Q1-Q3 INTERIM REPORT – NYKREDIT REALKREDIT GROUP 1 JANUARY – 30 SEPTEMBER 2015

Michael Rasmussen, Group Chief Executive, comments on Nykredit's Q1-Q3 Interim Report 2015

- It is very satisfactory that we continue to make progress towards becoming a more customer-centric and profitable Nykredit.

- Profit from core business has improved to DKK 4,325m from DKK 2,665m in the same period last year. The improvement reflects a positive trend in items within our control. Income is rising, whereas costs and loan impairment losses are decreasing. Accordingly, we raise our full-year guidance by DKK 500m to DKK 4.7bn-5.2bn.

- When launching the concept of BoligBank, we took a crucial first step in making a special effort for Danish homeowners. We are pleased with the way the concept has been received by new as well as existing customers. Since the launch, we have recorded a net increase in full-service homeowner customers of more than 1,000 per month.

- The rise in customer numbers and the improved results are important steps in the right direction, but the Nykredit Group still has to work intently to fully realise our potential. We can – and want to – make an even greater difference to our customers, while improving business profitability. Accordingly, we maintain our focus on Business Plan 2018, which we will implement as part of our Winning the Double strategy.

- The Nykredit Group has improved profit before tax by DKK 1,561m on the same period last year. In addition to profit from core business, profit before tax includes investment portfolio income, interest rate swaps and adjustment of goodwill. Our core business is key to delivering our targets, and therefore we note the bottom-line, but our main focus is on profit from core business.

Nykredit Realkredit Group, performance for Q1-Q3/2015

SUPPLEMENTARY/CORRECTING DISCLOSURE

Following talks with the Danish Financial Supervisory Authority (FSA), Nykredit has revised the assumptions underlying its measurement of goodwill. The implication was a DKK 852m goodwill impairment charge relating to the acquisition of Forstædernes Bank in the Annual Report 2014.

Michael Rasmussen comments on the goodwill items of the Nykredit Group:

– The Danish FSA has requested us to retrospectively write down goodwill for impairment relating to the acquisition of Forstædernes Bank. We will accommodate this request. Further, we have made a DKK 1,907m impairment charge relating to the acquisition of Totalkredit. There are thus no longer any significant goodwill items in the financial statements of the Nykredit Group.

As the impairment charge relating to the acquisition of Forstædernes Bank is retrospective, only the DKK 1,907m impairment charge related to the acquisition of Totalkredit affects the results in this Q1–Q3 Interim Report. In addition to the Annual Report 2014, the impairment charge relating to Forstædernes Bank affects equity in the Q1 Interim Report 2015 and the H1 Interim Report 2015 of Nykredit Realkredit A/S. For further information, see the paragraph "Other" and the subsequent separate announcement.

GROUP CHIEF EXECUTIVE'S STATEMENT

Our results are good. But they must be even better.

These were my words when we announced our half-year results three months ago. And my words are the same today.

We continue our journey towards becoming a more profitable business, while delivering daily improvements in customer experiences. Income has gone up, whereas costs and loan impairment losses have gone down. This has led to growth in income from core business for the first three quarters to DKK 4,325m from DKK 2,665m in the same period last year. We are pleased with this performance, which could not have been achieved without the very assiduous efforts of Nykredit's staff. I would like to thank all our staff for their strong dedication.

We should also keep in mind that bringing Nykredit into the desired position will be a long haul. We can – and want to – perform even better.

Looking around the corner

We are aware of the significant changes going on in the world in which we do business. The demands on a company like Nykredit continue to increase. As a responsible management, we must ensure that Nykredit is always prepared for the conditions that are just around the corner. And – if possible – the next corner, too.

We need only look a good three years ahead to see the first important corner. When we enter 2019, capital requirements will have grown substantially. We need an estimated DKK 10bn more of Common Equity Tier 1 (CET1) capital than we have today. The capital is needed as a buffer against regulatory requirements and to fulfil the expectations of investors and credit rating agencies.

The DKK 10bn must come from earnings. And there is no prospect of any support from general economic trends. On the contrary. We have noted decreasing customer activity in recent months. So have our competitors, which has only intensified competition for customers. Further, the most recent announcements by the ECB did not indicate higher interest rates any time soon.

All these factors put pressure on our earnings. In addition, income from mortgage lending is declining, because a growing number of customers with short-term, variable-rate loans remortgage into safer and cheaper loan types. We recommend all homeowners to make this shift, as it provides each homeowner with greater interest rate certainty and is in line with the FSA Supervisory Diamond. But such a shift also affects our earnings today and in coming years.

In other words, we have to overcome many challenges to reach the DKK 10bn. But one thing is clear: We must deliver this target. It is therefore of vital importance that we take our core business further. Because it is up to our core business to ensure that we increase capitalisation sufficiently in the next three years.

New requirements ahead

A strong core business becomes even more imperative when we try to look around yet another corner – beyond 2019. The Basel Committee and the EU are discussing new extensive statutory capital and earnings requirements for the financial sector. Politicians and government officials are discussing concepts such as capital floors, risk weights, NSFR, leverage ratio and MREL. These discussions are of a technical nature, and they may, on the face of it, seem like minor adjustments – but this is not the case at all. The potential changes may, together or individually, rock the foundation of the Danish mortgage sector. As Denmark's largest mortgage provider, Nykredit will be highly affected by such an event.

To give but one example: Tightening of risk weights for residential lending is being discussed in Europe. They have already been tightened in Sweden, which means that banks must hold more capital when granting loans to homeowners. If the same rules are introduced in Denmark, this will increase our CET1 capital requirement by nearly DKK 15bn.

We do not know yet when or how new requirements will present themselves. But we know that new challenges will surface after 2019, and we should bear them in mind already now to ensure that Nykredit continues its 160-year-long track record of providing attractive finance to Danish homeowners and businesses.

Customer focus strengthens core business

However, we must not lose focus on the present because we are keeping a wary eye on the future. As part of our efforts to strengthen our core business, we launched Business Plan 2018 three months ago, which is implemented in continuation of our Winning the Double strategy. This plan will further enhance efficiency, while ensuring that Nykredit makes a greater difference to Danish homeowners, businesses and our Totalkredit partners. It is crucial that these two initiatives go hand in hand. Therefore, we are pleased to see that this year we have succeeded in reducing costs, while strengthening our relationship with customers and business partners.

This is seen for example in connection with the launch of our homeowner banking concept, BoligBank, which comprises products and services tailored for Danish homeowners. Our BoligBank customers are today more satisfied than before. Further, BoligBank has generated a net increase in the customer base of more than 1,000 new full-service homeowner customers per month.

We have also strengthened our relations with our 58 Totalkredit partners. Following many years of growth in the retail segment, we have expanded our partnership to include commercial loans. This area holds great potential for us, and we are pleased to be able to offer Danish businesses a new financing alternative.

Digitisation is also a vital element of our efforts to combine efficiencies and enhanced customer focus. We have launched a number of new, digital services this year, of which the most important is the Bolighed concept, which we own together with three major partner banks. About half a million Danes have tried Bolighed. As part of Business Plan 2018, we have earmarked funds for investment in more digital services which make a difference to our customers.

There must be no doubt that Nykredit will continue to change and improve – now and in future – for the benefit of our customers, Nykredit and Danish society.

Chmm M

Michael Rasmussen Group Chief Executive

¹ Special value adjustments include value adjustment of certain staff benefits, the impact of "Nykredit 2015", and contributions to the Guarantee Fund for Depositors and Investors and Resolution Fund schemes. Comparative figures in respect of the Guarantee Fund for Depositors and Investors have been restated in the new presentation. Previously, they were included in operating costs.

² The new AT1 capital is treated as a financial obligation for accounting purposes, and the dividends for the period for accounting purposes are included as interest expenses on subordinated debt in the

profit/loss for the period.

 $^{\rm 3}$ Adjusted by DKK 852m concerning goodwill impairment.

Q1-Q3 INTERIM REPORT 2015

NYKREDIT REALKREDIT GROUP RESULTS RELATIVE TO Q1-Q3/2014

Nykredit recorded a profit before tax of DKK 3,111m against DKK 1,550m in Q1-Q3/2014. Excluding value adjustment of interest rate swaps and goodwill impairment, profit rose from DKK 3,543m to DKK 4,806m.

A positive development was seen in underlying performance. Core income from business operations rose by DKK 634m, or 7%, operating costs were trimmed by DKK 134m, or 4%, and impairment losses declined by DKK 764m, corresponding to total growth of DKK 1,532m on Q1-Q3/2014.

Value adjustment of interest rate swaps had a positive impact of DKK 212m compared with a negative impact of DKK 1,993m in Q1-Q3/2014. The value adjustment should be seen in the context of the Group's provisions for potential future losses, and the income in 2015 was partly a result of the interest rate rise in Q2. The provisions especially cover legal and financial risk associated with the cooperative housing segment.

In Q3/2015, Nykredit wrote down goodwill for impairment by DKK 1,907m in relation to the acquisition of Totalkredit A/S, as a result of the annual impairment test. Relative to the Financial Statements for 2014, the impairment test for 2015 has been changed, which means that Nykredit now applies the usual 5-year IFRS budget period. To this should be added changed cost of capital. The goodwill impairment charge affects profit/loss and equity, but not capital adequacy and CET1 capital.

Impairment losses on lending saw a positive development, as they reduced to DKK 693m, or 52%, against DKK 1,457m in Q1-Q3/2014 due to lower impairment of both mortgage and bank loans.

The Group reported a post-tax profit of DKK 1,991m for Q1-Q3/2015. Equity was DKK 64,577m at end-Q3/2015, including Additional Tier 1 (AT1) capital of DKK 3,831m (EUR 500m raised in Q1/2015), which is treated as equity for accounting purposes. Excluding AT1 capital, equity amounted to DKK 60,746m against DKK 58,650m at end-2014.

CET1 capital, which is the most important capital concept in relation to the capital adequacy rules, came to DKK 59.6bn at end-Q3/2015 against DKK 55.6bn at end-2014.

Core earnings

Core income from business operations

Core income from business operations rose by DKK 634m, or 7%, to DKK 9,122m.

Core income from mortgage lending increased by DKK 571m, or 10%, to DKK 6,452m due to growth in administration margin and activity income. Earnings improved in both Nykredit Realkredit and Totalkredit, in part due to exceptionally high remortgaging activity in Q1.

Nominal mortgage lending came to DKK 1,112.1bn against DKK 1,111.7bn at end-2014. Totalkredit Partners recorded growth of DKK

7.2bn, whereas Retail dropped by DKK 2.2bn and Wholesale Clients by DKK 4.6bn.

Core income from banking operations totalled DKK 2,542m, up DKK 62m compared with DKK 2,480m in Q1-Q3/2014. The rise was notably driven by Wholesale Clients, where income from banking operations grew to DKK 1,402m from DKK 1,180m in Q1-Q3/2014, of which Nykredit Markets's activities accounted for an increase of DKK 148m to DKK 397m. Corporate & Institutional Banking and Nykredit Asset Management recorded activity growth of DKK 82m and DKK 13m, respectively.

