Q1-Q3 INTERIM REPORT – THE NYKREDIT REALKREDIT GROUP 1 JANUARY 2010 – 30 SEPTEMBER 2010

RESULTS

- Group profit before tax was DKK 2,724m against DKK 257m in Q1-Q3/2009
- Continued growth in customer-oriented business
 - Core income from customer-oriented business went up by 13.1% to DKK 7,030m on Q1-Q3/2009
- Mortgage lending in nominal terms and bank lending rose by DKK 36bn to DKK 1,082bn in Q1-Q3/2010
- Operating costs, depreciation and amortisation, excluding special value adjustments, went up by DKK 24m or 0.6% to DKK 4,005m
 - Costs as a percentage of core income from business operations were trimmed from 64.0% in Q1-Q3/2009 to 57.0%
 - Special value adjustments came to DKK 423m of which commission under the government guarantee scheme was DKK 371m
- Impairment losses on loans and advances came to DKK 1,706m against DKK 5,920m in Q1-Q3/2009
 - Impairment losses on mortgage lending were DKK 653m, equal to 0.06% of lending, against DKK 1,077m in Q1-Q3/2009
 - Impairment losses on bank lending came to DKK 774m, corresponding to 0.80% of lending, against DKK 4,607m in Q1-Q3/2009
 - Impairment losses under the government guarantee scheme were DKK 279m
- Core income from securities stood at DKK 347m compared with DKK 679m in Q1-Q3/2009
 - Money market rates averaged 1.06% against 2.03% in Q1-Q3/2009
- The investment portfolio generated income of DKK 1,838m against DKK 3,995m in Q1-Q3/2009
- Cost of capital in the form of net interest on hybrid core capital amounted to DKK 344m
- The Group's costs relating to Bank Rescue Package I totalled DKK 1,643m up to 30 September 2010, of which DKK 984m represented commission and DKK 659m provisions.

CAPITAL

- The core capital and capital adequacy ratios were 18.1% and 18.2%, respectively, at end-Q3/2010
- The individual capital need stood at 9.4%
- The Group's equity amounted to DKK 54.8bn.

OUTLOOK FOR 2010

Nykredit's core earnings before impairment losses are still expected to be in the region of DKK 3,500m-4,000m. The level of impairment losses on loans and advances for Q3 alone was moderate and continues to surpass our expectations. To this should be added growth in investment portfolio income. Therefore, expectations for profit before tax for the full year have been raised to DKK 2.7bn-3.2bn excluding the gain from the sale of Nykredit Forsikring of about DKK 1.5bn. At end-H1/2010, expectations for profit before tax for 2010 were in the region of DKK 1.5bn-2.5bn excluding the sale of Nykredit Forsikring.

Peter Engberg Jensen, Group Chief Executive, says:

Income from Nykredit's banking operations keeps rising and amounted to DKK 3.2bn today, which is 21% more than income from the original mortgage business. This is a satisfactory delivery of our strategy. Total income for the first three quarters of 2010 was up by 13%, while costs remained almost unchanged.

Further, as loan losses are declining and were lower than expected, and investment portfolio income was high, forecast profit before tax for 2010 has again been revised upwards to DKK 2.7bn-3.2bn excluding the sale of Nykredit Forsikring.

Q1-Q3 Interim Report 2010

THE NYKREDIT REALKREDIT GROUP RESULTS

The Group, excluding Nykredit Forsikring, recorded a profit before tax of DKK 2,724m against DKK 257m in Q1-Q3/2009.

Results reflect growth in core income from customer-oriented business, lower core income from securities due to a continuing decline in short-term interest rates and a lower loan impairment level. Further, investment portfolio income came to DKK 1,838m.

Core income from customer-oriented business rose by 13% on Q1-Q3/2009. The improvement in customer-oriented business was broad-based within banking and mortgage lending.

The Group's mortgage lending in nominal terms and bank lending rose by just over DKK 36bn or 3.4% to DKK 1,082bn compared with the beginning of the year. Retail lending was up by DKK 20bn and commercial lending DKK 16bn.

The Group's impairment losses on loans and advances amounted to DKK 1,427m in Q1-Q3/2010, and provisions under the government guarantee scheme came to DKK 279m. Impairment losses on retail and commercial lending came to DKK 398m and DKK 1,029m, respectively.

Core income from securities was significantly lower due to a fall in short-term interest rates. Investment portfolio income made a positive contribution of DKK 1,838m to group results.

Group cost of capital in the form of net interest etc on hybrid core capital amounted to DKK 344m against DKK 18m in Q1-Q3/2009.

In March Nykredit entered into a strategic insurance alliance with Gjensidige Forsikring, which acquired Nykredit Forsikring A/S at a price of DKK 2.5bn, of which goodwill accounted for about DKK 1.5bn.

The transfer was completed at end-April 2010. In the Q1-Q3 Interim Report 2010, profit after tax from the insurance business has been presented as profit on discontinuing insurance operations. Comparative figures have been restated. The Group recorded a loss after tax of DKK 80m on the discontinuing insurance operations against a profit of DKK 163m in Q1-Q3/2009. Further, the profit from the sale of Nykredit Forsikring amounted to DKK 1,591m. The sale of Nykredit Forsikring had a total earnings impact on the Q1-Q3/2010 results of DKK 1,511m.

Profit after tax inclusive of profit from the sale of Nykredit Forsikring was DKK 3,534m against DKK 286m in the same period in 2009.

Strategic equities, chiefly in banks, which are value adjusted against equity, generated a capital loss after tax of DKK 58m against a capital gain of DKK 838m in Q1-Q3/2009.

Q3/2010

The Group, excluding Nykredit Forsikring, recorded a profit before tax of DKK 1,044m in Q3/2010 against DKK 549m in Q2/2010.

The upturn is chiefly attributed to growth in core income from customer-oriented business, a decrease in operating costs and loan impairment losses and a rise in investment portfolio income.

Income statement and balance sheet totals by quarter for the Group appear from note 26.

Core earnings

Core income from business operations The Group's core income from customeroriented business was DKK 7,030m against DKK 6,218m in the same period the year before – up DKK 812m or 13.1%.

Core income from mortgage operations grew by 10.0% or DKK 364m to DKK 4,005m. Gross new lending amounted to DKK 148bn in Q1-Q3/2010 against DKK 168bn in the same period the year before. The decline in gross new lending resulted from lower refinancing activity. In nominal terms, group mortgage lending went up in Q1-Q3/2010 by DKK 37bn to DKK 1,022bn.

