on an assessment of the risk of loss. Pending cases are not expected to have a significant effect on the Nykredit Realkredit Group's financial position.

Nykredit Bank A/S participates in the mandatory Danish deposit guarantee scheme, the Danish Guarantee Fund for Depositors and Investors. Participating banks must pay a fixed annual amount of 2.5‰ of the covered net deposits. Payment to the Fund's bank department is mandatory until the assets of the scheme exceed 1% of the covered net deposits of the sector. The bank department bears any direct losses from the winding-up of Danish banks, cf Bank Rescue Packages III and IV, to the extent the loss is attributable to the covered net deposits.

Any losses arising from the final winding-up are covered by the Guarantee Fund for Depositors and Investors through its winding-up and restructuring department. Nykredit Bank's share of the expense will amount to about 3%.

Nykredit Realkredit A/S has issued a letter of comfort stating that Nykredit Realkredit A/S will contribute capital to Nykredit Bank A/S to ensure that Nykredit Bank A/S's Tier 1 capital calculated according to the Basel II rules does not fall below 12-13%. However, Nykredit Realkredit A/S will not contribute capital to Nykredit Bank A/S if that will bring Nykredit Realkredit A/S's total capital ratio below the statutory capital requirement plus 0.5% or the internal capital adequacy requirement (ICAAP) plus 0.5%.

As mentioned in the Management's Review, Jyske Bank has instituted arbitration proceedings against Totalkredit. The background being that Jyske Bank disagrees with Totalkredit's stance that Jyske Bank exited the Totalkredit partnership when it acquired BRFkredit.

At 30 June 2014, Jyske Bank had referred customers to Totalkredit corresponding to lending of DKK 79bn. In compliance with the partnership agreement, Totalkredit has paid commission to Jyske Bank and offset losses incurred on the customer portfolio on a current basis.

As from mid-March, Totalkredit considered Jyske Bank to have exited the partnership and consequently ceased its current payments to the bank. Net payments would have come to DKK 84m if Jyske Bank had not exited the partnership.

Totalkredit still expects that the arbitration tribunal will find in its favour.

The Company is jointly taxed in Denmark with Foreningen Nykredit as the administration company. Pursuant to the Danish Corporation Tax Act, the Company is liable for income taxes etc payable by the jointly taxed companies as of the financial year 2013 and for any obligations to withhold tax at source on the interest, royalties or dividends of these companies as of 1 July 2012.

Nykredit Realkredit A/S is liable for the obligations of the pension fund in run-off Nykredits Afviklingspensionskasse (CVR no 24 25 62 19).

Nykredit Realkredit Group

27. FAIR VALUE HIERARCHY FOR FINANCIAL INSTRUMENTS (continued)

Listed prices

The Group's assets and liabilities at fair value are to the widest extent possible recognised at listed prices or prices quoted in an active market or authorised market place.

Observable inputs

When an instrument is not traded in an active market, measurement is based on observable inputs and the use of generally accepted calculation methods as well as valuation and estimation techniques such as discounted cash flows and option models.

Observable inputs are typically yield curves, volatilities and market prices of similar instruments which are usually obtained through ordinary providers such as Reuters, Bloomberg and market makers. If the fair value is based on transactions in similar instruments, measurement is exclusively based on transactions at arm's length. Reverse lending and repo transactions as well as unlisted derivatives generally belong in this category.

Measurement techniques are generally applied to measure derivatives and unlisted assets and liabilities.

In some cases, the markets, eg the bond market, have become inactive and illiquid. When assessing market transactions, it may therefore be difficult to conclude whether the transactions were executed at arm's length or were forced sales. If measurement is based on recent transactions, the transaction price is compared with a price based on relevant yield curves and discounting techniques.

Unobservable inputs

When it is not possible to measure financial instruments at fair value based on prices in active markets or observable inputs, measurement is based on own assumptions and extrapolations etc. Where possible and appropriate, measurement is based on actual transactions adjusted for differences in eg the liquidity, credit spreads and maturities of the instruments. The Group's unlisted equities are generally classified under this heading although measurement is based on the IPEV Valuation Guidelines.

Positive market values of a number of interest rate swaps with customers in Nykredit Bank's lowest rating categories have been adjusted for increased credit risk based on a CVA model. The model uses the statistical data applied by Nykredit Bank to calculate collective impairment provisions for loans and advances at amortised cost.

Measurement, notably of instruments classified as unobservable inputs, is subject to some uncertainty. Of total assets and liabilities, DKK 3,627m and DKK 330m, respectively, can be ascribed to this category. Assuming that actual transaction prices will deviate by +/- 10% from the calculated fair value, the earnings impact will be approximately DKK 396m.