Relative to end-2014, bank lending at amortised cost fell by DKK 3.0bn to DKK 47.5bn at end-Q3/2015, while deposits declined by DKK 3.6bn from DKK 65.2bn at end-2014 to DKK 61.6bn. Nykredit Bank recorded a deposit surplus of DKK 14.1bn at end-Q3/2015 compared with DKK 14.7bn at the beginning of the year.

Value adjustment of derivatives

Value adjustment for the period equalled a gain of DKK 212m against a loss of DKK 1,993m in Q1-Q3/2014. Losses incurred on terminated contracts totalled DKK 97m in Q1-Q3/2015. In addition to swap rate movements, profit for Q1-Q3 was affected by general provisions of DKK 309m for general risk relating to swaps. The provisions were not related to individual customers.

In Q1-Q3/2015, the value adjustment was significantly affected by interest rate falls in Q1 in part due to pressures on the DKK, which resulted in an expense of DKK 992m in Q1. Conversely, interest rates rose significantly in Q2, which contributed to a gain of DKK 1,856m.

Q3 was again influenced by a drop in long-term interest rates, leading to negative value adjustments of DKK 242m.

Nykredit Bank and the Nykredit Group have no direct interest rate exposure from their portfolios of interest rate swaps due to interest rate hedging arrangements with major domestic and foreign banks.

Therefore, value adjustments should chiefly be seen in the context of provisions prompted by the uncertainty about the legal set-up of cooperative housing and customers' financial outlook. The level was particularly affected by long-term swap rates, which were 1.8% at end-Q3/2015 against 1.7% at end-2014 and 2.0% as at 30 June 2015.

If the interest rate level changes by 1 percentage point, Nykredit Bank's earnings will increase or decrease, as the case may be, by about DKK 1.9bn.

Value adjustments should be considered provisions for potential future losses. At the same time, valuations are based on a conservative assessment. Thus, the entire market value of swap contracts with customers having the lowest ratings has been adjusted to DKK 0.

It should be noted that, to a significant extent, the provisions have been made to cover the risk that some judicial decisions related to the cooperative housing segment will go against Nykredit's interests. However, the decisions are expected to be in Nykredit's favour. In the longer term, the major part of the provisions is expected to be reversed.

Losses incurred on interest rate swaps since 2012 amounted to some DKK 408m and are expected to remain at a low level compared with the total provisions of about DKK 5.0bn. One reason for the relatively large provisions is the fact that swap contracts with customers having the lowest ratings are valued at DKK 0. The provisions are thus higher than the expected losses based on probability-weighted loss scenarios. Incurred losses amounted to DKK 97m in Q1-Q3/2015.

In July 2015, the Danish High Court found for Nykredit, ruling that a housing cooperative's petition for bankruptcy could not be granted under the specific circumstances. This judicial decision did not affect the valuation of interest rate swaps in Q1-Q3/2015.

Senior debt

Nykredit's senior debt came to DKK 29.4bn at end-Q3/2015 against DKK 32.8bn at the beginning of the year, and net interest expenses amounted to DKK 260m against DKK 313m in Q1-Q3/2014. Nykredit applies senior debt to fund supplementary collateral for mortgage covered bonds (SDOs).

Core income from securities

The risk-free interest rate, which corresponds to the Danish central bank's average lending rate, dropped from 0.20% to 0.06%, which reduced income from DKK 93m in Q1-Q3/2014 to DKK 28m.

Operating costs, depreciation and amortisation

Nykredit's costs, excluding special value adjustments, declined by 4% to DKK 3,554m. Costs as a percentage of core income from business operations were trimmed from 43.4% in Q1-Q3/2014 to 39.0%.

Salaries and related expenses dropped by DKK 41m, or 2%, to DKK 2,163m, in part due to the reduction of 225 persons, or 6%, in average staff numbers to 3,763 compared with Q1-Q3/2014.

In Q3/2015, goodwill relating to Totalkredit was written down for impairment, leading to a charge of DKK 1,907m.

In general, other costs declined to DKK 1,487m compared with DKK 1,561m year-on-year.

Impairment losses on loans and advances

Impairment losses on loans and advances fell by a total of DKK 764m, or 52%, to DKK 693m. Impairment losses equalled 0.07% of total mortgage lending and negative 0.09% of total bank lending.

Impairment losses on mortgage lending declined to DKK 780m, down DKK 558m.

Impairment losses on mortgage lending to personal customers decreased by DKK 5m to DKK 430m, equal to 0.06% of lending. Impairment losses on mortgage lending to commercial customers fell by DKK 553m to DKK 350m.

Impairment losses on bank lending showed a positive development from DKK 119m in Q1-Q3/2014 to an income of DKK 87m in Q1-Q3/2015. Impairment losses in Retail dropped by DKK 12m to DKK 99m, while Wholesale Clients recorded an income of DKK 186m from loan impairment compared with losses of DKK 4m in Q1-Q3/2014. Nykredit's impairment provisions for potential future losses on mortgage and bank lending totalled DKK 8.8bn against DKK 9.1bn at the beginning of the year. In addition, total provisions for value adjustment of interest rate swaps amounted to DKK 5.0bn against DKK 5.5bn at the beginning of year.

Losses incurred on mortgage and bank lending for the period were DKK 1,159m against DKK 1,129m in Q1-Q3/2014.

Investment portfolio income

Nykredit's investment portfolio income totalled DKK 378m against DKK 878m in Q1-Q3/2014, excluding capital gains from the sale of strategic equities. Investment portfolio income from bonds, liquidity and interest rate instruments amounted to DKK 196m. Investment portfolio income from equities and equity instruments value adjusted on a current basis through profit or loss was DKK 182m.

In addition, capital gains recognised through profit or loss from the sale of strategic equities amounted to DKK 103m relative to the acquisition cost.

Investment portfolio income equals excess income obtained from portfolios not allocated to the business areas in addition to risk-free interest. To this should be added the realised capital gains/losses on equities classified as available for sale.

Nykredit's securities portfolio mainly consists of short-term, highrated Danish and other European covered bonds and credit bonds.

The interest rate risk associated with the bond portfolio was largely eliminated through offsetting government bond sales or the use of interest rate derivatives.

Net interest on subordinated debt

Nykredit had raised subordinated debt totalling DKK 4.7bn at end-Q3/2015 following loan redemption of EUR 900m (DKK 6.7bn) in Q2/2015.

Net interest expenses came to DKK 224m.

Тах

Tax calculated on profit for the period was DKK 1,120m, equal to a tax rate of 36.0%. The high tax rate reflects the fact that goodwill impairment is not deductible for tax purposes.

Additional Tier 1 capital

Nykredit issued EUR 500m of Additional Tier 1 (AT1) capital notes in Q1/2015. The notes are perpetual, and payment of principal and interest is discretionary, for which reason the issue is treated as equity for accounting purposes. Correspondingly, interest expenses relating to the issue are recorded as dividend for accounting purposes.

Interest expenses amounted to DKK 138m in Q1-Q3/2015.

RESULTS FOR Q3/2015

The Group recorded a loss before tax of DKK 858m in Q3/2015 against a profit of DKK 3,087m in Q2/2015 and DKK 883m in Q1. The quarterly fluctuations mainly stem from value adjustment of interest rate swaps and for Q3 also from a goodwill impairment charge of DKK 1,907m.

Profit for Q3/2015, excluding value adjustment of interest rate swaps, goodwill impairment and investment portfolio income was DKK 1,301m against DKK 1,526m in Q2/2015.

Core income from business operations amounted to DKK 2,886m in Q3/2015 against DKK 2,946m in Q2.

Operating costs, excluding special value adjustments and goodwill impairment, were DKK 1,165m in Q3/2015, equal to a decline of DKK 18m compared with Q2.

Loan impairment losses were up from DKK 120m in Q2/2015 to DKK 244m in Q3. Loan impairment losses rose by DKK 72m for banking and DKK 52m for mortgage lending.

Investment portfolio income declined from DKK 46m in Q2 to a loss of DKK 10m in Q3/2015, which included DKK 103m of realised capital gains from the sale of strategic equities, which were previously value adjusted against equity.

Net interest on subordinated debt amounted to DKK 35m in Q3 against DKK 28m in Q2.

Compared with Q3/2014, loss before tax increased by DKK 689m from DKK 169m to DKK 858m in Q3/2015. The change chiefly derived from value adjustment of interest rate swaps, which provided a positive impact of DKK 1,316m, whereas goodwill impairment and higher costs relating to the guarantee and resolution schemes increased expenses to DKK 1,956m.

Core income from business operations dropped by DKK 33m to DKK 2,886m in Q3/2015 against DKK 2,919m in Q3/2014. Operating costs saw a moderate fall to DKK 1,165m against DKK 1,178m in Q3/2014.

Loan impairment losses saw a positive development, down DKK 164m to DKK 244m in Q3/2015.

The investment portfolio produced a loss of DKK 10m against an income of DKK 276m in Q3/2014. Investment portfolio income in Q3/2015 included DKK 103m of realised capital gains from the sale of strategic equities.

Net interest on subordinated debt came to DKK 35m in Q3/2015 against DKK 145m in Q3/2014. The decline partly stemmed from loans redeemed in Q2/2015.

OUTLOOK FOR 2015

In the Annual Report 2014, Nykredit forecast core earnings after impairment losses, excluding value adjustment of interest rate swaps, of DKK 3.8bn-4.3bn for 2015.

Against the backdrop of a positive performance in H1/2015, Management decided to raise its forecast of core earnings after impairment losses, excluding value adjustment of interest rate swaps, for 2015 by DKK 0.4bn to DKK 4.2bn-4.7bn.

Based on the development in Q3, Management forecasts that core earnings after impairment losses for 2015 will amount to DKK 4.7bn-5.2bn, excluding value adjustment of interest rate swaps and goodwill impairment.

In its full-year guidance, Management has allowed for the general uncertainty about the developments in interest rate markets and uncertainty about loan impairment losses, which were very low in Q1-Q3/2015.

BUSINESS AREAS

Nykredit's management and organisational structure is based on the following business areas:

- Retail, which serves Nykredit's personal customers and SMEs. The business area includes mortgage lending to Nykredit's personal customers arranged via Totalkredit.
- Wholesale, which comprises Totalkredit Partners and Wholesale Clients. Totalkredit Partners arranges the Group's mortgage loans to personal customers via local and regional banks. Wholesale Clients comprises Corporate & Institutional Banking and the business units Nykredit Markets and Nykredit Asset Management.

Further, Group Items comprises income and costs not allocated to the business areas, including unallocated IT costs and core income from securities and investment portfolio income.

Gross income from customer business is allocated to the business areas which have supplied the underlying products (Nykredit Markets and Nykredit Asset Management). Gross income attributable to the sales activities of Retail and Corporate & Institutional Banking is subsequently reallocated in full. Correspondingly, Retail and Corporate & Institutional Banking pay a proportion of the operating costs of Nykredit Markets and Nykredit Asset Management that may be attributed to the sales activities.