Total core income from banking operations rose by 14.1% or DKK 350m to DKK 2,834m in Q1-Q3/2010.

Nykredit Markets & Asset Management recorded an upturn in earnings from customeroriented business of 26.8% to DKK 1,237m. The other banking operations of the Group, excluding Kalvebod issues, generated DKK 1,597m, the same level as in Q1-Q3/2009.

The Group's bank lending totalled DKK 59.7bn against DKK 60.9bn at the beginning of the year. Deposits decreased by DKK 10bn to DKK 54.5bn in the same period.

Junior covered bonds

The Group has issued DKK 20.7bn of junior covered bonds as supplementary collateral for covered bonds. Net interest expenses relating to junior covered bonds came to DKK 66m against DKK 47m in Q1-Q3/2009.

Core income from Kalvebod issues The Group's income from the portfolio of Kalvebod issues was DKK 53m, which was unchanged on the same period in 2009.

Core income from securities

Core income from securities amounted to DKK 347m compared with DKK 679m in Q1–Q3/2009. The decline mainly stemmed from lower average repo rates at 1.06% compared with 2.03% in the same period in 2009.

Core income from securities equalled the return which the Group could have obtained by placing its investment portfolios at risk-free interest. In addition, core income from securities includes net interest expenses relating to supplementary capital and the acquisition of Totalkredit – determined relative to risk-free interest.

Operating costs, depreciation and

amortisation, excl special value adjustments Group operating costs, depreciation and amortisation, excluding special value adjustments, and commission under the government guarantee scheme were DKK 4,005m, on a level with Q1-Q3/2009. Costs as a percentage of core income from business operations were trimmed to DKK 57.0% from 64.0% in Q1-Q3/2009. The development in costs in part mirrored a decline in permanent staff.

Operating costs, depreciation and amortisation – special value adjustments

Special value adjustments, which comprise net value adjustment of assets and liabilities relating to Nykredit's pension schemes in run-off, certain staff schemes and value adjustment of owner-occupied property, were a loss of DKK 52m against a loss of DKK 163m in Q1Q3/2009. Further, Dansk Pantebrevsbørs A/S under konkurs (in bankruptcy) prompted winding-up costs of DKK 183m in Q1-Q3/2009.

Impairment losses on loans and advances Group impairment losses on loans and advances came to DKK 1,427m against DKK 5,684m in Q1-Q3/2009. Further, provisions under the government guarantee scheme amounted to DKK 279m compared with DKK 236m for the same period the year before.

Group impairment losses on mortgage lending came to DKK 643m, equal to 0.06% of lending. Retail customers represented DKK 175m of impairment losses for the period and the commercial segment DKK 468m.

Group impairment losses on bank lending excluding terminated exposures from Forstædernes Bank amounted to DKK 410m, corresponding to 0.47% of lending. Retail customers represented DKK 213m of impairment losses for the period and commercial customers DKK 197m.

Impairment losses on terminated exposures from Forstædernes Bank were DKK 364m against DKK 2,565m in Q1-Q3/2009.

Impairment losses in Nykredit Mægler (estate agency business) amounted to DKK 10m.

In Q1-Q3/2010 the Group's recognised losses on mortgage and bank lending rose significantly to DKK 339m and DKK 1,392m, respectively, compared with total recognised losses of DKK 700m for Q1-Q3/2009. The increase in recognised losses should be seen in the context of impairment provisions previously made. According to the accounting rules, loans must be written down for impairment as soon as they start to show evidence of impairment.

Investment portfolio income

Group investment portfolio income amounted to DKK 1,838m compared with DKK 3,995m for the same period the year before.

Value adjustment of strategic equities against equity generated a loss of DKK 58m after tax compared with a gain of DKK 838m for the same period in 2009.

Investment portfolio income for Q1-Q3/2010 was positively affected by declining interest rates and tighter spreads between mortgage and corporate bonds on the one hand and government bonds on the other.

Investment portfolio income is the excess income obtained from investing in equities, bonds and derivative financial instruments in addition to risk-free interest. Price spreads and interest margins relating to the mortgage lending of Nykredit Realkredit and Totalkredit as well as the trading activities of Nykredit Markets have been included not as investment portfolio income, but as core income from business operations.

Nykredit's securities portfolio consists mainly of Danish and European mortgage bonds.

The interest rate risk of the portfolio has been widely reduced by offsetting sales of government bonds or through interest rate derivatives.

Investment portfolio income from bonds, liquidity and interest rate instruments came to DKK 1,901m. Investment portfolio income from equities and equity instruments value adjusted through profit or loss was DKK 37m.

Net interest etc on hybrid core capital

The Group had raised hybrid core capital totalling DKK 11,239m against DKK 4,224m at end-Q3/2009.

The results were affected by net interest expenses of DKK 344m against DKK 18m in Q1-Q3/2009.

Tax

Tax on profit for the period is estimated at DKK 701m excluding Nykredit Forsikring A/S.

Financial risk

As at 30 September 2010, Group Value-at-Risk stood at DKK 130m with a 99% confidence interval over one day.

Group interest rate exposure in the event of a general interest rate change of 1 percentage point was DKK 350m. The equity price exposure in case of a general price decline of 10% was DKK 417m.

Subsidiaries

Totalkredit

Totalkredit recorded a profit before tax of DKK 931m compared with DKK 803m in the same period the year before. Reference is made to the Q1-Q3 Interim Report 2010 for Totalkredit.

Nykredit Bank

The Nykredit Bank Group posted a profit before tax of DKK 318m compared with a loss of DKK 4,422m for the same period in 2009. As at 1 April 2010, Forstædernes Bank and Nykredit Bank merged, effective from 1 January 2010 for accounting purposes. Reference is made to the Q1-Q3 Interim Report 2010 for the Nykredit Bank Group.

Nykredit Forsikring

Nykredit has entered into an agreement with Gjensidige Forsikring on the sale of its shares in Nykredit Forsikring A/S, which shares were transferred at end-April 2010.

Nykredit Forsikring posted a loss before tax of DKK 107m for the period 1 January – 29 April 2010 against a profit of DKK 218m for Q1-Q3/2009.

OUTLOOK FOR 2010

Nykredit's core earnings before impairment losses are still expected to be in the region of DKK 3,500m-4,000m.

The level of impairment losses on loans and advances for Q3/2010 alone was moderate and continues its positive trend. To this should be added growth in investment portfolio income. Therefore, expectations for profit before tax for the full year have been raised to DKK 2.7bn-3.2bn excluding the gain from the sale of Nykredit Forsikring of about DKK 1.5bn.

Profit before tax will depend on impairment losses on loans and advances as well as financial market trends in general.

BUSINESS AREAS

The segment financial statements have in 2010 been affected by the merger between Nykredit Bank and Forstædernes Bank and general reorganisation. Comparative figures have been restated to the widest extent possible, and some income statement and balance sheet items have been allocated to the business areas based on an estimate.

The Nykredit Realkredit Group is organised into the business areas Retail Customers, Totalkredit, Commercial Customers, Markets & Asset Management and Other Activities.

In nominal terms, mortgage lending rose from DKK 985bn at the beginning of the year to DKK 1,022bn in Q1-Q3/2010. The Nykredit Group realised gross new lending of DKK 148bn against DKK 168bn in Q1-Q3/2009.

The Group commanded a market share of 45.7% of gross new mortgage lending in Denmark and 41.9% of total mortgage lending compared with 46.6% and 41.3% in the same period in 2009.

Gross new lending for owner-occupied dwellings amounted to DKK 109.7bn in Q1-Q3/2010 against DKK 121.9bn in the same period the year before.

Gross new lending to the commercial segment amounted to DKK 38.6bn in Q1-Q3/2010 against DKK 46.0bn in the same period the year before.

In Q1-Q3/2010, bank lending decreased from DKK 60.9bn at the beginning of the year to DKK 59.7bn, and deposits went down from DKK 64.5bn to DKK 54.5bn.

Nykredit Mægler (estate agency business) saw a 16.8% rise in turnover from 9,027 properties sold in Q1-Q3/2009 to 10,542 properties.

Retail Customers

Retail Customers covers activities aimed at the retail segment through Nykredit's own distribution channels. Retail Customers also serves the Group's customers with part-time farming businesses and retail customers owning properties in France, Spain and Germany financed by Danish mortgage loans.

Activity

Total nominal mortgage lending went up by DKK 2.6bn to DKK 188bn at end-Q3/2010. Gross new lending was DKK 25.0bn against DKK 30.1bn in Q1-Q3/2009.

Bank lending declined by DKK 1.3bn to DKK 15.3bn at end-Q3/2010. Bank deposits amounted to DKK 19.2bn at end-Q3/2010 and remained largely unchanged compared with the beginning of the year.

Results

Core earnings before impairment losses came to DKK 450m against DKK 451m in Q1-Q3/2009.

Core income from business operations was DKK 1,766m against DKK 1,768m in Q1-Q3/2009.

Operating costs came to DKK 1,261m and were unchanged on Q1-Q3/2009. Commission payable under the government guarantee scheme totalled DKK 55m against DKK 43m for the same period in 2009.

Impairment losses on loans and advances amounted to DKK 87m and DKK 213m for mortgage and bank lending, respectively, against a total of DKK 307m in Q1-Q3/2009. Impairment losses as a percentage of loans and advances amounted to 0.05% and 1.32% of mortgage and bank lending, respectively. Recognised losses on mortgage lending were DKK 128m compared with DKK 59m for the same period in 2009.

At end-Q3/2010, impairment provisions totalled DKK 791m against DKK 674m at the beginning of the year. For mortgage and bank loans, impairment provisions came to DKK 171m and DKK 620m, respectively.

At the June settlement date, 75-day mortgage arrears as a percentage of mortgage payments due came to 0.63% against 0.76% at the March settlement date and 0.92% at the December 2009 settlement date.

Since the beginning of 2010, the Group has repossessed 170 properties and sold 140. The portfolio of properties repossessed counted 124 at end-Q3/2010 against 94 at the beginning of 2010.

Totalkredit

Totalkredit is responsible for the distribution of mortgage loans to retail customers under the Totalkredit brand through nearly 100 Danish local and regional banks having more than 1,000 branches.

Activity

Nominal mortgage lending rose by DKK 19.1bn to DKK 450bn at end-Q3/2010. Gross new lending was DKK 84.7bn against DKK 91.8bn in Q1-Q3/2009. The downturn in gross lending can be ascribed to lower refinancing activity.

Results

Core earnings before impairment losses came to DKK 401m against DKK 400m in Q1-Q3/2009.

Core income from business operations was DKK 1,077m against DKK 1,017m in Q1-Q3/2009.

Operating costs were DKK 327m against DKK 281m in Q1-Q3/2009. The main reasons were greater market-related efforts and costs of arrears administration.

Depreciation of property, plant and equipment and amortisation of intangible assets amounted to DKK 349m, which mainly related to distribution rights obtained in connection with Nykredit's acquisition of Totalkredit.

Impairment losses on loans and advances came to DKK 88m. Recognised losses for the period netted DKK 63m after set-off against commission payable to partner banks totalling DKK 43m.

At end-Q3/2010, impairment provisions totalled DKK 547m against DKK 535m at the beginning of the year.

At the June settlement date, 75-day mortgage arrears as a percentage of total mortgage payments due came to 0.39% against 0.41% at the March settlement date and 0.50% at the December 2009 settlement date.

At the beginning of 2010, Totalkredit entered into an agreement with its partner banks under which arrears etc are to be handled by the partner banks, which have direct customer contact. Thanks to this agreement, arrears are now handled sooner and more efficiently. Therefore properties repossessed can be kept at a low level, and losses and arrears continue to be lower than the sector average.

The portfolio of properties repossessed totalled 42 at end-Q3/2010 against 22 at the beginning of the year.

Commercial Customers

Commercial Customers comprises banking and mortgage services aimed at all types of businesses, including the agricultural, leasing and rental housing segments. The rental housing segment includes non-profit housing, housing cooperatives and private rental housing.

Activity

Total nominal mortgage lending rose by DKK 15bn to DKK 381.9bn at end-Q3/2010. Gross new lending was DKK 38.6bn against DKK 46.0bn in Q1-Q3/2009.

Bank lending totalled DKK 40.4bn against DKK 39.2bn at the beginning of the year. Bank deposits declined by DKK 5.9bn to DKK 27.8bn at end-Q3/2010.

Results

Core earnings before impairment losses came to DKK 1,664m against DKK 1,058m in Q1-Q3/2009.

Core income from business operations was DKK 2,698m against DKK 2,244m in Q1-Q3/2009. DKK 335m of the rise stemmed from mortgage activities, more specifically loan portfolio growth and a current upward adjustment of administration margins.