The Group's core earnings after impairment losses increased by DKK 1,800m to DKK 2,853m against DKK 1,053m in Q1-Q3/2014.

Retail posted a DKK 2,052m rise, mainly due to a DKK 1,308m rise in positive value adjustment of interest rate swaps and a DKK 480m decrease in loan impairment losses.

Totalkredit Partners saw a DKK 63m reduction, excluding goodwill impairment of DKK 1,907m. The reduction covered a DKK 193m increase in income and a DKK 257m rise in operating costs and impairment losses.

Core earnings in Wholesale Clients increased by DKK 1,610m in part due to DKK 243m income growth, a DKK 897m upturn in positive value adjustment of interest rate swaps and a DKK 404m decline in impairment.

Results before tax in Group Items decreased by DKK 131m, which mainly derived from a DKK 164m cut in operating costs, a DKK 397m reduction in investment portfolio income, and a DKK 158m downturn in net interest on subordinated debt.

The Group's share of total Danish mortgage lending was 39.7% compared with 39.8% at the beginning of the year, excluding loans arranged by Jyske Bank and others which are no longer part of the Totalkredit alliance. Nykredit's market share was 42.2% of the private residential segment and 36.6% of the commercial segment against 41.9% and 37.6%, respectively, at the beginning of the year.

Core income from business operations - Retail

RETAIL

The business area Retail serves personal customers and SMEs, including agricultural customers, small housing cooperatives and private residential rental customers. Mortgage loans granted via Totalkredit to Nykredit's personal customers also form part of the business area Retail. Retail also includes the activities of Nykredit Mægler A/S.

We serve our customers through 54 local customer centres and the nationwide sales and advisory centre Nykredit Direkte[®]. The estate agencies of the Nybolig and Estate chains constitute other distribution channels. Nykredit offers insurance in partnership with Gjensidige Forsikring.

The customers of Retail are offered banking, mortgage lending, insurance, pension, investment and debt management products.

Activities

Retail recorded a very high activity level in Q1–Q3/2015 – especially in Q1 – and gross new mortgage lending increased by DKK 28.6bn to DKK 61.4bn year-on-year. Gross new lending to personal and commercial customers was DKK 26.3bn and DKK 35.1bn, respectively.

Nominal mortgage lending declined by DKK 2.2bn to DKK 439.9bn compared with the beginning of the year. Of the decline, DKK 2.9bn was attributable to personal customers, whereas lending to commercial customers rose by DKK 0.7bn. Lending to personal and commercial customers was DKK 194.0bn and DKK 245.9bn, respectively.

Bank lending was down by DKK 0.9bn to DKK 24.6bn relative to the beginning of the year, whereas deposits were up by DKK 0.5bn to DKK 41.1bn.

Results

Core earnings after impairment losses grew by DKK 2,052m to DKK 2,119m. Excluding value adjustment of interest rate swaps, core earnings came to DKK 1,979m, up DKK 744m on Q1-Q3/2014.

Income from business operations grew by DKK 251m, or 5%, to DKK 4,856m, whereas impairment losses reduced by DKK 480m to DKK 573m, mainly prompted by lower mortgage loan losses. Value adjustment of interest rate swaps was a gain of DKK 140m, which was DKK 1,308m higher than in Q1-Q3/2014.

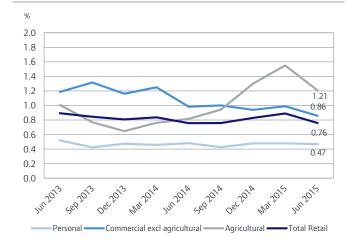

Operating costs were trimmed by DKK 10m to DKK 2,208m in Q1-Q3/2015.

Impairment losses on Retail's mortgage lending fell by DKK 468m, or 50%, to DKK 474m, while impairment losses on bank lending dropped by DKK 12m. Impairment losses represented 0.11% of mortgage lending and 0.37% of bank lending in the period under review.

Loan impairment losses on personal customers reduced by a total of DKK 299m, of which DKK 140m related to mortgage lending and DKK 159m to bank lending.

Impairment losses on loans to commercial customers reduced by a total of DKK 181m, covering a DKK 328m fall and a DKK 147m rise in impairment of mortgage lending and bank lending, respectively.

Arrears ratio, mortgage lending – Retail 75 days past due

At end-Q3/2015, loan impairment provisions totalled DKK 5,713m, which was on a level with the DKK 5,672m recorded at the beginning of the year.

At the June due date, Retail's 75-day mortgage loan arrears as a percentage of total mortgage payments due came to 0.76% which was unchanged year-on-year.

Core income from business operations – Totalkredit Partners

WHOLESALE

Wholesale comprises the business units Totalkredit Partners and Wholesale Clients. The latter consists of Corporate & Institutional Banking, Nykredit Markets and Nykredit Asset Management.

TOTALKREDIT PARTNERS

Under the Totalkredit brand, Totalkredit Partners provides personal customers with mortgage loans distributed through some 60 Danish local and regional banks.

Totalkredit continuously develops its product range in association with the local and regional partner banks, which includes a new secured homeowner loan. The loan allows partner banks to transfer bank loans secured on real estate to Totalkredit, and that way obtain funding for the loans.

Under the partnership, the local and regional banks receive part of the administration margin income relating to the loans in question as payment for loan distribution. In return, Totalkredit may offset part of any loss incurred on a loan against the distribution commission payable to the partner banks.

Losses incurred, corresponding to the cash part of a loan exceeding 60% of the mortgageable value of the property at the time of granting, are offset against future commission payments from Totalkredit to its partner banks.

Activities

Totalkredit Partners recorded a very high activity level in Q1-Q3/2015 – and especially in Q1 – and gross new lending was up by DKK 64.2bn to DKK 115.2bn year-on-year.

Nominal mortgage lending grew by DKK 7.2bn to DKK 491.8bn in Q1-Q3/2015. Loans arranged by Jyske Bank and others which are no longer part of the Totalkredit alliance, amounted to DKK 48bn at the end of Q3/2015 against DKK 88bn at end-2013. In this period, loans in the region of DKK 40bn were thus refinanced. Loans totalling some DKK 7bn of this amount were subsequently arranged by the other banks of the Totalkredit alliance and Totalkredit, corresponding to 17% of the refinanced amount.

Results

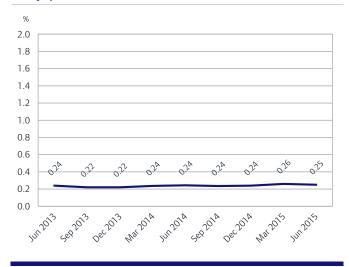

Core earnings after impairment losses on loans, excluding goodwill impairment, dropped by DKK 63m to DKK 1,217m against DKK 1,280m in Q1-Q3/2014. Including goodwill impairment of DKK 1,907m, earnings declined by DKK 1,970m to a loss of DKK 690m on the same period in 2014.

The results reflected growth in core income from business operations of DKK 163m, or 8%, coupled with a DKK 123m rise in operating costs and a DKK 134m rise in impairment losses.

The factors underlying growth in core income from business operations were improved income from the loan portfolio and from business operations.

Net expenses relating to senior secured debt came to DKK 133m against DKK 163m in Q1-Q3/2014. The reduction was attributable to a lower amount of senior secured debt as well as declining interest rates.

Arrears ratio, mortgage lending – Totalkredit Partners 75 days past due

As expected, costs excluding goodwill impairment were up by DKK 123m, or 46%, to DKK 390m relative to Q1-Q3/2014. The increase chiefly stemmed from higher IT expenses and changed intercompany settlements, which was a consequence of Totalkredit's increasing proportion of the Nykredit Group's overall activities.

Totalkredit Partners' loan impairment losses saw a rise of DKK 134m, or 57%, to DKK 371m year-on-year, after set-off against commission payable to partner banks.

At end-Q3/2015, impairment provisions totalled DKK 1,266m against DKK 1,152m at the beginning of the year. The increase in total impairment provisions stemmed from a rise in individual as well as collective impairment provisions.

At the June due date, Totalkredit Partners' 75-day mortgage loan arrears as a percentage of total mortgage payments due came to 0.25% against 0.24% at the same date in 2014.

WHOLESALE CLIENTS

The business area Wholesale Clients comprises activities with Nykredit's corporate and institutional clients, the non-profit housing segment, large housing cooperatives and mortgage lending to commercial customers for properties abroad. Wholesale Clients also handles Nykredit's activities within securities and financial derivatives trading, and asset and wealth management. Wholesale Clients consists of Corporate & Institutional Banking, Nykredit Markets and Nykredit Asset Management as well as the activities of Nykredit Leasing A/S.

Results

Core earnings after impairment losses rose by DKK 1,610m to DKK 1,893m against DKK 283m in Q1-Q3/2014.

The rise included an additional gain of DKK 897m relating to value adjustment of interest rate swaps. Exclusive of the effect thereof, core earnings after impairment losses increased by DKK 713m to DKK 1,821m.

Gross income from customer activities improved by DKK 245m to DKK 2,579m from DKK 2,334m in Q1-Q3/2014.

Nykredit Markets posted gross income of DKK 635m, a DKK 177m rise on Q1-Q3/2014. Earnings in Nykredit Markets grew in Q1-Q3/2015 compared with Q1-Q3/2014. However, earnings were lower for Q3 than for H1. Financial market turmoil remained substantial, and Q3 was challenged by less bright growth prospects for China and the ensuing devaluation leading to a drop in equity prices.

Nykredit Asset Management's gross income improved by DKK 4m to DKK 600m, while Corporate & Institutional Banking recorded growth of DKK 64m to DKK 1,344m.

Nykredit Markets's income after payment for distribution rose by DKK 148m to DKK 397m in Q1-Q3/2015. Nykredit Asset Management's income after payment for distribution increased by DKK 13m to DKK 254m, and Corporate & Institutional Banking recorded growth of DKK 82m to DKK 1,508m.

Value adjustment of interest rate swaps was a gain of DKK 72m against a loss of DKK 825m in Q1-Q3/2014.

Operating costs reduced by DKK 63m, or 10%, to DKK 579m in Q1-Q3/2015.

Impairment losses on mortgage lending equalled an income of DKK 65m against losses of DKK 149m in Q1-Q3/2014. Impairment losses on loans and advances amounted to an income of DKK 186m against losses of DKK 4m in Q1-Q3/2014.

Impairment amounted to negative 0.04% of mortgage lending and to negative 0.76% of bank lending.

At end-Q3/2015, impairment provisions totalled DKK 1,770m against DKK 2,187m at the beginning of the year.

Arrears ratio, mortgage lending – Wholesale Clients 75 days past due

Activities

In Q1-Q3/2015, gross new mortgage lending granted by Wholesale Clients grew by DKK 9.3bn to DKK 30.1bn year-on-year, spurred by a higher activity level.

Nominal mortgage lending decreased by DKK 4.6bn to DKK 180.4bn on the beginning of the year.

Bank lending fell by DKK 1.8bn to DKK 23.1bn on the beginning of the year, and bank deposits were down by DKK 3.4bn to DKK 19.9bn.