Operating costs were DKK 845m against DKK 1,001m in Q1-Q3/2009. Operating costs in Q1-Q3/2009 were affected by expenses totalling about DKK 183m concerning Dansk Pantebrevsbørs A/S under konkurs (in bankruptcy). In addition, commission payable under the government guarantee scheme came to DKK 187m against DKK 169m in the same period in 2009.

Impairment losses on loans and advances amounted to DKK 468m and DKK 191m for mortgage and bank lending, respectively, against a total of DKK 2,371m in Q1-Q3/2009. Impairment losses as a percentage of loans and advances amounted to 0.12% and 0.42% of mortgage and bank lending, respectively. Recognised losses on mortgage lending were DKK 136m compared with DKK 31m in Q1-Q3/2009.

Total impairment provisions stood at DKK 3,996m against DKK 3,901m at the beginning of the year. Mortgage and bank lending accounted for DKK 1,499m and DKK 2,497m, respectively, of total impairment provisions.

Total impairment provisions for mortgage and bank lending to the agricultural sector

amounted to DKK 218m, corresponding to 0.2% of lending.

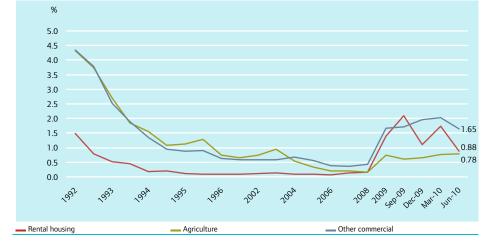

Nykredit's lending to the agricultural sector is characterised by low LTV (loan-to-value) levels. The average LTV is 54% at the current prices of agricultural properties.

At the June settlement date, 75-day mortgage arrears as a percentage of total mortgage payments due came to 1.05% against 1.63% at the March settlement date and 1.28% at the December 2009 settlement date. Arrears as a percentage of lending to the agricultural sector amounted to 0.78% at the June settlement date against 0.77% at the March settlement date.

Since the beginning of 2010, the Group has repossessed 92 properties and sold 61. The portfolio of properties repossessed counted 78 at end-Q3/2010 against 47 at the beginning of 2010.

Operating costs were DKK 163m against DKK 134m in Q1-Q3/2009. Commission payable under the government guarantee scheme to-talled DKK 37m against DKK 75m in the same period in 2009.

Impairment losses on bank lending and provisions for guarantees amounted to DKK 364m and DKK 10m, respectively, compared with a total of DKK 2,579m in Q1-Q3/2009.

Total impairment provisions on bank lending stood at DKK 3,989m against DKK 4,576m at the beginning of the year. The decline mirrors the recognition of losses on a number of nonperforming loans recognised as lost in the period.

The winding up of the mortgage activities in Poland gave rise to impairment losses of just over DKK 1m in Q3/2010.

As at 30 September 2010, Ejendomsselskabet Kalvebod A/S took over all the shares in a property company with a property portfolio worth DKK 427m.

Group items

The segment financial statements contain a number of income statement items that are not allocated to the business areas. Such items are carried under "group items" and include costs of staff functions and provisions relating to the government guarantee scheme.

Group items includes the Group's total return on the securities portfolio, which is the sum of "Core income from securities" and "Investment portfolio income".

Core income from securities

Group core income from securities amounted to DKK 347m compared with DKK 679m in Q1-Q3/2009. The decline mainly stemmed from lower average repo rates at 1.06% compared with 2.03% in the same period of 2009.

Impairment losses on loans and advances – government guarantee scheme The Group made further provisions of DKK 279m at end-Q3/2010, equal to the Bank's expected loss on Bank Rescue Package I. The provisions subsequently totalled DKK 659m.

Investment portfolio income

The Group recorded investment portfolio income of DKK 1,838m against DKK 3,995m at end-Q3/2009. Investment portfolio income was positively affected by declining interest rates and tightening spreads between mortgage and corporate bonds on the one hand and government bonds on the other.

Lending

Group lending totalled DKK 1,082bn against DKK 1,046bn at the beginning of the year.

Total lending includes mortgage lending at nominal value and bank lending excluding reverse transactions and guarantees.

Group mortgage lending at fair value amounted to DKK 1,036bn against DKK 981bn at the beginning of the year. Group mortgage lending at nominal value, excluding arrears, grew by DKK 37bn to DKK 1,022bn.

The Group's bank lending totalled DKK 59.7bn against DKK 60.9bn at the beginning of the year.

The Group's reverse transactions amounted to DKK 14.0bn against DKK 12.0bn at the beginning of the year.

Total impairment provisions for bank and mortgage lending amounted to DKK 9,388m against DKK 9,754m at the beginning of the year. The Group has made no impairment provisions for receivables from credit institutions and central banks or reverse transactions.

The Group's guarantees totalled DKK 16.4bn against DKK 23.4bn at the beginning of the year. At end-Q3/2010, provisions for guarantees stood at DKK 920m. Of this figure, provisions relating to the government guarantee scheme made up DKK 659m against DKK 380m at the beginning of the year.

MORTGAGE LENDING Loan portfolio

Measured at nominal value, the Group's credit exposure from mortgage lending including arrears amounted to DKK 1,023bn at end-Q3/2010 against DKK 986bn at the beginning of the year, up DKK 37bn. Lending for owneroccupied dwellings accounted for DKK 22bn of the rise.

The security behind the mortgage loan portfolio remains substantial. Also, mortgage loans granted via Totalkredit are covered by set-off agreements, which means that Totalkredit may offset a significant part of recognised mortgage loan losses against future commission payments to the partner banks.

Guarantees issued by public authorities contribute to reducing the credit risk of mortgage loans mainly for subsidised housing which are included in lending for non-profit housing. Public authority guarantees are guarantees whereby the guarantor assumes primary liability. This means that Nykredit may enforce the guarantee when a loan falls into arrears. The LTV ratios of the mortgage loan portfolio are shown in the table below with individual loans relative to estimated values of the individual properties at end-Q3/2010.

Provisions for mortgage loan impairment

The Group's provisions for mortgage loan impairment totalled DKK 2,218m at end-Q3/2010, equal to a rise of DKK 276m since the beginning of the year. Individual impairment provisions represented DKK 120m of the increase and collective impairment provisions DKK 156m.

Owner-occupied dwellings accounted for DKK 736m at end-Q3/2010 and commercial properties DKK 1,482m.

The Group's total impairment provisions amounted to 0.22% of total mortgage lending.

Note: Debt outstanding has been determined at fair value at 30 September 2010, and the projection of property values has been based on data at 30 September 2010 supplied by the Association of Danish Mortgage Banks. The table allows for any financed costs. For example, a fully financed owner-occupied dwelling with financed costs of 2% will be placed in the "Over 80" category. As public authority guarantees reduce the credit risk relating to subsidised housing, LTVs of non-profit housing offer no relevant risk data, for which reason they are not included in the table.

Earnings impact

Impairment losses on loans and advances for the period came to DKK 653m against DKK 1,077m in Q1-Q3/2009.

Recognised losses on mortgage loans were DKK 330m in Q1-Q3/2010 against DKK 95m in the same period the year before.

Properties repossessed

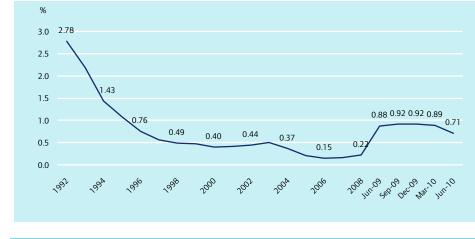

During Q1-Q3/2010, the Group's portfolio of properties repossessed increased. The Group repossessed 327 properties and sold 246. At end-Q3/2010, the property portfolio stood at 244 against 163 at the beginning of the year. Of the 244 properties, 167 were owneroccupied dwellings.

Arrears

As at the June settlement date, group mortgage arrears as a percentage of total mortgage payments due came to 0.71%. By comparison, the arrears ratio was 0.88% at the same time the year before and 0.89% as at the March 2010 settlement date.

BANK LENDING

Group credit exposures in terms of bank lending amounted to DKK 90.1bn at end-Q3/2010 compared with DKK 96.3bn at the beginning of the year.

Bank lending accounted for DKK 59.7bn of total credit exposures against DKK 60.9bn at the beginning of the year. Bank lending before impairment totalled DKK 66.9bn against DKK 68.7bn at the beginning of 2010.

Loans, advances and guarantees declined by DKK 6.1bn, of which DKK 3.4bn stemmed

from property management and trade. On the whole, the relative sector distribution was unchanged.

Total provisions for loan impairment amounted to DKK 7,170m against DKK 7,812m at the beginning of the year, a decrease of DKK 642m. The decline resulted from recognised losses on loans and receivables subject to individual impairment totalling DKK 1,097m at the beginning of the year and a net rise in individual and collective impairment provisions in general of DKK 275m and DKK 180m, respectively. The most significant change in impairments was attributable to a portfolio of terminated exposures relating to Forstædernes Bank where impairment provisions were reduced from DKK 4,576m at the beginning of the year to DKK 3,989m at 30 September 2010. Impairment provisions for this part of the Bank's lending totalled almost 50%.

Guarantees

The Group issues guarantees on a current basis, including guarantees to mortgage banks.

At end-Q3/2010, provisions for guarantees amounted to DKK 920m against DKK 610m at the beginning of the year. Of this amount, provisions relating to the government guarantee scheme in connection with Bank Rescue Package I made up DKK 659m against DKK 380m at the beginning of the year.

Provisions for the government guarantee scheme – Bank Package I – of DKK 659m correspond to the Group's expected share of a maximum of DKK 10bn for the sector as a whole.

LIQUIDITY RISK

Liquidity risk is the risk of loss as a result of insufficient liquidity to cover current payment obligations.

Mortgage lending

The greater part of group lending consists of mortgage loans funded by "realkreditobligationer" and SDOs (collectively referred to as covered bonds) according to the match funding principle.

Mortgage lending and the funding thereof are therefore by and large liquidity neutral. Nykredit's capital resources are placed mainly in a portfolio of listed bonds in addition to portfolio equities, strategic equities and subsidiary equities. By virtue of their large bond portfolios, mortgage banks have plenty of liquidity.

In its "Bank Financial Strength Ratings: Global Methodology" from February 2007, Moody's Investors Service has laid down a number of principles for requirements relating to the liquidity management of banks. In order to obtain the rating "Very Good Liquidity Management", the liquidity curve must be positive 12 months ahead. The liquidity of Nykredit Realkredit and Totalkredit is always positive due to the match funding principle and the investment rules applying to the statutory capital requirement.

The liquidity curves for mortgage lending and banking illustrate that the Nykredit Group is extremely liquid.

In February 2009 a scheme was set up under which Danish mortgage banks may obtain an individual government guarantee (Bank Rescue Package II) for issues of unsubordinated unsecured debt and junior covered bonds. Mortgage banks may apply for guarantees of up to three years until end-2010. Nykredit Realkredit has an unutilised guarantee facility of DKK 25bn available until 31 December 2010. Nykredit Realkredit does not expect to utilise the guarantee facility.

In H2/2009 the Danish central bank expanded the range of assets eligible as permanent collateral for the loans of commercial and mortgage banks with the Danish central bank (monetary policy loans and intraday credits) to include junior covered bonds issued by mortgage banks. In Q3/2010 the European Central Bank (ECB) followed suit, including junior covered bonds issued through VP Lux as eligible collateral.

Immediately following the ECB's approval, Nykredit Realkredit launched its first junior covered bond benchmark issue, which was targeted at international investors.

Nykredit Realkredit expects to launch a Global Medium Term Note (GMTN) programme in Q4/2010 in order to

- increase the sale of bonds to international investors
- increase awareness of Danish mortgage lending
- facilitate funding of loans in currencies other than DKK and EUR.

Banking

Nykredit Bank monitors its balance sheet and liquidity on a day-to-day basis. The management of the Bank's structural liquidity risk is based on an internal model relating to the liquidity of assets and liabilities. Securities not serving as collateral in the trading book constitute a short-term liquidity buffer that may be applied in the case of unforeseen drains on the Bank's liquidity.

The model assumptions are stress tested daily. This includes calculating the effect of a liquidity crisis that would increase the Bank's funding costs and lower the liquidity of assets.

According to the Danish Financial Business Act, a bank's liquidity must be at least 10% of total reduced debt and guarantee obligations. Nykredit Bank operates with an internal excess liquidity cover of a minimum of 50% relative to the statutory requirement.