At end-Q3/2015, Nykredit Asset Management had assets under management totalling DKK 138.8bn, up DKK 5.3bn on the beginning of the year. The entire upturn was due to net sales, whereas net value adjustment for the period was almost zero. Total assets under administration rose by DKK 9.3bn to DKK 678.4bn at end-Q3/2015. The rise comprised negative net growth of DKK 11.0bn and capital gains of DKK 20.3bn.

Arrears

At the June due date, 75-day mortgage loan arrears in respect of Wholesale Clients's mortgage lending as a percentage of total mortgage payments due came to 0.12% and thus remained at a low level. The arrears ratio was 0.10% at the same time in 2014.

GROUP ITEMS

A number of income statement and balance sheet items are not allocated to the business areas. Such items are carried under Group Items and include costs of some staff functions and IT development costs. Group Items also includes Nykredit's total return on the securities portfolio, which is the sum of "Core income from securities" and "Investment portfolio income". The activities of the companies Nykredit Ejendomme A/S and Ejendomsselskabet Kalvebod A/S are also part of Group Items.

Results

Group Items posted a loss before tax of DKK 211m against a loss of DKK 80m in the same period the previous year.

Core income from securities

Nykredit's core income from securities was DKK 28m against DKK 93m in Q1-Q3/2014. This development chiefly stemmed from a fall from 0.20% to 0.06% in the average risk-free interest rate, which corresponds to the Danish central bank's average lending rate.

Core income from securities equals the return the Group could have obtained by placing its investment portfolios at the risk-free interest rate. Core income from securities also includes net interest expenses relating to Tier 2 capital.

Operating costs

Unallocated costs were DKK 323m against DKK 492m in Q1-Q3/2014. By far the largest cost component was IT development costs.

Impairment losses

Impairment losses on loans and advances were DKK 0m against DKK 15m in Q1-Q3/2014.

Investment portfolio income

Investment portfolio income totalled DKK 378m against DKK 878m, excluding reclassification of profit from the sale of strategic equities, in Q1-Q3/2014. Investment portfolio income from bonds, liquidity and interest rate instruments amounted to DKK 196m. Investment portfolio income from equities and equity instruments value adjusted continuously through profit or loss was DKK 182m.

In addition, capital gains recognised through profit or loss from the sale of strategic equities amounted to DKK 103m relative to the acquisition cost.

Investment portfolio income is the income exceeding risk-free interest obtained from investing in equities, bonds and derivative financial instruments. To this should be added the realised capital gains/losses on the sale of equities classified as available for sale. Price spreads and interest margins relating to the mortgage lending of Nykredit Realkredit and Totalkredit and the trading activities of Nykredit Markets are included not as investment portfolio income, but as core income from business operations.

Net value adjustment of strategic equities against equity was DKK 254m.

CAPITAL, LIQUIDITY AND FUNDING

EQUITY AND OWN FUNDS NYKREDIT REALKREDIT GROUP

Equity

Equity was DKK 64.6bn at end-Q3/2015, equal to a rise of DKK 5.9bn relative to the beginning of the year. Excluding Additional Tier 1 (AT1) capital raised in Q1/2015, equity amounted to DKK 60.7bn.

In Q1/2015, Nykredit raised new AT1 capital of EUR 500m (DKK 3.7bn), which is treated as equity for accounting purposes. However, for capital adequacy purposes, the AT1 capital is included in Tier 1 capital rather than Common Equity Tier 1 (CET1) capital.

requirement (Pillar I and Pillar II), %	11.8	11.3	11.2

Own funds and capital adequacy are specified further in note 2.

¹ Capital and capital adequacy have been determined in accordance with Capital Requirements Regulation No 575/2013 of the European Parliament and of the Council of 26 June 2013 as well as the Danish transitional rules laid down by the Danish FSA. The total risk exposure amount subject to transitional rules was DKK 47.9bn at end-Q3/2015, equal to a total capital ratio of 15.5%. Equity has also been increased by profit for the period of DKK 2.0bn and positive value adjustment of strategic equities of DKK 0.3bn.

In accordance with IAS 39, Nykredit has classified the Group's strategic equity investments as "available for sale" in its Consolidated Financial Statements. Current value adjustment of these equities is recognised in equity, whereas value adjustments following a sale are reclassified from equity to the income statement. The value of equities classified as available for sale totalled DKK 2,226m at end-Q3/2015.

Capital and capital adequacy

Nykredit's own funds include CET1 capital, AT1 capital and Tier 2 capital after deductions. In order to comfortably meet the new capital requirements, Nykredit issued AT1 capital totalling EUR 500m in Q1/2015, which is included in Tier 1 capital for capital adequacy purposes.

Total own funds rose by DKK 1.7bn to DKK 67.3bn in Q1-Q3/2015 compared with end-2014.

The risk exposure amount has declined from DKK 358.6bn to DKK 309.1bn since end-2014. The decline was due to capital optimisation, a decline in lending and swap exposures as well as higher property prices and ensuing lower loan-to-value (LTV) ratios.

The risk exposure amount is expected to go up by some DKK 30bn in connection with the statutory change of Nykredit Bank's capital requirement approach from Foundation IRB to the Advanced IRB approach. The increase in the risk exposure amount is the result of the fact that a number of capital additions which are included in Pillar II today will be included in Pillar I in future.

The total capital ratio was 21.7% against 18.2% at end-2014. The Tier 1 capital ratio was 20.4%, and the CET1 capital ratio was 19.2% at end-Q3/2015.

Nykredit's internal capital adequacy requirement was 11.8% at end-Q3/2015 compared with 11.3% at end-2014.

Nykredit has been designated as a systemically important financial institution (SIFI) by the Danish FSA. As a result, a special SIFI CET1 capital buffer requirement will apply to Nykredit. The requirement of 2% will be phased in gradually with 0.4% annually in the period 2015-2019.

NYKREDIT'S CAPITAL TARGETS FOR 2019

In Q1/2015, Nykredit raised the new AT1 capital which is included in the determination of equity for accounting purposes, but which cannot be included in CET1 capital for capital adequacy purposes.

Until end-H1 this year, Nykredit's capital targets were based on the concept of equity, but due to the above Nykredit now bases its capital targets on CET1 capital. This is also in line with the focus of authorities and credit rating agencies, which is mainly on CET1 capital rather than equity.

Nykredit has a CET1 capital target of minimum DKK 70bn by 2019. CET1 capital amounted to DKK 59.6bn at end-Q3/2015.

The target is based on the assessment that CET1 capital of 17.5% of the risk exposure amount is required in 2019 in order to have a satisfactory buffer to the regulatory requirements while also fulfilling the expectations of the market and credit rating agencies. Nykredit has set the capital target at 17.5% in consequence of the fact that Nykredit is one of the largest bond issuers in Europe and that Nykredit cannot issue listed shares. This places special demands on Nykredit's capitalisation. A strong capital position is a prerequisite for stable and secure bond sales and thereby low loan rates for customers even under difficult market conditions.

It should be noted that the capital target will have to be raised further if the international capital requirements are increased, which is currently being discussed by the Basel Committee and the European Banking Authority (EBA). Similarly, the capital target must be raised if the economic climate changes significantly.

The CET1 capital requirement is estimated at DKK 70bn in 2019, corresponding to the said 17.5% of the expected risk exposure amount of DKK 400bn in 2019. The risk exposure amount currently totals around DKK 310bn. The difference is due to statutory model changes for which capital has already been reserved under Pillar II (around DKK 30bn), ordinary market fluctuations in risk exposures due to changes in interest rates and property prices (around DKK 20bn) and, lastly, the expected business growth towards 2019 (around DKK 40bn).

Further, Nykredit has a general target of a total capital ratio of about 20% of the risk exposure amount.

DEBT BUFFER AND SENIOR DEBT

Nykredit has this year indicated that in order to maintain its long-term rating of A with Standard & Poor's, the Nykredit Group will meet the so-called ALAC criteria of this credit rating agency. The implication is that Nykredit must raise a special type of bail-inable senior debt or other subordinated capital totalling EUR 3bn-4bn.

Issuance of special bail-inable senior debt or another type of subordinated capital is likely to take place in 2016-2017. In the long run, such issuance will replace senior debt issues and ensure compliance with the statutory requirement of a debt buffer of 2% of the Group's mortgage lending. The debt buffer, which applies to the Group's mortgage activities, will be phased in up until 2020 and will amount to 0.6% in 2016, 0.8% in 2017, 1.6% in 2018, 1.8% in 2019 and 2.0% in 2020.

FUNDING AND LIQUIDITY

Most of Nykredit's assets consist of lending secured by mortgage over real estate. These loans are funded through issuance of mortgage covered bonds (SDOs and ROs). Mortgage covered bonds are issued by way of daily tap issuance combined with four annual refinancing auctions. Further, the Group may issue senior secured and senior unsecured debt to provide statutory supplementary collateral.

Bank lending is chiefly funded by deposits. At end-Q3/2015, Nykredit Bank had a deposit surplus of DKK 14.1bn measured as the difference between deposits and lending at amortised cost. The deposit surplus came to DKK 14.7bn at end-2014.

Liquidity

The balance sheet structure of the mortgage banks ensures a high level of liquidity. This is due to the fact that the borrowers make their payments on or before the date on which Nykredit pays the bondholders.

Liquidity is determined as the portfolios of highly liquid bonds and cash. The Nykredit Group's liquidity portfolio is funded by deposits, senior secured debt (JCBs), senior unsecured debt (EMTN and ECP programmes), subordinated debt and equity

The liquidity portfolio serves to ensure that Nykredit has a sizeable buffer for cash flows driven by customer flows, loan arrears, current costs and maturing capital market funding. In addition, the liquidity portfolio ensures the Group's compliance with regulatory liquidity requirements.

Nykredit's liquid assets are mainly liquid Danish and other European government and covered bonds. In a liquid repo market, these securities are eligible as collateral with other banks and with the Danish or other European central banks and are directly exchangeable into liquidity. To this should be added a small portfolio of money market deposits, equities, credit bonds and similar assets.

The unencumbered part of the liquid assets of the Group's mortgage banks, including proceeds from senior secured debt in issue, totalled DKK 83bn at end-Q3/2015 against DKK 91bn at end-2014.

At end-Q3/2015, Nykredit Bank's liquid assets totalled DKK 77.9bn against DKK 92.3bn at end-2014, determined in accordance with section 152 of the Danish Financial Business Act.

Liquidity Coverage Ratio (LCR)

On 10 October 2014, the European Commission published the final LCR regulation effective as at 1 October 2015. A requirement of 100% will apply to Danish SIFIs as at 1 October 2015. The LCR quantifies the amount of high quality liquid assets (HQLAs) to be held by a credit institution in order to be able to cover net cash outflows over a short-term liquidity stress period.

At end-Q3/2015, the LCRs of the Group's companies were as follows:

Nykredit Realkredit Group	272%
Nykredit's mortgage banks	>2,000%
Nykredit Bank A/S	143%

Thus, the Group and the individual group companies all comply with the requirement of an LCR above 100%. The high ratios of Nykredit's mortgage banks derive from their low net outflows.