At 30 September 2010, the excess cover was 169% against 324% at end-2009. At 30 September 2010, the liquidity buffer, equivalent to the above excess cover, amounted to DKK 38.6bn compared with DKK 66.8bn at end-2009. In Q1-Q3/2010 the liquidity buffer averaged DKK 53.1bn compared with an average of DKK 39.2bn for Q1-Q3/2009.

Stress tests according to the principles of Moody's Investors Service's "Bank Financial Strength Ratings: Global Methodology" show that the Bank has positive liquidity to withstand a 12-month lack of access to the funding markets. The Bank's long-term funding activities progressed according to plan, with Euro Medium Term Note (EMTN) issues of DKK 10.8bn at 30 September 2010.

Further, the Bank has continued its current refinancing of short-term Euro Commercial Paper (ECP) issues, which totalled DKK 14.2bn at 30 September 2010.

The aggregate amount issued under the ECP and EMTN programmes was DKK 25.0bn at 30 September 2010 against DKK 41.2bn at end-2009.

As an additional liquidity buffer, the Bank has a guarantee facility for issues subject to an individual government guarantee under Bank Rescue Package II of DKK 15bn up to 31 December 2010. The Bank does not expect to make use of the guarantee facility.

EQUITY AND CAPITAL ADEQUACY OF THE NYKREDIT REALKREDIT GROUP

Equity

Group equity, including recognition of profit for the period, stood at DKK 54.8bn at end-Q3/2010 compared with DKK 51.2bn at the beginning of the year.

In accordance with IAS 39, Nykredit has classified the Group's strategic equity investments as "available for sale" in its Consolidated Financial Statements. The strategic equity investments include equities in a number of Danish local and regional banks, which are value adjusted against equity on a current basis.

For the period Q1-Q3/2010, the value adjustment against equity in the Consolidated Financial Statements came to a loss of DKK 58m after tax.

An unrealised capital loss of DKK 100m relating to Nykredit's strategic shareholding in Amagerbanken has been reclassified to the income statement. It resulted from the impairment prompted by Amagerbanken's writedown of the share capital prior to the most recent share issue.

Nykredit's shares remain a strategic shareholding classified as available for sale.

Capital base and capital adequacy

The Nykredit Realkredit Group The Group's capital base amounted to DKK 60.6bn, and the capital requirement was DKK 26.6bn. The capital adequacy ratio and the core capital ratio came to 18.2% and 18.1%, respectively. In comparison, the capital need was 9.4%.

For the greater part of lending, the capital requirement for credit risk is calculated using the most advanced IRB approaches.

The capital requirement for market risk is determined mainly on the basis of a Value-at-Risk model, and the capital requirement for operational risk is determined using the basic indicator approach.

Under transitional rules applicable to 2010, the capital requirement may not decrease by more than 20% compared with the former rules.

¹ The capital requirement after transitional rules has been determined pursuant to the transitional rules of the Danish Executive Order on Capital Adequacy. As a minimum, the capital requirement for 2010 must be 80% of the capital requirement determined under Basel I.

² The core capital ratio has been determined on the basis of risk-weighted items of DKK 332,784m for the Nykredit Realkredit Group and DKK 344,181m for Nykredit Realkredit A/S, ie before transitional rules.

³ The minimum capital adequacy ratio after transitional rules has been determined as the capital requirement after transitional rules as % of risk-weighted items under Basel II. Accordingly, the minimum capital adequacy ratio reflects the capital adequacy requirement as a result of the transitional rules.

According to the transitional rules, the capital requirement amounted to DKK 44.2bn, equal to a capital adequacy ratio of at least 13.3%.

Nykredit Realkredit A/S

Nykredit Realkredit A/S's core capital ratio and capital adequacy ratio came to 17.2%. In comparison, the capital need was 9.1%.

According to the transitional rules, the capital requirement amounted to DKK 31.3bn, equal to a capital adequacy ratio of at least 9.1%.

REQUIRED CAPITAL BASE AND CAPITAL NEED

Pursuant to the Danish Financial Business Act, it is the responsibility of the Board of Directors and Executive Board to ensure that Nykredit has the required capital base (capital adequacy). The required capital base is the minimum capital base which in Management's opinion is required to cover all significant risk.

The report Risk and Capital Management 2009, available at nykredit.com/reports, contains a detailed description of the determination of the required capital base and the capital need of the Nykredit Group as well as all group companies.

The capital need is calculated as the required capital base as a percentage of risk-weighted items. The Group's individual capital need was 9.4%.

In determining the required capital base, Nykredit applies statistical confidence levels higher than the statutory 99.9%. The Group's required capital base is determined using a confidence level of 99.97% for all exposures out of consideration for Nykredit's commitment to maintain a competitive rating of the issued bonds.

The required capital base consists of Pillar I and Pillar II capital.

Pillar I

Pillar I capital covers credit, market and operational risk as well as risk relating to own properties. In the determination of credit risk, weak exposures are assigned a higher risk weight as calculated by the credit models.

At end-April 2010, Nykredit sold Nykredit Forsikring A/S to Gjensidige, and therefore the insurance risk at end-Q3/2010 has been eliminated.

Pillar II

Pillar II comprises capital to cover other risks as well as an increased capital requirement during an economic downturn. The capital requirement during an economic downturn is determined by means of stress tests and scenario analyses. A special model has been developed for the purpose of this type of analysis.

Weaker economic climate

In its Pillar II assessment, Nykredit assumes that the economic climate will be weaker in 2010-2012, which scenario is in line with the economic forecasts made by a number of recognised institutions. The macroeconomic projections correspond to Nykredit Bank's official forecasts.

In a weaker economic climate, the need for capital will grow concurrently with increasing

arrears and falling property prices. The calculations take account of the fact that customers' ability to pay is only slowly affected by the overall economy. The calculations also factor in any operating losses due to higher impairment losses, etc.

¹ Other factors include assessment of control risk, strategic risk, exte	rnal risk, concentration risk	, liquidity risk, etc.	

Other factors

The determination of other factors includes any additional risk relating to own properties and reputation risk, which are determined using internal estimates as well as assessments of control risk, strategic risk, external risk, concentration risk, etc.

Model and calculation uncertainties Nykredit applies various models to calculate the capital requirements under both Pillar I and Pillar II.

The calculated capital requirement depends on the choice of model, model design, level of detail, etc. Under Pillar II, a charge is included that reflects the uncertainty of the models used. Generally, the charge applied corresponds to 10% of the other risks.