The Danish Financial Supervisory Authority (FSA) has granted an exemption to Nykredit Realkredit and Totalkredit relating to the determination of LCR. The exemption chiefly applies to mortgage lending governed by the balance principle. Therefore, the Danish FSA has introduced a new Pillar I liquidity requirement which will be introduced gradually up until 1 April 2016.

The portfolio of self-issued bonds is not LCR eligible.

Negative interest rates

Since May 2015, Nykredit has offered loans based on floating-rate bonds the interest rate of which may be negative. Nykredit's borrowers will benefit from potentially negative interest rates in the form of higher principal payments. Since May 2015, Nykredit has fixed negative coupon rates for two mortgage covered bonds.

Issuance in 2015

The issuance schedule for the Nykredit Realkredit Group's SDOs and ROs remains unchanged compared with the Annual Report 2014.

In 2016-2017, Nykredit expects to issue bail-inable senior debt or subordinated capital. These instruments will be applied to meet the debt buffer requirement and to maintain the existing ratings. In the long term, they will replace the senior secured debt.

Nykredit's issuance plans for subordinated debt are based on our capital targets.

In Q1/2015, Nykredit Realkredit issued EUR 500m of AT1 capital as replacement for some of the EUR 900m AT1 capital redeemed as at 1 April 2015. Further, Nykredit Bank issued senior unsecured debt totalling EUR 560m in Q2/2015.

CREDIT RATINGS

Nykredit Realkredit A/S and Nykredit Bank A/S both have a longterm unsecured credit rating of A and a short-term unsecured credit rating of A-1 with Standard & Poor's. The rating outlooks are negative.

Senior secured debt is rated A+ by Standard & Poor's. The rating is placed on CreditWatch with negative implications.

In rated capital centres, SDOs and ROs are all rated AAA by Standard & Poor's. The rating outlooks are stable.

On 13 July 2015, Standard & Poor's published its rating actions after its review of the implementation of the EU Bank Recovery and Resolution Directive (BRRD) in Denmark. Standard & Poor's took the position that its ratings on Danish banks will no longer include an uplift for expected government support during a crisis. Standard & Poor's noted at the same time that Nykredit Realkredit A/S expects to have a capital buffer of 5% according to the criteria of Standard & Poor's ALAC (Additional Loss-Absorbing Capacity) concept by mid-2017.

This made Standard & Poor's change its long-term credit ratings on Nykredit Realkredit A/S and Nykredit Bank A/S from A+ to A, whereas the short-term credit ratings were affirmed at A-1. This did not affect the ratings on the mortgage covered bonds issued by Nykredit Realkredit A/S and Totalkredit A/S.

Nykredit Realkredit A/S and Nykredit Bank A/S both have a longterm unsecured credit rating of A and a short-term unsecured credit rating of F1 with Fitch Ratings. The rating outlooks are stable.

Moody's Investors Service continues to publish unsolicited ratings for some companies of the Nykredit Group.

OTHER

Arbitration settlement between Jyske Bank and Nykredit

In February, Jyske Bank and Nykredit/Totalkredit settled the pending arbitration proceedings. The settlement stipulates the details of Jyske Bank's exit from the Totalkredit alliance, and the two parties have further settled a number of unresolved issues in other areas of their business relationship.

As part of the settlement, Jyske Bank will receive a one-off commission of DKK 83.6m in 2015, corresponding to 3-4 months' commission under the now terminated partnership agreement. Further, Nykredit Realkredit A/S has purchased Jyske Bank's shares in PRAS A/S, the company that was founded when Nykredit acquired Totalkredit. In connection with the transaction, a number of banks exercised their pre-emption rights to purchase the shares, and Nykredit subsequently purchased 96,575,885 shares net at a total value of DKK 344.8m.

The parties continue working together in areas of mutual interest, such as JN Data.

Goodwill impairment

Following talks with the Danish FSA, Nykredit has adjusted the Financial Statements for 2014. Retrospectively, goodwill impairment of DKK 852m relating to the acquisition of Forstædernes Bank A/S in 2008 has been charged to profit or loss. The correction will affect profit/loss, the balance sheet and equity in the Financial Statements for 2014. The restated comparative figures for 2014 have been applied in this Interim Report.

Moreover, in Q3/2015, Nykredit wrote down goodwill for impairment by DKK 1,907m in relation to the acquisition of Totalkredit A/S, as a result of the annual impairment test. Relative to the Financial Statements for 2014, the impairment test for 2015 has been changed, which means that Nykredit has applied the usual 5-year IFRS budget period. To this should be added the impact of higher cost of capital due to growing requirements for different types of capital from regulatory authorities and credit rating agencies. The cost pertaining to the individual types of capital is calculated on the basis of current net costs, including Nykredit's ROE requirements. The combination of the above changes implied a need to write down goodwill by DKK 1,907m, which was charged to profit or loss in the Financial Statements for 1 January to 30 September 2015.

Nykredit supports Totalkredit partners

In connection with the merger between Nordjyske Bank and Nørresundby Bank, which was approved on 31 March 2015, Nykredit made a commitment to take over a shareholding in the new bank from Spar Nord.

Nykredit acquired a shareholding of DKK 85m in connection with the merger.

BoligBank

In March Nykredit launched a new homeowner banking concept, BoligBank, with new competitive offers to our customers. The concept is targeted at homeowners, offering simple products at attractive fixed prices. Nykredit BoligBank embodies simplicity, transparency and freedom of choice. The objective is that it should be easy and simple to be a customer of Nykredit BoligBank. Customers have a choice of three programmes, with an increasing scale of benefits: BoligBank, BoligBank 360 and BoligBank 365. BoligBank is for all homeowners, whereas BoligBank 360 is aimed at the customers who also have their everyday banking with us. Customers with a net worth of more than DKK 500,000 are offered the BoligBank 365 programme.

BoligBank offers home finance, everyday banking, savings and pension plans as well as wealth management.

New member of Totalkredit's Executive Board

As at 30 September 2015, Camilla Holm, Senior Vice President of Totalkredit Business Development, joined Totalkredit's Executive Board, which now counts Troels Bülow-Olsen and Camilla Holm.

The purpose being to increase focus on business development and earnings and to ensure powerful representation of Totalkredit – in interactions with the partner banks and in the daily cooperation across the Nykredit Group.

Totalkredit alliance also to include commercial business

Having offered mortgage loans to homeowners for more than 25 years, the Totalkredit alliance has now entered the commercial loan market. From December 2015, the first commercial customers will be offered commercial loans, and from March 2016 all of the around 60 partner banks can offer Totalkredit commercial loans.

Totalkredit loans are offered to businesses in the segments office and retail, residential rental property and industry and trades.

The launch of commercial loans strengthens the Totalkredit alliance, providing new growth potential for both partner banks and Totalkredit.

The Danish High Court finds for Nykredit

In July 2015, the Danish High Court found for Nykredit, ruling that a housing cooperative's petition for bankruptcy cannot be granted under the specific circumstances. In December 2014, the Maritime and Commercial Court in Copenhagen granted the petition for bankruptcy of the housing cooperative.

New Head of Nykredit Markets and change in Nykredit Bank's Executive Board

Nykredit Markets is set to embark on a renewal process, and Jeannette Kiirdal Madsen was appointed to head this process in February 2015. Nykredit Markets is to adapt to the new market conditions and work more closely with the rest of the Wholesale division. Focus will to a higher extent be on meeting the requirements of the commercial and retail segments as a supplement to the existing institutional client base.

In this connection, Georg Andersen, former Managing Director of Nykredit Bank and Head of Nykredit Markets, stepped down from his position. Furthermore, Jesper Berg resigned from Nykredit Bank's Executive Board at end-September to take up the position as Director General of the Danish FSA. Nykredit Bank's Executive Board now consists of Bjørn Mortensen.

EU rules on the recovery and resolution of banks

The implementation of new EU rules implies that a resolution fund must be built up at sector level the purpose of which is to issue guarantees and provide loans etc to credit institutions in connection with restructuring and resolution measures.

In continuation of this, a resolution fund has been established, which must amount to at least 1% of the covered deposits of the participating businesses. The Resolution Fund will be constituted by the contributions paid by the participating businesses, and it must be built up by end-2024.

The calculations for H2/2015, including the Nykredit Group's contribution, have not been finalised yet, but about DKK 50m was charged to the income statement for Q1-Q3/2015, equal to the estimated expense for Q3.

UNCERTAINTY AS TO RECOGNITION AND MEASUREMENT

The measurement of certain assets and liabilities is based on accounting estimates made by Group Management.

The areas in which assumptions and estimates significant to the financial statements have been made include provisions for loan and receivable impairment, unlisted financial instruments and other provisions, see the Annual Report 2014.

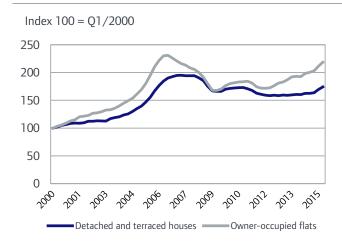

Uncertainty as to recognition and measurement is described in detail in the Group's accounting policies (note 1 of the Annual Report 2014), to which reference is made.

EVENTS SINCE THE BALANCE SHEET DATE

No significant events have occurred in the period up to the presentation of the Q1-Q3 Interim Report 2015 which affect the Nykredit Group's financial position.

LENDING

Nykredit Realkredit Group Housing prices in Denmark

Source: Association of Danish Mortgage Banks

The Group recorded total mortgage and bank lending, excluding reverse repurchase lending, of DKK 1,160bn against DKK 1,162bn at the beginning of the year.

Mortgage lending at fair value was DKK 1,118bn against DKK 1,137bn at the beginning of the year. Nominal mortgage lending amounted to DKK 1,112bn.

Bank lending totalled DKK 47.5bn against DKK 50.5bn at the beginning of the year, down DKK 3.0bn. The level in part reflected modest loan demand. In addition, reverse repurchase lending amounted to DKK 34.5bn against DKK 35.2bn at the beginning of the year.

Impairment provisions for mortgage and bank lending totalled DKK 8.8bn against DKK 9.1bn at the beginning of the year. Impairment provisions for receivables from credit institutions came to DKK 44m, the same level as at the beginning of 2015.

At end-Q3/2015, guarantees came to DKK 7.6bn against DKK 7.5bn at the beginning of the year.

Incurred losses totalled DKK 1,159m in Q1-Q3/2015 of which mortgage lending accounted for DKK 757m and bank lending DKK 402m.

¹ Loan impairment excluding receivables from credit institutions, reverse repurchase lending and guarantees.

Note: Mortgage lending is stated at nominal value, adjusted for intercompany lending and intercompany set-off.

MORTGAGE LENDING

At end-Q3/2015, the DKK 1,112bn credit exposure was flat in terms of nominal mortgage lending compared with the beginning of the year.

The security behind the mortgage loan portfolio is robust. Also, mortgage loans granted via Totalkredit are covered by set-off agreements, which means that Totalkredit may offset part of the losses incurred on mortgage loans against future commission payments to the partner banks which have distributed the loans.