CYCLICAL BUFFER

In addition to the required capital base, Nykredit provides capital to cover the expected rise in the required capital base should the economic climate deteriorate to a severe recession, corresponding to an increase in unemployment of around 10%. The macroeconomic scenario behind the cyclical buffer is much more severe than the one applied for Pillar II capital/the required capital base.

The calculations are based on the assumption that the existing lending volume is maintained in spite of a weaker economic climate.

The purpose of the cyclical buffer is to secure Nykredit's capital resources, and thereby its lending capacity, during a very severe recession such as in the early 1990s. The calculations also include relatively high interest rates in order to be able to withstand a situation with several coinciding macroeconomic problems.

The cyclical buffer is DKK 15.5bn.

CAPITAL POLICY

Nykredit has an objective of being able to maintain its lending activities at an unchanged level regardless of economic trends, while keeping a competitive rating. For this reason, Nykredit requires sufficient capital resources to cover an increase in statutory capital requirements during a severe recession.

Against this backdrop, Nykredit divides its equity of DKK 54.8bn into four elements:

- Business capital of DKK 31.2bn equal to the statutory required capital base. Nykredit's assessment of the required capital base is partly based on the consequences of further deterioration of economic trends corresponding to an unemployment ratio in the region of 6%.
- Cyclical buffer of DKK 15.5bn covering the expected cyclical rise in the statutory required capital base should the economic climate change from the current recession to a severe recession with employment rates rising to the high levels of the early 1990s corresponding to an unemployment rate in the region of 10%. The cyclical buffer is determined by means of stress tests.
- Statutory capital deductions (goodwill etc) relating to intangible assets of DKK 4.9bn.
- Strategic capital of DKK 3.2bn, the longterm capital maintained for strategic initiatives.

In addition to equity, the Nykredit Realkredit Group has raised hybrid core capital of DKK 11.2bn.

NEW REGULATION

In the past few years, efforts have been made internationally to strengthen financial regulation – chiefly under the aegis of the Basel Committee. The Basel Committee issued a proposal at end-2009 which laid down the framework for future regulation.

During the autumn a number of proposals have been further specified. This has clarified matters, especially as regards future capital requirements, but many uncertainties remain in respect of the final proposals. The Basel Committee is expected to present its final proposal at end-2010. The proposal will be implemented in the form of directives and legislative acts, both at EU and national level.

The capital requirements imposed on commercial and mortgage banks will tighten markedly. The current 8% capital requirement will be replaced by a requirement to hold capital of up to 13% of weighted assets.

The final requirements as to commercial and mortgage banks' short- and long-term stock of liquid assets are not known yet. The proposals may be of great importance to future covered bonds and borrower terms.

The proposed liquidity levels will make it difficult to maintain Danish ARMs in their present form or step up customers' borrowing costs markedly. The short-term stock of liquid assets is highly dependent on banks' sovereign debt holdings. However, the relatively moderate supply of sovereign debt in Denmark will make it difficult to fulfil the requirement of the current proposal. In addition, the rules for longterm liquidity do not allow for the mainly Danish model of lending based on match funding.

Intense efforts are being made internationally to solve the problems in the proposals which have already been identified.

Nykredit expects that the EU Commission will be positive towards allowing for the special Danish market conditions once the proposals have been transformed into directives.

Nykredit's shareholding in Amagerbanken A/S

In August Nykredit announced that the Group would participate in the capital increase in Amagerbanken A/S provided that an overall solution was obtained for the bank.

Nykredit has acquired shares, the proceeds of which represent just over 5% of the capital need, equal to Nykredit's former shareholding.

As the shares have been fully subscribed, Amagerbanken will receive capital exceeding the capital need set out in the prospectus. Therefore, Nykredit's shareholding in Amagerbanken has been reduced proportionately and is now less than 5%.

Capital increase – Nykredit Bank A/S

In the wake of continued growth in Nykredit Bank's customer-oriented business, it has been decided to strengthen the Bank's core capital. Accordingly, the Bank's capital was expanded by DKK 1.0bn measured at market value in September. The capital increase was fully subscribed by Nykredit Realkredit.

Early redemption of subordinated debt

In September Nykredit Realkredit A/S redeemed supplementary capital of nominal EUR 500m.

In August and September, Nykredit Bank A/S redeemed supplementary capital of DKK 150m and DKK 100m, respectively. Furthermore, the Bank was authorised by the Danish Financial Supervisory Authority to redeem additional subordinate loan capital of EUR 10m in October 2010.

Bank rescue packages

The Danish Bank Rescue Package I expired on 30 September 2010. Since 2008 the Group has incurred costs in the form of commission and provisions of DKK 984m and DKK 659m, respectively.

Strategic alliance with Gjensidige Forsikring

In March Nykredit entered into a long-term strategic insurance alliance with Gjensidige Forsikring, which acquired Nykredit Forsikring A/S at a price of DKK 2.5bn, of which good-will amounted to about DKK 1.5bn.

A core element of the alliance is a distribution agreement according to which Nykredit continues to supply and sell insurance products and services to its customers with Gjensidige Forsikring as supplier. Retail customers will continue to be served under the Nykredit brand, whereas commercial – including agricultural – customers will be served under the Gjensidige brand.

The change of ownership of Nykredit Forsikring A/S will not influence the current insurance relationships with customers, which will continue unchanged.

The new insurance alliance underpins Nykredit's growth ambition as a broad-based financial services business with banking and mortgage lending as core business activities.

The transaction was completed on 29 April 2010.

Higher administration margins and new mortgage price structure

In February 2010, Nykredit announced that it would increase margins on both new and existing mortgage loans to retail customers.

In consequence of Nykredit's undertaking concerning administration margin adjustments in connection with its acquisition of Totalkredit in the autumn of 2003, the competition authorities have temporarily overruled Nykredit's decision to increase administration margins as intended.

The competition authorities have indicated that, under the circumstances and because of the nature of the undertaking and the time passed since it was made, they will examine whether market and regulatory conditions have changed to such an extent that the undertaking should be cancelled.

Nykredit disagrees with the competition authorities that the announced administration margin increases conflict with the undertaking given in the autumn of 2003. Accordingly, Nykredit has brought the matter before the Competition Appeals Tribunal. A decision in the case is expected in late 2010 or early 2011.

Tax case

Nykredit Realkredit is party to a pending tax case, which the Danish tax authorities have appealed to the Danish High Court. If the High Court finds for Nykredit, deferred tax of DKK 101m will be recognised as income.