The LTV ratios of the mortgage loan portfolio are shown in the table below with individual loans relative to the estimated values of the individual properties at end-Q3/2015.

Total provisions for mortgage loan impairment

Total impairment provisions for mortgage lending rose by DKK 178m from the beginning of the year to DKK 5,684m at end-Q3/2015. Of the increase, DKK 48m was related to private residential property, DKK 69m was attributable to office and retail and DKK 236m to agricultural property. Further, the private rental segment recorded a reversal of DKK 70m and the non-profit housing segment a reversal of DKK 50m.

Private residential property accounted for DKK 48m of the increase in Q1-Q3/2015 and commercial property DKK 130m.

Total impairment provisions equalled 0.51% of total mortgage lending against 0.50% at the beginning of the year.

Total earnings impact

Impairment losses on mortgage lending were DKK 780m against DKK 1,327m in Q1-Q3/2014. Of total loan impairment losses for the period, DKK 426m, or 55%, was attributable to the private residential segment, while DKK 302m, or 39%, related to agricultural property.

Nykredit Realkredit Group

Total, end-2014	653,815	235,800	134,014	23,945	10,883	10,648	1,137,983	69

¹ Determined as the top part of the debt outstanding relative to estimated property values.

Note: The figures are actual LTV ratios including any financed costs. Public authority guarantees reduce the credit risk relating to subsidised housing that forms part of lending to the non-profit housing segment. For this reason, LTVs of non-profit housing offer no relevant risk data.

In the table, debt outstanding is distributed continuously by LTV category. Loans with security covering for example between 0% and 60% of the mortgageable value are distributed with two thirds of the debt outstanding in the LTV category 0-40% and one third in the LTV category 40-60%.

- June	0.41	0.43	4.8
- March	0.46	0.47	5.2

Nykredit Realkredit Group

Arrears ratio, mortgage lending – 75 days past due

Arrears

At the June due date, mortgage loan arrears as a percentage of total mortgage payments due were 0.42% against 0.41% at the same time in 2014.

The Group's mortgage lending affected by arrears was 0.48% of total mortgage lending (bond debt outstanding) compared with 0.43% at the same time the previous year.

Acquired properties

In Q1-Q3/2015, the Group acquired 167 properties and sold 229. At end-Q3/2015, the property portfolio stood at 176 against 238 at the beginning of the year. Of this amount, residential property accounted for 97 against 117 at end-2014.

BANK LENDING

Loans, advances and guarantees were DKK 89.6bn against DKK 93.3bn at the beginning of the year, down DKK 3.7bn. The decline chiefly stemmed from lending, which fell by DKK 3.0bn to DKK 47.5bn.

Bank lending amounted to DKK 47.5bn against DKK 50.5bn at the beginning of the year. The level in part reflected continued modest loan demand. Bank lending before provisions for loan impairment was DKK 50.6bn against DKK 54.1bn at the beginning of the year.

Nykredit Bank recorded negative lending growth of 5.8%, excluding reverse repurchase lending, determined pursuant to the rules of the Danish FSA, including rules relating to the FSA Supervisory Diamond model.

Total provisions for bank loan impairment

Provisions for bank loan impairment totalled DKK 3,118m against DKK 3,560m at the beginning of the year.

Impairment provisions for receivables from credit institutions came to DKK 23m at end-Q3/2015, the same level as at end-2014.

Guarantees

Nykredit Bank issues guarantees on a current basis. Guarantees issued totalled DKK 7.6bn against DKK 7.5bn at the beginning of the year.

At end-Q3/2014, provisions for guarantees amounted to DKK 109m against DKK 107m at the beginning of the year.

Total earnings impact

Impairment losses on loans and advances and provisions for guarantees resulted in a reversal of DKK 87m. By comparison, loan impairment losses and provisions for guarantees were DKK 115m in Q1-Q3/2014.

MANAGEMENT STATEMENT

STATEMENT BY THE BOARD OF DIRECTORS AND THE EXECUTIVE **BOARD ON THE INTERIM REPORT**

The Board of Directors and the Executive Board have today reviewed and approved the Interim Report for the period 1 January - 30 September 2015 of Nykredit Realkredit A/S and the Nykredit Realkredit Group.

The Consolidated Financial Statements have been presented in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU. The Interim Financial Statements of the Parent Company have been prepared in accordance with the Danish Financial Business Act and the Danish Executive Order on Financial Reports for Credit Institutions and Investment Firms, etc.

Further, the Interim Report has been prepared in accordance with additional Danish disclosure requirements for interim reports of issuers of listed bonds.

We are of the opinion that the Interim Financial Statements give a fair presentation of the Group's and the Parent Company's assets, liabilities, equity and financial position at 30 September 2015 and of the results of the Group's and the Parent Company's operations as well as the Group's cash flows for the financial period 1 January - 30 September 2015.

We are furthermore of the opinion that the Management's Review gives a fair review of the development in the operations and financial circumstances of the Group and the Parent Company as well as a description of the material risk and uncertainty factors which may affect the Group and the Parent Company.

The Interim Report has not been audited or reviewed

¹ The share capital is divided into shares of DKK 100 and multiples thereof. Nykredit Realkredit A/S has only one class of shares, and all the shares confer the same rights on shareholders.

² The item relates to transfer to reserves for net revaluation according to the equity method. The reserves are non-distributable.

³ Additional Tier 1 (AT1) capital is perpetual and payment of principal and interest is discretionary. For accounting purposes, the bonds are consequently treated as equity. On 26 February 2015, Nykredit issued EUR 500m (nominal) of AT1 capital, which may be redeemed from 26 October 2020. The AT1 capital carries an interest rate of 6.25% pa up to 26 October 2020, after which date the interest rate will be fixed every five years. If the Common Equity Tier 1 (CET1) capital ratio of Nykredit Realkredit A/S, the Nykredit Realkredit Group or the Nykredit Holding Group falls below 7.125%, the loan will be written down.

1. ACCOUNTING POLICIES

GENERAL

The Consolidated Financial Statements for Q1-Q3/2015 are prepared in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU and further Danish financial reporting and disclosure requirements for interim reports. Compliance with IAS 34 implies observance of the principles of recognition and measurement of the IFRS but also a less detailed presentation relative to the annual report.

The Interim Financial Statements for Q1-Q3/2015 of the Parent Company are prepared in accordance with the Executive Order on Financial Reports for Credit Institutions and Investment Firms, etc. (the Danish Executive Order on the Presentation of Financial Statements) issued by the Danish Financial Supervisory Authority (FSA).

Goodwill impairment relating to the acquisition of Forstædernes Bank A/S

The FSA has performed a partial review of Nykredit Realkredit's Financial Statements 2014, with special focus on the carrying amount of goodwill. According to the FSA, their review showed that goodwill was overvalued by DKK 852m in Nykredit Realkredit's Financial Statements 2014. As a result, a few items have been adjusted retrospectively for the financial year 2014. These items have been corrected by DKK 852m.

New and amended standards, interpretations and reporting provisions

Reporting standards and interpretations in force from 1 January 2015 have been implemented with no effect on results, comprehensive income, balance sheet or equity for the period.

Compared with the information disclosed in the accounting policies of the Annual Report 2014 (note 1), no new reporting standards or interpretations have been issued or approved which influence the Q1– Q3 Interim Report 2015 of Nykredit Realkredit A/S and the Nykredit Realkredit Group.

The accounting policies are unchanged compared with the Annual Report 2014. For a full description of the Group's and the Parent Company's accounting policies, please refer to note 1 of the Annual Report 2014, which is available at nykredit.com/reports.

All figures in the Interim Report are rounded to the nearest million kroner (DKK). The totals stated are calculated on the basis of actual figures. Due to the rounding-off, the sum of individual figures and the stated totals may differ slightly.

		focus on the carrying amount of goodwill. According to the FSA, their review showed that goodwill was overvalued by DKK 852m in Nykredit Realkredit's Financial Statements 2014. As a result, goodwill has been adjusted by DKK 852m at end-2014. For further information, reference is made to note 1, Account- ing policies, under General. In Q3/2015, Nykredit has written down goodwill relating to the acquisition of Totalkredit for impairment. The goodwill impairment reflected the annual impairment test, in which a reduction of the budget and projection periods from 10 to 5 years combined with higher costs of capital resulted in impairment of DKK 1,907m. 17 b. -	-	Total	7,568	7,5
		"Other contingent liabilities" chiefly comprises purchase price and payment guarantees.		
		26 b. Other commitments		
1	0	Irrevocable credit commitments	4,698	4,5
1,121	1,210	Other	1,435	1,3
1,121	1,210	Total	6,132	5,8

"Other" under "Other commitments" comprises obligations to and charges in favour of securities depositaries, investment commitments to private equity funds and non-cancellable lease rentals.

Additional contingent liabilities

Owing to its size and business scope, the Nykredit Group is continuously involved in legal proceedings and litigation. The cases are subject to ongoing review, and necessary provisions are made based on an assessment of the risk of loss. Pending cases are not expected to have a significant effect on the Nykredit Group's financial position.

Nykredit participates in the mandatory Danish deposit guarantee scheme. A new scheme has been introduced in 2015, as the Danish Guarantee Fund took over the activities and assets of the Danish Guarantee Fund for Depositors and Investors on 1 June 2015. The purpose of the Danish Guarantee Fund is to provide cover for depositors and investors of distressed institutions included in the Fund's scheme. The scheme includes both natural and legal persons, and deposits are covered by an amount equivalent to EUR 100,000 per depositor and EUR 20,000 per investor.

Nykredit also participates in the Resolution Fund scheme, which is a resolution finance scheme that was also established on 1 June 2015. The Resolution Fund is financed by annual contributions from participating banks, mortgage lenders and investment companies and, as from 31 December 2024, the assets of the scheme must make up 1% of the sector's covered deposits.

Participating institutions pay an annual amount to cover any losses incurred by the Resolution Fund in connection with the resolution of distressed institutions.

BEC is one of Nykredit Bank's IT providers. According to BEC's articles of association, Nykredit Bank may terminate its membership of BEC giving 5 years' notice to the end of a financial year. Should the membership terminate for other reasons related to Nykredit Bank, compensation will be payable to BEC as defined in BEC's articles of association. If a bank merges and ceases being an independent bank, the BEC membership terminates without notice or subject to a transitional scheme.

Nykredit Realkredit has issued a letter of comfort stating that Nykredit Realkredit will contribute capital to Nykredit Bank to ensure that Nykredit Bank's Tier 1 capital calculated according to the Basel II rules does not fall below 12-13%. However, Nykredit Realkredit will not contribute capital to Nykredit Bank if that will bring Nykredit Realkredit's total capital ratio below the statutory capital requirement plus 0.5% or the internal capital adequacy requirement (ICAAP) plus 0.5%.

Nykredit Realkredit is jointly taxed in Denmark with Foreningen Nykredit (the Nykredit Association) as the administration company. Pursuant to the Danish Corporation Tax Act, the Company is liable for income taxes etc payable by the jointly taxed companies as of the financial year 2013 and for any obligations to withhold tax at source on interest, royalties and dividends of these companies as of 1 July 2012.

27. RELATED PARTY TRANSACTIONS AND BALANCES

Foreningen Nykredit, the Parent Company Nykredit Holding A/S, group enterprises and associates of Nykredit Realkredit A/S as stated in the group structure as well as Nykredit Realkredit A/S's Board of Directors, Executive Board and related parties thereof are regarded as related parties.

No unusual related party transactions occurred in Q1-Q3/2015.

The companies have entered into various agreements as a natural part of the Group's day-to-day operations. The agreements typically involve financing, provision of guarantees, sales commission, tasks relating to IT support and IT development projects, payroll and staff administration as well as other administrative tasks. Intercompany trading in goods and services took place on an arm's length or cost reimbursement basis.

Significant related party transactions prevailing/entered into in Q1-Q3 2015 include:

Agreements between Nykredit Realkredit A/S and Totalkredit A/S

As a part of the Group's joint funding activities, Nykredit Realkredit A/S has funded mortgage loans granted by its subsidiary Totalkredit A/S on an ongoing basis.

Nykredit Realkredit A/S has granted a loan to Totalkredit A/S serving as collateral in Totalkredit's capital centres. The loan amounted to DKK 13.0bn at 30 September 2015.

An agreement has been made to hedge market risk relating to collateral, including investments, in Totalkredit's capital centres.

Agreement on the distribution of mortgage loans to personal customers via Totalkredit A/S (this agreement was concluded on the same terms as apply to other partners, including commission payments).

Nykredit Realkredit A/S has granted loans of DKK 3.1bn to Totalkredit A/S in the form of subordinated debt.

Nykredit Realkredit Group

28. FAIR VALUE DISCLOSURES

Listed prices

The Group's assets and liabilities at fair value are to the widest extent possible recognised at listed prices or prices quoted in an active market or authorised market place.

Observable inputs

When an instrument is not traded in an active market, measurement is based on observable inputs and the use of generally accepted calculation methods as well as valuation and estimation techniques such as discounted cash flows and option models.

Observable inputs are typically yield curves, volatilities and market prices of similar instruments which are usually obtained through ordinary providers such as Reuters, Bloomberg or market makers. If the fair value is based on transactions in similar instruments, measurement is exclusively based on transactions at arm's length. Reverse repurchase lending and repo transactions as well as unlisted derivatives generally belong in this category.

Valuation techniques are generally applied to measure derivatives, unlisted assets and liabilities and properties.

Further, the valuation of derivatives implies the use of so-called Credit Value Adjustment (CVA), thus including counterparty credit risk in the valuation. The CVA, which accounts for DKK 275m of the positive market value of the derivatives, is primarily based on external credit curves such as Itraxx Main, but also on own data as regards customers without OEI in the lowest rating categories, as there are no external curves available suitable for calculation of credit risk on these customers. Upon entering into financial derivatives contracts, further provisions are made in the form of a so-called minimum margin for liquidity, credit risk and return on capital. The minimum margin is amortised at valuation of derivatives over the times-to maturity. At 30 September 2015, the non-amortised minimum margin amounted to DKK 429m compared with DKK 470m at end-2014. Finally, in some instances further value adjustment based on management judgement is made if the models do not take into account all known risks, including eg legal risks.

In some cases, markets, eg the bond market, have become inactive and illiquid. When assessing market transactions, it may therefore be difficult to conclude whether the transactions were executed at arm's length or were forced sales. If measurement is based on recent transactions, the transaction price is compared with a price based on relevant yield curves and discounting techniques.

Unobservable inputs

When it is not possible to measure financial instruments at fair value based on prices in active markets or observable inputs, measurement is based on own assumptions and extrapolations etc. Where possible and appropriate, measurement is based on actual transactions adjusted for differences in eg the liquidity, credit spreads and maturities of the instruments. The Group's unlisted equities are generally classified under this heading although valuation is based on the IPEV Valuation Guidelines.

The positive market values of a number of interest rate swaps with customers in the Bank's lowest rating categories have been adjusted for increased credit risk based on a so-called CVA model. The model uses the statistical data applied by the Bank to calculate collective impairment provisions for loans and advances at amortised cost. Interest rate swaps which have been fair value adjusted to DKK 0 (after deduction for collateral) due to the creditworthiness of the counterparty are also included in the category Unobservable inputs. Following value adjustment, the fair value came to DKK 572m at 30 September 2015 and thus represents the majority of derivatives with positive market values in this category. Credit value adjustments came to DKK 5,024m at 30 September 2015 (DKK 4,832m at end-2014).

The interest rate risk on these interest rate swaps is hedged in all material respects. However, interest rate fluctuations may impact results to the extent that the market value must be adjusted due to increased counterparty credit risk. A 0.1 percentage point change in interest rate levels will impact the fair value by +/- DKK 191m.

However, financial assets measured on the basis of unobservable inputs account for a very limited part of total financial assets at fair value. At 30 September 2015 the proportion was 0.3%, the same as at end-2014. The share of financial liabilities was 0.0%, which was unchanged on 31 December 2014.

Valuation, notably of instruments classified as unobservable inputs, is subject to some uncertainty. Of total assets and liabilities, DKK 3.3bn (2014: DKK 3.5bn) and DKK 0.2bn (2014: DKK 0.3bn), respectively, derived from this category. Assuming that an actual market price will deviate by +/- 10% from the calculated fair value, the earnings impact will be approximately DKK 355m in Q1-Q3/2015 (0.5% of equity at 30 September 2015). The earnings impact for 2014 has been estimated at DKK 380m (0.6% of equity at 31 December 2014).

Transfers between the categories Listed prices, Observable inputs and Unobservable inputs are made when an instrument is classified differently on the balance sheet date than at the beginning of the financial year. In Q1-Q3/2015 and 2014, transfers between the categories Observable inputs and Unobservable inputs mainly resulted from changes to the rating categories (credit risk) of counterparties and in all material respects concerned interest rate swaps. Transfers between the categories Listed prices and Observable inputs in all material respects resulted from redeemed bonds that were reclassified on redemption and came to DKK 0.9bn at 30 September 2015.

Nykredit

5 November 2015

NYKREDIT REALKREDIT A/S AND NYKREDIT REALKREDIT GROUP

SUPPLEMENTARY/CORRECTING DISCLOSURE FOR THE ANNUAL REPORT 2014

The corrections concern goodwill impairment of DKK 852m relating to Nykredit's acquisition of Forstædernes Bank in 2008.

This affects the Annual Report 2014, the Q1 Interim Report 2015 and the H1 Interim Report 2015 of Nykredit Realkredit A/S and the Nykredit Realkredit Group.

Financial year 2014

For the financial year 2014, the items set out below have been adjusted by DKK 852m. The total capital ratios and the Common Equity Tier 1 (CET1) capital ratios remain unchanged, as Nykredit's own funds are not affected by the impairment.

The correction does not affect tax for the year.

Q1/2015 and H1/2015

The announced income statement items in the Q1 Interim Report 2015 and the H1 Interim Report 2015 are not affected by goodwill impairment relating to the acquisition of Forstædernes Bank. Comprehensive income is also unchanged.

However, the balance sheets and equity in the Q1 Interim Report 2015 and the H1 Interim Report 2015 are affected by the corrections to the Annual Report 2014, as the opening balance sheet items have been adjusted by DKK 852m.

The correction does not affect regulatory capital, including the total capital ratios, CET1 capital ratios etc, nor the tax charge for the above financial periods.

The changes to the individual line items and financial ratios are specified below.

Statement

In 2015 the Danish Financial Supervisory Authority (FSA) performed a partial supervisory review of Nykredit Realkredit A/S's Annual Report 2014. The focus of the Danish FSA was aimed at Nykredit's intangible assets in the form of goodwill, including Nykredit's annual impairment test and the related assumptions and estimates.

Throughout 2015, Nykredit has had talks with the FSA and has accounted for the models and assumptions, including the budget period applying to the measurement.

Under IAS 36, the budget period forming part of the model must be disclosed in the annual report. In note 23 of its Annual Report 2014, Nykredit stated that future cash flows were estimated on the basis of a 10-year budget period.

It also appears from IAS 36 that the estimate of future cash flows should be based on a projection covering a maximum period of 5 years, but a longer period may be applied if these estimates are reliable. Nykredit has accounted for Management's assessments which underlie the use of a budget period of 10 years to the FSA.

However, the FSA did not find sufficient grounds for the longer budget period, including that it is not documented by experience that the longer period will provide a better basis of calculation. Furthermore, the FSA did not find that the applied business growth had been adequately documented.

The combination of a change of budget period from 10 to 5 years and a change in annual business growth resulted in an impairment need equal to the carrying amount of goodwill relating to the acquisition of Forstædernes Bank.

As a consequence, Nykredit must publish supplementary and correcting disclosures for the Annual Report 2014 and the subsequent Q1 Interim Report 2015 and the H1 Interim Report 2015.

Presentation of the corrected reports

The presentation includes the Annual Report 2014, the Q1 Interim Report 2015 and the H1 Interim Report 2015 of Nykredit Realkredit A/S and the Nykredit Realkredit Group.

The auditors' reports below solely concern the corrections relating to the audited Annual Report 2014, but not the Interim Financial Statements for 2015, which have not been audited.

In connection with the correction of significant accounting errors, disclosures must be provided on the type and the financial impact on items in income statements and balance sheets. The statements below show the changes in both income statements and balance sheets, including equity relative to the published financial statements. The presentation of the income statements and balance sheets is based on the format which Nykredit applies in annual reports and quarterly and half-year reports. The financial ratios affected by the correction as well as the note on goodwill are presented accordingly in the Annual Report 2014.

The supplementary/correcting financial disclosures should be read in conjunction with the published reports to give a fair presentation of Nykredit's assets, liabilities, equity, financial position and results in the financial periods in question.

It should be noted in particular that the correction does not affect the income statements for Q1 and H1/2015. The balance sheets and equity are, however, affected by the lower values at the beginning of the periods resulting from the correction for 2014.

Capital and capital adequacy

According to applicable rules, goodwill cannot form part of own funds, for which reason equity carried for accounting purposes is always reduced by the value of goodwill carried for accounting purposes. Thus, the impairment was made for accounting purposes and does not affect the regulatory capital of the Group.

The total capital ratios etc of the Company and the Group are therefore unchanged relative to the published reports.

MANAGEMENT STATEMENT AND AUDIT REPORTS REGARDING THE ANNUAL REPORT 2014

Statement by the Board of Directors and the Executive Board on the Annual Report

The Board of Directors and the Executive Board have prepared this supplementary and correcting disclosure for the Annual Report 2014 of Nykredit Realkredit based on an enquiry from the Danish Financial Supervisory Authority (FSA) regarding partial supervisory review of the Annual Report 2014 and the subsequent talks with the FSA.

This supplementary/correcting disclosure should be read in conjunction with the Annual Report 2014 to give a fair presentation of the Parent Company's and the Group's assets, liabilities, equity and financial position at 31 December 2014 and of the results of the Company's and the Group's operations for the financial year 2014.