Uncertainty as to recognition and measurement

The measurement of certain assets and liabilities is based on accounting estimates made by Group Management.

The areas in which assumptions and estimates significant to the financial statements have been made include provisions for loan and receivable impairment, unlisted financial instruments and other provisions, see the mention in the Annual Report for 2009.

In Management's opinion, the uncertainty relating to the above-mentioned matters is insignificant to the Q1-Q3 Interim Report 2010.

EVENTS OCCURRED AFTER THE END OF THE FINANCIAL PERIOD

No significant events have occurred in the period up to the presentation of the Q1-Q3 Interim Report 2010.

STATEMENT BY THE BOARD OF DIREC-TORS AND THE EXECUTIVE BOARD ON THE INTERIM REPORT

The Board of Directors and the Executive Board have today reviewed and approved the Interim Report for the period 1 January – 30 September 2010 of Nykredit Realkredit A/S and the Nykredit Realkredit Group.

The Consolidated Financial Statements have been presented in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU. The Parent Financial Statements for Q1-Q3/2010 have been prepared in accordance with the Danish Financial Business Act. Further, the Q1-Q3 Interim Report 2010 has been prepared in accordance with additional Danish disclosure requirements for interim reports of issuers of listed bonds.

We are of the opinion that the Interim Financial Statements give a fair presentation of the Group's and the Parent Company's assets, liabilities, equity and financial position at 30 September 2010 and of the results of the Group's and the Parent Company's activities as well as the Group's cash flows for the financial period 1 January – 30 September 2010. We are furthermore of the opinion that the Management's Review gives a fair review of the development in the activities and financial circumstances of the Group and the Parent Company as well as a satisfactory description of the material risk and uncertainty factors which may affect the Group and the Parent Company.

1. ACCOUNTING POLICIES

General

The Consolidated Financial Statements for Q1-Q3/2010 have been prepared in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU and further Danish financial reporting and disclosure requirements for interim reports. Compliance with IAS 34 implies observance of the principles of recognition and measurement of the IFRS and a less detailed presentation relative to the presentation of annual reports.

The interim financial statements of the Parent Company have been prepared in accordance with the Executive Order on Financial Reports for Credit Institutions and Investment Companies, etc. issued by the Danish Financial Supervisory Authority.

Compared with the Annual Report for 2009, the accounting policies of the Nykredit Realkredit Group are unchanged, except for the areas below:

- Investments in joint ventures have been recognised and measured according to the equity method. Previously, investments in joint ventures were consolidated proportionately. Comparative figures have been restated. The change has no impact on earnings or equity but on a few of the Group's financial ratios.
- Nykredit Forsikring A/S has been recognised in the income statement as discontinuing operations under "Profit from discontinuing insurance operations". Profit from the sale of Nykredit Forsikring A/S has also been recognised under "Profit from discontinuing insurance operations". Pursuant to IFRS 5 comparative figures in the income statement and the cash flow statement have been restated, whereas comparative figures in the balance sheet have not been restated. The restatement has no impact on earnings or equity but on a few of the Group's financial ratios.

The effect of the restatement of comparative figures appears from note 25.

For a full description of the Group's and the Parent Company's accounting policies, please refer to the Annual Report for 2009, which is available at nykredit.com.

Compared with the Annual Report for 2009 (note 1), no new reporting standards or interpretations have been issued or approved which would influence the Q1-Q3 Interim Report 2010 of Nykredit Realkredit A/S and the Nykredit Realkredit Group.

All figures in the Q1-Q3 Interim Report are presented in DKK million. The totals stated are calculated on the basis of actual figures. Due to the rounding-off to DKK million, the sum of individual figures and the stated totals may differ slightly.

The Q1-Q3 Interim Report 2010 has not been audited or reviewed.

-		 23. OFF-BALANCE SHEET ITEMS The size and business scope of the Nykredit Realkredit Group continuously involve the Group in legal proceedings. For a description of significant cases, please refer to the Management's Review. Other pending cases are not expected to have a significant effect on the Nykredit Realkredit Group's financial position. Nykredit Realkredit A/S is jointly taxed with all the Danish group enterprises of the Foreningen Nykredit Group. Nykredit Realkredit A/S is solely liable for the part of tax which is attributable to Nykredit Realkredit A/S and which is not settled with Foreningen Nykredit via the scheme for payment of tax on account. The companies Nykredit Realkredit A/S, Totalkredit A/S, Nykredit Bank A/S, Nykredit Leasing A/S and Nykredit Portefølje Adm. A/S are registered jointly where payroll tax and VAT are concerned and are jointly and severally liable for the settlement thereof. Nykredit Realkredit A/S is liable for the obligations of the pension funds in run-off Jyllands Kreditforenings Afviklingspensionskasse (CVR no 24256219) and Den Under Afvikling Værende Pensionskasse i 		
		Forenede Kreditforeninger (CVR no 71977714). Guarantees and warranties provided, irrevocable credit commitments and similar obligations not recognised in the balance sheets are presented below.

		 Government guarantee scheme (Bank Rescue Package I) Nykredit Bank A/S participated in a government guarantee scheme, which expired at the end of September 2010. The scheme included a two-year guarantee issued by the Danish government, covering the Danish banks enrolled in the scheme. Up to 30 September 2010, Nykredit Bank A/S's share of the total guarantee commission came to DKK 984m. For Q1-Q3/2010, DKK 371m was charged to the income statement under "Other operating expenses". Nykredit Bank A/S also participated in a sector guarantee totalling DKK 20bn with a potential share of up to DKK 1,318m. At 30 September 2010, DKK 659m had been provided for the obligation. In Management's opinion, the provision at 30 September 2010 reflected the Bank's share of the expected obligation. Bank Rescue Package II Nykredit Bank A/S and Nykredit Realkredit A/S have been granted individual government guarantee facilities of DKK 15bn and DKK 25bn, respectively, covering their issues of senior debt. The guarantee scheme may run until 2013. Nykredit Bank A/S and Nykredit Realkredit A/S do not expect to make use of the guarantee facilities in connection with bond issuance.

¹ Financial ratios are based on the definitions and guidelines of the Danish Financial Supervisory Authority, and financial ratios have therefore been calculated based on results for the year including value adjustment of strategic equities. When calculating the financial ratio "Return on equity before tax", "Profit from discontinuing insurance operations" is included in "Profit (loss) before tax".

* As from 1 January 2008, the capital adequacy and core capital ratios are determined in accordance with Basel II.