Copenhagen, 5 November 2015

Executive Board

We have today reviewed and approved this supplementary/correcting disclosure, which in our opinion is in accordance with the information we have received from the FSA.

INTERNAL AUDITORS' REPORT ON THE SUPPLEMEN-TARY/CORRECTING DISCLOSURE FOR THE ANNUAL REPORT 2014

We have audited the supplementary/correcting disclosure for the Annual Report 2014 of Nykredit Realkredit A/S. The supplementary/ correcting disclosure has been prepared in accordance with the statement above made by the Board of Directors.

Basis of opinion

We conducted our audit in accordance with the Executive Order of the Danish Financial Supervisory Authority on Auditing Financial Undertakings etc. as well as Financial Groups and the International Standards on Auditing. This requires us to plan and perform the audit to obtain reasonable assurance that the supplementary/correcting disclosure for the Annual Report 2014 is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the supplementary/correcting disclosure for the Annual Report 2014. The procedures selected depend on the auditor's judgement, including an assessment of the risks of material misstatement of the supplementary/correcting disclosure for the Annual Report 2014, whether due to fraud or error.

Our work has not included additional procedures relating to the Annual Report 2014, for which we made an unqualified audit report without supplemental information on 5 February 2015.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the supplementary/correcting disclosure for the Annual Report 2014 has been prepared, in all material respects, in accordance with the statement above made by the Board of Directors.

Copenhagen, 5 November 2015

Claus Okholm Chief Audit Executive Kim Stormly Hansen Deputy Chief Audit Executive

INDEPENDENT AUDITORS' REPORT ON THE SUPPLEMENTARY/CORRECTING DISCLOSURE FOR THE ANNUAL REPORT 2014

To the shareholder of Nykredit Realkredit A/S

We have audited the supplementary/correcting disclosure for the Annual Report 2014 of Nykredit Realkredit A/S. The supplementary/ correcting disclosure has been prepared in accordance with the statement above made by the Board of Directors.

Management's responsibility for the supplementary/correcting disclosure

Management is responsible for the supplementary/correcting disclosure for the Annual Report 2014 in accordance with the statement above made by the Board of Directors and for such internal control as Management determines is necessary to enable the preparation of supplementary/correcting disclosure that is free from material misstatement, whether due to fraud or error.

Basis of opinion

Our responsibility is to express an opinion on the supplementary/correcting disclosure for the Annual Report 2014. We conducted our audit in accordance with International Standards on Auditing and additional requirements in Danish audit legislation. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance that the supplementary/correcting disclosure for the Annual Report 2014 is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the supplementary/correcting disclosure for the Annual Report 2014. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the supplementary/correcting disclosure for the Annual Report 2014, whether due to fraud or error.

Our work has not included additional procedures relating to the Annual Report 2014 for which we made an unqualified audit report without supplemental information on 5 February 2015.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the supplementary/correcting disclosure for the Annual Report 2014 has been prepared, in all material respects, in accordance with the statement above made by the Board of Directors.

Impairment losses for the year	-	852	-	852
Impairment losses, end of period	-	852	-	852
Balance, end of period	2,759	1,907	2,782	1,930

Goodwill of DKK 1,907m at end-2014 (2013: DKK 1,907m) has been allocated to the business area Totalkredit Partners.

Goodwill of initially DKK 852m (2013: DKK 852m) was fully impaired in the financial year. It is related to Nykredit Bank A/S and has been allocated to the business area Group Items.

Goodwill acquired in the subsidiary Nykredit Bank A/S, totalling DKK 23m, includes DKK 9m from the acquisition of a branch in 2008 and DKK 14m from the acquisition of Amber Fondsmæglerselskab in 2011. Goodwill relating to the branch is allocated to the business area Retail, while goodwill relating to Amber Fondsmæglerselskab is allocated to the business area Wholesale of the unit Asset Management. The impairment test is based on a budget/projection period of 5 years and a required rate of return of 10.3%. In view of the insignificant amount, no supplementary information is provided, cf the option to leave out required information of IAS 36.134.

Goodwill is not amortised, but it is written down for impairment if warranted by the impairment test for the accounting period.

The impairment test compares the discounted value of expected future cash flows with the carrying amounts. Future cash flows are estimated on the basis of a 10year budget and projection period and a subsequent terminal period with a fixed annual growth rate. The cash flows of the 10-year budget period are based on a twoyear forecast and a projection for the following eight years. The determination of cash flows takes into account business plans for the coming years as well as expected changes to capital requirements.

The required rate of return before tax for 2014 comprises a 10-year risk-free interest rate of 1.3% and a risk premium of 9%.

CORRECTION TO NOTES 23 AND 23 A OF THE ANNUAL REPORT 2014

23 a. Goodwill (continued)

Impairment test of Nykredit Bank A/S 2014

Compared with previous years, the budget period related to the impairment test of Nykredit Bank A/S has been changed from 10 years to 5 years, as talks with the Danish FSA have established that the 10-year period was not adequately motivated, including that it is not documented by experience that the longer period provides a better basis of calculation. Furthermore, the FSA does not find that the applied business growth has been adequately documented. As a result of this correction, goodwill of DKK 852m has been written down for impairment in full. Goodwill has been allocated to the business area Group Items, and the impairment test is based on the expected cash flows of Nykredit Bank A/S.

Impairment test of Totalkredit A/S 2014

The impairment test of Totalkredit A/S is based on the following assumptions: Goodwill is allocated to the business area Totalkredit Partners.

The following primary assumptions have been taken into account:		
DKK million/%	2014 (as restated)	2013
Acquired goodwill	1,907	1,907
Required rate of return before tax, %	10.3%	11.3%
Budget period	10 years	10 years
Average annual impairment before set-off (variable by a declining per-		
centage during the period), %	0.14%-0.08%	0.14%-0.08%
Average annual business growth in the budget period, %	2.7%	3.5%
Fixed annual business growth in the terminal period, %	2.0%	2.0%

The calculation assumptions take into consideration Management-approved forecasts of income, costs, impairment losses on loans, advances and business growth. These forecasts are based on Nykredit's past experience, business strategies and an assessment of market and macro economic trends.

The required rate of return before tax of 10.3% reflects Nykredit's return target from end-2014 and comprises a return target before tax of 9% plus effective interest of 1.3%. The return target meets the target set by Nykredit's Board of Directors.

The budget period, including the projection period, is based on budgets approved by the Board of Directors and has been divided into two periods: A forecast of the first two years and a projection of the following eight years (the normalisation period), which is followed by the terminal period. Developments in the last 5 years of the projection period are kept largely constant.

The projections are based on a number of assumptions for eq lending growth and take into account business plans for the coming years as well as expected changes to capital requirements.

A 10-year period is applied resulting in a normalised earnings level before the terminal period. A 10-year period was chosen because, in Management's opinion, a 5year period is often not long enough for earnings levels to normalise after eg severe recession, resulting in major losses and lending declines. The longer period also allows for full implementation of new regulatory requirements.

The average annual growth in the budget period reflects Nykredit's budget targets. Among other things, the growth rates reflect an expectation of a stronger customer intake due to Nykredit's strategy.

The fixed growth rate in the terminal period determined at 2.0% is based on long-term inflation forecasts.

Sensitivity analysis

Cash flows have been determined based on a number of estimated parameters, where changes to the assumptions may affect to varying degrees the present value of the calculated cash flows and thus the result of the impairment test, which can be illustrated as follows:

- A reduction of annual business growth in the budget/projection period of more than 1.4 percentage points will result in full or partial impairment. A 1.9 percentage point reduction will result in full impairment.
- Adjusting the budget and projection periods from 10 to 5 years will cause a change in the excess value from approximately DKK 1.5bn to approximately DKK 0.8bn, but viewed separately this will not result in impairment.
- An increase in the required rate of return of more than 0.6 percentage point will result in impairment, and a 1 percentage point increase will result in impairment of DKK 0.8bn-0.9bn.
- A 0.1 or 0.2 percentage point increase in impairment losses will result in full goodwill impairment. Similar applies if average administration margins are reduced by 0.1 percentage point.

Q1/2015 AND H1/2015

Statement

In 2015 the Danish Financial Supervisory Authority (FSA) performed a partial supervisory review of Nykredit Realkredit A/S's Annual Report 2014. The focus of the FSA was aimed at Nykredit's intangible assets in the form of goodwill, including Nykredit's annual impairment test and the related assumptions and estimates.

Reference is made to the statement on page 2.

The correction of goodwill impairment relating to the acquisition of Forstædernes Bank does not affect the income statements, including profit and comprehensive income in 2015, as the correction has full effect in the Annual Report 2014.

But in the balance sheet, total intangible assets and the balance sheet total have been adjusted by negative DKK 852m as at 31 March 2015 and as at 30 June 2015 because the balance sheet values at end-2014 have been restated. Likewise, the equity carried for accounting purposes has been adjusted by DKK 852m due to the adjustment of equity at end-2014.

Presentation of the restated reports for 2015

The presentation includes the Q1 Interim Report 2015 and the H1 Interim Report 2015 of Nykredit Realkredit A/S and the Nykredit Realkredit Group.

In connection with the correction of significant accounting errors, disclosure must be provided on the type and the financial impact on items in income statements and balance sheets. The statements below show the changes in both income statements and balance sheets, including equity relative to the published financial statements. The presentation of the income statements and balance sheets is based on the format which Nykredit applies in annual reports and quarterly and half-year reports.

The financial ratios which are affected by the correction are presented accordingly.

The supplementary/correcting financial disclosure should be read in conjunction with the published reports to give a fair presentation of Nykredit's assets, liabilities, equity, financial position and results in the financial periods in question.

It should be noted that the correction does not affect the income statements for Q1/2015 and H1/2015. The balance sheets and equity are, however, affected by the lower values at the beginning of the period resulting from the correction for 2014.

Capital and capital adequacy

According to applicable rules, goodwill cannot form part of own funds, for which reason equity carried for accounting purposes is always reduced by the value of goodwill carried for accounting purposes. Thus, the impairment was made for accounting purposes and does not affect the regulatory capital of the Group.

The total capital ratios etc of the Company and the Group are therefore unchanged relative to the published reports.

MANAGEMENT STATEMENT ON Q1 AND H1 FINANCIAL STATEMENTS 2015

Statement by the Board of Directors and the Executive Board on the Interim Reports

The Board of Directors and the Executive Board have prepared this supplementary and correcting disclosure for Nykredit Realkredit's Interim Reports for Q1/2015 and H1/2015 based on an enquiry from the Danish Financial Supervisory Authority (FSA) regarding partial supervisory review of the Annual Report 2014 and subsequent talks with the FSA.

This supplementary/correcting disclosure should be read in conjunction with the Interim Reports for Q1/2015 and H1/2015 to give a fair presentation of the Parent Company's and the Group's assets, liabilities, equity and financial position at 31 March 2015 and 30 June 2015 and of the results of the Company's and the Group's operations for the period 1 January – 31 March 2015 and 1 January – 30 June 2015.

We have today reviewed and approved this supplementary/correcting disclosure, which in our opinion are in accordance with the information we have received from the FSA.
